The shipment of cherries East from San Jose last week amounted to 444 775 discloses the fact that about \$15,000 repounds, in all eighteen carloads. The shipments of cherries to date this year amount to 1,465,870 pounds. Last year priation of \$50,000 becomes available, so the total shipment was 973,005 pounds

The Daly-West mine at Park City, tah, has been ordered closed down.

Highlands, from 10 to 15 years of age, had an organization called the "Black Diamond," which carried on a system of petty robberies. The boys were eager readers of cheap sensational literature.

As a practical solution of the strin-gency of gold in the money market it is proposed at San Francisco that, if the Federal government would immediately withdraw all restrictions to hydraulic mining, California before winter would be in a position to contribute over \$5,000,000 in gold. The proposition from interviews with prominent mining men is considered entirely feasible and op-

The rabies are now epidemic among animals of all kinds at Quijotoa, A. T. Several persons have had narrow escapes, one man saving himself from a frenzied one man saving infused from a frenzied horse by knocking it down with a large stone. The cause is lack of water on the mesa, whereby the coyotes go mad. The Papago Indians say the epidemic raged thus years ago, when it was un-safe to leave doors open at night for mad cayates.

The test case agreed upon as an outcome of the decision of the Washington Land Commission on Port Angeles tide lands has been made up. Allen Weir, attorney for Samuel G. Morse, petitioned the board for findings in Morse's behalf, setting forth in detail compliance with the old law. The board denied the pe for specific reasons that local boards were legislated out of existence March 15, and their plats and reports filed since that date were null and void and because the appraisement made at Port Angeles was null and youd under Section 28 of the new law. Upon this action petitioner applies to the Superior Court for a writ of mandate to compel the State Board to so certify in Morse's behalf, as it would have done had no question arisen as to repeal of law of March 26, 1890.

A formal discussion of the proposed World's Fair in San Francisco was held recently at the Palace Hotel, preparatory to a general meeting later. Her Cornely and Architect Bennett, who ac companied him from Chicago, were present. Herr Cornely recited his experiences in the past with expositions, and told the gentlemen that it was nec-essary for San Francisco to take some action at once on the proposition to have fair, for, he said, 4,000 foreign exhibitors in Chicago, who had sent him thither to represent them, were anxious to know as soon as possible whether the fair would be held there; otherwise they would send their exhibits to Antwerp, where an exhibition is to be held imme-diately after the World's Fair. He also assured the gentlemen that they could certainly count on all the foreign exhibiters coming there, and furthermore, if it were necessary, they would gladly pay for space for their exhibits and also pay

their own transportation. It is now considered almost certain be compelled to pack salmon as far along as October, on account of the great falling off in operations the great falling off in operations this year. Fall salmon are all of the silver-side species, and are considered second grade, but, as there is no doubt that the July pack, however large, will leave a dis-astrons shortage, this is the only way out of the difficulty. The total business for the whole season to date is 122,286. This report, it is alleged, was circulated cases, and up to June 26 last year the figures were 184,017 cases. All the can-neries are fully 50 per cent behind their ordinary records. Even the gillnets, be a lively legal skirmish. which up to two weeks ago were meeting with extraordinary success, have followed in the wake of the traps and seines and are now catching next to nothing. The continued high cold Buchanan of the department of agri water is no doubt mainly accountable culture was received with thanksgivin for this state of things. Eleven large by some 1,500 exhibitors, who for the traps the other morning caught twenty-five small salmon between them, and the whole of the seines together have financial losses by the failure of the exnot brought in more than ten tons of position company to furnish facilities fish since the season started. The short- for displaying their products. The chir age has already affected the circulation cause of complaint was the absence of money in Astoria by close on \$300,000, any kind of refrigerator service, and the

The act of Congress necessitating the recent dismissal of sixty-seven clerks of the general land office provided for a reduction of the field expenses of the office. A large number of offices will be consolidated in such a way as to make the number twenty less than heretolore.

