

Royal Baking Powder, made from absolutely pure Grape Cream of Tartar,

Imparts that peculiar lightness, sweetness, and delicious flavor noticed in the finest bread, cake, biscuit, rolls, crusts, etc., which expert pastry cooks declare is unobtainable by the use of any other leavening agent.

Tobacco Smoke Is a Preservative. "You have probably never thought of tobacco smoke as a preservative influence, I'll venture," remarked Chatfield Arthur to several companions in the La-"Of course we all know that spirits, and especially alcohol, will keep whole most anything you are of a mind to commit to its permeating care. I have found tobacco smoke to be equally good, with no worse results as regards odor than alchol, unless you dislike tobacco. I know that I have put bugs, worms and various kinds of reptiles in large bottles and have kept them for years by simply blowing the bottle full of strong tobacco smoke and sealing it

properly.
"The perfect forms would remain for years, in fact just as long as the bottle remained perfectly sealed. Upon opening it the result has invariably been—that is, in cases of long standing—a complete collapse. Still the effect is no worse than that of alcohol, for one never thinks of removing a preservative life form from the alcohol. When one puts a form in alcohol, it is understood to be merely for looks and not for examination or handling."-St. Louis Globe-Democrat.

A Point For Travelers.

The advice is given by a well known railroad accidents of people whose un-derwear looked as though they might be poor. This is a shameful fact, but the people who pick up the wounded after a wreck are intensely human. Many of them do not propose to open their homes to sufferers unless they are to be paid that time all the heautiful work was done people who pick up the wounded after a for it. They judge of the ability of peo-ple to pay largely by their underwear, as the outside garb of most well to do people is more or less the same in these days."

The idea of arraying one's self with . a journey is perhaps likely to suggest likely to engender a pessimism regarding the character of one's fellow men, but it may be worth heeding.-Her Point of View in New York Times.

Testing Pure Water.

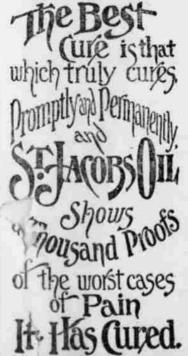

pure. If you want to test the color of St. Louis Globe Democrat. ter, just fill a colorless glass bottle with the water and look through it at some black object, and the distinctive ness with which you can see the object will give you an idea as to the amount of clay or sand there is in the water. Then pour out one-half the water, cork the bottle tightly and set it in a warm place is an offensive odor, even the slightest the water is unfit for domestic uses. Well water, no matter how bright and sparkling, is, nine times out of ten, putrescent. Then, as a matter of course decomposition is sure to set in in a day or two if you put the bottle in a warm place.—New York Telegram.

Pumps with plungers and pistons were invented by Morland, an Englishman, in 1674; the double acting pump by De la Hire, the French scademician, some 20 vears later.

ANTI-FERMENTINE

Is a HARMLESS preparation in tablet form for preserving ALL KINDS OF FRUIT WITHOUT COOKING. One package preserves fifty pints of fruit or

cents. Fruits preserved with Antidruggist or grocer for Anti-fermen- Queen.

Where Embroidery Is Made.

of that came to this country to adorn the petticoats and so forth of American wom The advice is given by a well known society woman who travels a great deal to wear one's best underclothing while on the cars. "Never mind if it does get solled," she says. "I have known of the most flagrant cases of neglect during railroad accidents of people whose unwarm were nursually and it was worth its weight in gold. The knowledge of the craft spread through Appenzell, Thurgass and St. Gall, three cantons of the Alps country. A great industry grew The technical skill and readiness of hand of the Appenzell warm were nursually and women were marvelous, and gradually the exquisite embroidery made by them became famous all over the world. Very

changed the whole situation. Today possibly not 5 per cent of the embroideries are made exclusively by hand, and these only of special articles, fine and expensive view to accidents when starting out on The hand machine was soon in the houses a journey is perhaps likely to suggest of half the peasants, and factories were useless forebodings, and this advice is founded, where many machines were col lected and worked, but still by hand power only. The character of the work was then and remains now excellent, but the pro-duction was comparatively slow. The profits were usually large to the dealers, but the embroiderer barely made a good living. It is one of the easiest things in the world to tell pure water from the imbell world to tell pure water from the imbell work his machine. Washington Cor.

Why People Marvel at Telepatry.

