TECH TIPS.

Lincoln wants Blaine's book.

ARMS WANTS BLAINE'S BOOK.

The Fox of Farm Colonies for the Regeneration of Social Outsiders.

A political association has been established in the State of New York for the purpose of making a thorough investigation of the railroad rates charged by the Government on the Texas and Pacific railways. The purpose of the association is to secure the best rates for the people of the State, and to prevent the over-charging of the rates.

The association will have its headquarters at the office of the New York Times, and will be under the direction of the editor, who will be in charge of the investigation. The association will be supported by contributions from the people of the State, and will be independent of any political party.

The association will make a thorough investigation of the rates charged by the Government on the Texas and Pacific railways, and will publish a report of its findings. The report will be published in the New York Times, and will be available to all interested parties.

The association will also publish a series of articles on the subject of railroad rates, which will be available to all interested parties.