Assistant Secretary Reynolds of the Interior Department has made a pension THE TRUST LAW OF ILLINOIS. decision which will become welcome news to a large number of women who ministered to wounded soldiers in the hospitals during the late war. They are to be placed on the pension rolls. The question gross upon a communication from the Commissioner of Pensions as to whether those women who superin-tended the diet of the sick and wounded soldiers are entitled to pensions. Under the act's provisions Assistant Secretary Reynolds holds these persons are entitled

The Collector of Customs at El Paso Tex., has been instructed by Assistant Secretary Spaulding to discontinue at once the practice of admitting sulphides of silver from Mexico without consular invoice and in future not to admit silver bullion from Mexico. bullion from Mexico exceeding \$100 in value, alleged to be imported as money, unless accompanied by consular invoice, unless the bullion is shown by the ship-per's declaration, made before the conular officer at the port of shipment, to

Commissioners do not believe the Fish Commission of the Badger State will from \$1 to \$600,000. National Commissioner Coburn said that the Fish Commission had threatened to the Fish Commission had threatened to withdraw its exhibit a month ago, but he would not believe the threat would be carried out until he saw the fish re-moved. The resignation of R. B. Kirk-land, Executive Commissioner for Wis-consin, has just been accepted. It had nothing to do with the trouble over the fish exhabit. Mr. Kirkland's ill health, A plot of ground was resulting from overwork, was the only cause of his resignation.

Inquiry at the Treasury Department discloses the fact that about \$15,000 rethat the aggregate fund available for carrying out the Chinese exclusion acts, including the Geary law, will be 465,000.

As announced by Secretary Carlisle, the policy of the administration will be in view of a lack of funds to rid the coun-The Diamond mine at Eureka, Nev., has been closed down, and the Old Jordan and Galena at Bingham, Utah, have also been ordered closed. This is owing the fell in silver. During the trial of three young out Chinese who came in lawfully, but thieves at San Bernardino Saturday it are now under the ban of the Geary law, was developed that a number of boys of because they failed to compare with its isting laws before endeavoring to send age, requirements of registration, etc.

They are after fraudulent pensioners They are after frauddient pensioners.

A list comprising the names of a number of pensioners recommended by Commissioner Lochren to be dropped from the pension tolls has been handed to Secretary Hoke Smith, and he has approved the recommendations. It has been found upon investigation by the pension bu reau that the persons named are for various reasons not entitled to draw pen sions. The work of examining the rolls with a view to the detection of fraud will be prosecuted with vigor, and at the same time the current issues will be care-fully scrutinized with the same object. Synched at New Orles Secretary Smith and Commissioner Lochren while prosecuting this work renew the assurances previously given that just as much care will be exercised to secure pensions for those who are enti-tled to them under the law as will be used to prevent fraud.

Attorney-General Olney has decided mad coyotes.

A young man in Astoria has just sent East for a New York invention which he claims will catch more fish than any other hook ever used. By means of a transparent tube or receptacle, live bait, including minnows, crabs, frogs, angle-worms, shrimps or the like, are presented in a magnified form to the fish desired to be caught, while safe from injury of being bitten. There being a circulation of water through the tube, the bait is kept alive for an indefinite period of that the appropriations made by the act of water through the three, the balt is that the exposition as a selection of kept alive for an indefinite period of closed Sunday. It did not, however, untime, so that one bait is good for a day's dertake to pass a law to that effect, but contented itself with making certain appearance. propriations conditional, not upon the fact of Sunday-closing, but upon the Illinois corporation agreeing to the rates to and from Chicago, proposition of Sunday-closing, so that Secretary Carlisle has issue regulations to that effect might be made by the government. Representatives of the World's Columbian Commission, the Illinois corporation, did agree to the proposition. Proper rules were made by the Columbian Commission, and the condition upon which the appropriations referred to were made must be regarded. Captain of the Kansas National Guard as fully satisfied;

In fact, the latter practice has become antiquated, and we are glad to in barrels, 20@40c per gallon; \$1.75 per say few farmers follow it. Still it is well

Sheep are profitable stock only when a profitable kind is kept and in a profitable manner. The man who thinks sheep of chief value as scavengers, and keeps them mainly for that purpose and without much regard to breed or feed, Canned Goods—Table fruits, assorted, \$1.75@2.00; peaches, \$1.85@2.10; Bart-lett pears, \$1.75@2.00; plums, \$1.37½@ will not be apt to find their feet golden to his land.

Most of the people on the farm learn to milk, but not all of them become good milkers. Some make very hard work of what should be an easy task. If you want the best results, see that the milker s quiet, easy and firm in his methods.

f he requires much muscular exertion and bodily motion in the labor of ex-tracting the milk, he is not a good man

for the place.

If you keep poultry, regard it as part of the farm stock, and give commensu-rate feed and care. If you think the fowls are of no account, they will surely prove themselves so to you. Just now we would suggest that the se kept dry, not allowed to run about in the wet grass in the early morning. It will have much to do with keeping them well, and that way profit lies.