Nothing in nature is really abnormal. It is most probable that a power to influence upon an American negress, whom he loved upon an American negress, whom he loved upon an American negress. the minds of others, with a susceptibility upon an American negress, whom he loved to be influenced by other minds, exists in and by whom he was loved with a passion human beings universally, in a greater or less degree. To the hypothesis, abstracted ly considered, that mind can act on mind for about 24 hours. Remove the cork and smell the air in the bottle. If there is, not only through no known medium, but without any medium whatever-I see no valid objection. The action of mind on body, and that of body on mind, is far more mysterious than any action of mind on mind. For it is comparatively easy to understand that thing of the same kind can affect one another directly. Yet to many persons mysteries with which they are familiar seem to be no mysteries at all, they wonder only at that which is unusual, and marvel at tele pathic phenomena as savages at an eclipse.

The Hobbies of Royalty.

-Blackwood's Magazine.

The Prince Regent of Bavaria has a large collection of beetles—the most complete in Germany-and is also a great observer of the habits of ants, bees, flies, moths, eta. Of other royal persons King Oscar of Sweden may be mentioned as a collector of books of poems with autographs of the

The Czar Alexander III has preserved and increased his rich collection of birds eggs and postage stamps, begun when a a barrel of cider, and only costs 60 boy, and the king of Roumania's ambition consists in bringing together the largest number of autographs of all well known taste and appearance. Ask your ex-emperor of Brazil possesses the most complete collection of butterflies.-London

An Old Expression.

"Conspicuous by his absence," an expression of considerable force, came into prominence after having been used by Lord John Russell in an address to the electors of London. He was afterward candid enough to admit that it was not an original expression with him, but taken from one of the historians of antiquity His confession led to classical research, and the expression was found in the "An nals" of Tacitus From this author we also have "God always favors the heaviest battalions," an expression afterward used by Terence, Voltaire and Sevigne.-Phila delphia Ledger

Lessons of Experience. Newsboy-Extra! Extra! Gentleman - How much is it? Newsboy - Two cents. Have one?

Gentleman - No.
Friend - Two cents is the regular price of that paper Why don't you buy? Gentleman-If there had been anything In it worth reading the boy would have charged five cents. - Good News

In prosecuting a case at Highgate, in which a man was charged with riding without a ticket, it was stated that in the course of one year 27,000 people were de-tected attempting to defraud the Great Northern Railway company.

"A bee in his bonnet" is no doubt of cotch origin. "There is a magget in his Scotch origin. head" is an equivalent expression in England. A writer claims that the poet, Herrick, originated the expression in one N. P. N. U. No. 503-S. F. N. U. No. 580 of his lyrice.

THE OLD DAYS IN ROME.

During the Carnical to the Corso It Was the Duty of Everybody to Be Gay. In the good old times-and by the good old times we all of us mean the days that are past and are no more, the days of our youth, which we remember with a sad pleasure, and the joys of which we exag gerate, perhaps, while the pains we forget —the carnival in the Corso, which, alasi is now almost a thing of the past, was a spectacle and an experience full of delight. On that week of saturnalia the old sights and sounds the old hubble and on that week of saturnain the old sights and sounds, the old hubbub and gayety and license was renewed, every folly was hudulged in and a careless gladness and mated the world. Every window and bal-cony was draped with carpets, tapestries and flowers; gay faces looked out every-where and glad laughter filled the air. There were means and hallenging and There were masks and harlequins and punchinelli and masquerading and strange costumes and singing and mock gallantry and cries of joy on all sides.

It was the duty of every one to be gay The God Momus reigned. All the world flocked in from the country, and the old dresses and costumes which in every town in the vicinity of Rome were then worn daily, were to be seen. Now those costumes have for the most part utterly disappeared, and are only to be seen now and then, or on the persons of the models who pose for the artists. They were very gay. very various, and it was a pleasure to see them. Now they have given way to the commonplace and shabby dresses of today. But in the old carnival they were every where to be seen. Improvised balconies and stagings were erected all along the Corso, and these were filled with country girls in their costumes.

Up and down the street, in double files, slowly and at snail's pace, throngs of car riages followed each other, filled with flowers which the occupants scattered right and left, laughing the while they pursued their slow way through the dense crowds that filled the streets. Flowers and confetti showered upon them as they passed, and there was a general hubbub of follity and confusion and madness, as if old Rome's descendants were still alive and shouting in triumph .- W. W. Story in

A Touch of Human Nature.

It is impossible for one who has been "human" to forget that he or she was "human," and everything tends to prove this assertion. A story is being told that brings out this truth. In a convent near St. Louis there is a nun past middle age. She is as pure and devout as it is possible to be. That is to say, she is entirely un-worldly. Many years ago, when she was a young girl, her father owned a large plantation and numerous slaves in Kentucky.
At that time there was a negro slave who loved the beautiful young girl. It was not the devotion of a faithful servant, but the adoration of a lover.

