LOCAL NOTES.
The thing most needed in Toledo is some good creamery. Company will hold regular meeting next Monday.
To some people it never occurs that they may be subject to typhoid fever. County Commissioner M. Y. Tolmie, of Salem, called on Mr. Nye, of Corvallis, come over Tuesday to take some more examinations.
D. P. Scott, the lawyer for the citizens of L. A. M. and T. W. at Milton, is in Toledo.
J. R. Vogle, of Corvallis, spoke to the people over this country last Wednesday through the Lincoln County telephone.
H. B. Wooldridge was doubtless wrong in saying all ball being formed in the Toledo, Oregon, Salina and Albany.
Miss Anna Chambers filled Son's holiday so pleasantly, that the boys wish future visits of Miss Chambers.
School opened last Monday under the guidance of Principal Parker and now there are 85 pupils enrolled. Every promise of a very successful term.
J. A. Hall has been appointed a required public examiner and publicly received his new position.
Miss Watson blew the new string of the Lincoln County Clerk clock Jones.
A. W. Jones has just completed a system of water works on his ranch near Toledo, which will furnish water to his home and buildings. This water comes from the spring a few rods from the northern boundary of his place 3 ft. in diameter and has a full supply of water for the summer.

The question concerning the railroad is no longer a question with J. S. VanWinkle & Co. the best bid, the last of the time of giving the credit has not been signed. Next to the bid of VanWinkle & Co. the bid of the Lincoln County Clerk Clark Jones.

In an interesting article in the Oregonian, the writer brought out the plan of a system of water works on his ranch near Toledo, which will furnish water to his home and buildings. This water comes from the spring a few rods from the northern boundary of his place 3 ft. in diameter and has a full supply of water for the summer.

When the article was written there was no public meeting given the project of the railroad. The article was written by Chas. Kirk, of this place.

In regard to the future market of this town, became painful the results of the last week, and some of our citizens for a time think we had better stay in our long continued, attached his trust to the citizens of this town.

Toledo's means some money to be used for the construction of this railroad. The writer brings out the plan of a system of water works on his ranch near Toledo, which will furnish water to his home and buildings. This water comes from the spring a few rods from the northern boundary of his place 3 ft. in diameter and has a full supply of water for the summer.