Though he never made an open avowal of his passion, he followed her around and In 1890 St. Gall sent out to the world of his passion, he followed her around and near \$5,000,000 worth of embroidery. Half watched her until his love became a matter of public notoriety. The girl was very devout and finally left her home to enter a convent. She entered in the bloom of young womanhood and is now a woman convent, where she now is. Upon seeing them visions of the old, old days and the worshiping love of the dusky slave must have crossed her mind, for her first ques tion was as to what had become of the negro lad who had persecuted her with his adoration.—St. Louis Republic.

A Zulu Porter.

Among the queer odds and ends of hu anity that have lodged hereabout none is queerer than a certain Zulu, who may be seen any morning at the Court street sta-tion of the Kings County Elevated road, where he now pursues the peaceful occupa-tion of porter. This gentleman may be recognized from other Africans by a huge topknot of natural wool, which began to grow many years ago in his native land He also wears a pair of large goggles, through which his eyes gaze with an ap-pearance of great restfulness.

The Zulu is put down on the pay rolls of

was exhibited by Barnum for several years as a native warrior, which he was. He also whistled.

all too fierce for lasting. They separated, but not before he had got a good vocabulary of English words. Of the nine years of his living away from Zuiuland six were spent in museums. The last three years Mr. Murphy has earned his living by the sweat of his brow .- New York Sun.

At the present time there is a strong tendency toward the artistic in all things connected with daily life. It is considered, and there is wisdom in the idea, that and there is wisdom in the mea, the beauty added to an object does not detract from its usefulness, but rather increases it is replaced look at the bowee for approbation and appreciation of the dexterity distinction and appreciation of the dexterity distinction. Articles in everyday request do not serve their purpose less truly if they please the eye, and by grace of form and beauty of coloring educate the nature to find some thing of the artist's pleasure in the or dinary things which make the setting and framework of daily life.

First P. W.—And the latter should be made up of a lot of cars of this infernal road. The are invariably behind time.-Pittaburg Bulletin

The most profitable crop raised by the peasantry near the famous field of Water ioo is the crop of bullets and buttons molded in the vicinity, duly planted and harvested in time to be disposed of to the gullible travelers who eagerly buy them as relics of that memorable June day in 1815, when Napoleon's glory was totally eclipsed.

The first child born of white parents sorn in California was Thomas A. Suther land, of Portland, Or., who became a newspaper man and was the editor of a weekly paper when he was drowned while endeavoring to catch a ferryboat.

HOWSWELLSSHOULDACT

ESSENTIAL NICETIES IN "CULCHAW" AND "DEPAWTMENT,"

Points That Distinguish a Peculiar Set in the Metropolis from the Recognized Gentlemen of Leisure and Refinement. An Interesting Satire.

"By Jove! What a cad. See the way he carries his stick. "Yans, and notice the way he holds his

'Yaas, and he walks like a drayman.' "Gad, he's goin to bow to that gel Sorray faw the paw gel. Watch him." "Ab! ah! What an awful duffer. If I couldn't bow better than that I'd stop at

"Yans. So would L" "Let's go to the club and sit down; that

sort of thing makes me awfully tired." The man criticised was conspicuous, and it was all because be hadn't sufficient knowledge of culchaw and depawtment. He was faultlessly dressed, but that didn't save him. Whether to take soup from the side or from the end of a spoon is a mat-ter of culture, but whether to carry the gloves with the fingers forward or with the fingers back is a matter of culchaw.

Everybody that is anybody knows allabout culture and deportment, but cul-chaw and depaytment include the little niceties of manner and conduct about which many people have a great deal to learn. Without culchaw and depawtment it is impossible to be a swell. THE WALK.

A swell must walk at times, no matter how many broughams and horses he may have, and it is no more than proper to give the walk precedence. The walk is an ac quirement a man gets very early in life. but he never begins to walk in the proper way until he is proposed for membership in a good club. This is the way Legs stiff, no elasticity, body well forward, no elasticity, head well back, no elasticity, and steps about two and a half feet long. Of course there are variations. Going to

briskly and as if he enjoyed it. Thereby he demonstrates his perfect repose of man ner and shows that it is not influenced by mere external circumstances. Going to a wedding he should walk slowly and look bored and thoroughly convinced that mar riage is a failure.

In entering a ballroom the walk may be elaborated to almost any extent. A man should wear his evening walk just as he wears his evening clothes, for the occasion. Then there are variations of the walk aside from those of formality and stiffness.

The most noticeable of these is that em ployed when the expert walker walks with a "gel." When thus agreeably employed he should invariably face her and walk sideways like a crab. This will at first be found rather difficult, but practice makes perfect, and the "gel" who will not put up with being stepped on a few times and bumped with a pair of unaccustomed knees advanced in life. A few days ago members a few times has not a proper appreciation of her family from Kentucky visited the of culchaw and depawtment. In walking with the "gel" the student should care fully avoid keeping step. The step to gether is for common soldiers, convicts, clerks going together to business and cads who disregard culchaw and depawtment. Gentlemen never walk in step. It shows too much premeditation and thought, and is not in keeping with the mental idleness which should characterize a gentlemen.
IMPORTANCE OF THE ROW.

Walking baving been considered, it is now necessary to take up standing still and sitting down. To describe these ac complishments it is perhaps sufficient to say that in standing the real swell should look as though he would prefer to sit, and in sitting he should convey the impression that he would prefer to stand. If he does this he can hardly fail to look sufficiently bored

Now comes the bow, a most useful ac complishment, in fact the most useful one in connection with culchaw and depawt ment. A man of real culchaw should be able to insult a man grossly with his bow the company as Thomas Murphy. When he is at home in Zululand he is called Quongo Perceriah. Mr. Murphy says he was born in Gilou in 1850. He came to this country with Chief Two Strike, and rity. This bow is most difficult.

All bows may be divided into two classes

the short bow without raisi which may be either insulting or pleasing. and the long Lord Chesterfield bow for "gels," which may convey either mere recognition or the deepest regard. For the short how merely snap the head. If it is intended to be insulting the person to be insulted should be looked at with a sort of "By Jove I-don't-see-you and I-don't like your looks" stare, and then the head should be snapped very short.

To please it should be moved slower and

with a smile. This can hardly fail to please. The long Lord Chesterfield bow is much more jaborious, but it is also much nore impressive. To accomplish it grasp the hat firmly by the front of the rim. imagine a fly about eighteen inches from the tip of the nose and try to hit it with the crown of the hat, then smile as if in exultation at having hit it, and as the hat

DECIDEDLY SHAKY.

A trembling hand, an uncertain step, fidgetimes, indicated by restless shifting from one place or posture to another, bually mental annoyance at unexpected noises, are among the indications of extreme nervousness. These seem friding, but the health of men and women in this condition is "decidedly shaky" liable to be overthrown disastronsly by causes which the vigorous might dety. To fortify the nervous system general vigor must, through the medium of reinforced digestion and a renewal of an impaired rower of sleeping at night, be raised to a healthful standard. A guarantee of this is Hostetter's Stomach Bitters, which restablishes digestion, bile secretion and the habit of body on a permanently regular lissis, thus renewing that body equilibrium, which is followed by a gain of strongth and nerve tranquillity. For kidney complaint, rheumatism, neuragips, and as a preventive of the first attack or subsequent return of malarial disorders, this medicine is without a peer.

It is not safe to infer from the way that he opells his name that Hjalmar Hjorth Royesen is 12x.

TRIBUTE.

While it is over thirty years ago since ALLCOCK'S POROUS PLASTERS Were first in troduced to the medical profession and public, the marked success and unprecedented popularity which they met with not only continues, but steadily increases. No other plasters have been produced which gain so many testimonials of high value as those continuously accorded to Allocock of Porock Plasters, and the only motive for their being a medicinal and pharmaceu feal proparation of superior value. Additional proof of the true value of Allocock's Porock Plasters lies in the fact that they are being largely imitated by unscrupulous persons, who seek to deceive the public by offering plasters which they claim to be the "same," "equal," "as good," "better," "best porous plasters are imitations of Allocock's Porock Plasters are imitations of Allocock's Porock Plasters are imitations of Allocock's Porock Plasters are imitations of Allocock's two weeks and getting no better, a friend wrote me, suggesting that I fented popularity which they met with

Ponous plasters are imitations of Allcock's Ponous Plasters.

Avoid dealers who attempt to palm off inferior and worthless plasters that are nurchased by them at low rates for the purpose of substitution.

One of the giorious advantages of life on the plaisance is that one may wear almost anything there and not be shot at.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years decired presented in the last few years was supposed to be remedies, and by constantly falling focure with local treatment prenounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Chency & Co., Toledo, Ohlo, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the bleod and mucousurfaces of the y-tem. They offer one bundred dollars for any case it fails to cure, send for circulars and testimonials. Address
