LOCAL NOTES.

Fishermen are reporting better catches of salmon.
Bonds for deeds for sale at the LEADER office.

Robt. Campbell went down to Newport last night.

Judge Hufford was over last evening on legal business.

Ed. Barwick, the Yaquina butcher was in town yesterday.

A man in Kansas was fined ten dollars for singing "After the Ball."

The celebrated Parker and Snag Proof gum boots at O'Brien's, Yaquina.

Cyrus Maley came up from Newport yesterday morning and stopped a time in the city.

We acknowledge a short call from J. A. Rains, one of our leading farmers, yesterday.

Harry Denlinger, after spending the summer upon his father's farm near this place, has gone to Portland to resume his law studies.

Milton Hale, the Albany capitalist has been in the city for the past two days looking after his interests in the Toledo Coal Company.

J. L. McCulloch, the watchmaker and jeweler will be in Elk City on next Monday and Tuesday, prepared to do all kinds of work in his line.

Miss Clara Duncan and Mrs. Ethel Esterbrook will be in Toledo prepared to do plain and fashionable dressmaking after October 1st.

S. P. Brock, farming A. J. Rader's place north of town, has set out ten thousand cabbage plants this fall for the purpose of raising early cabbages next year.

Virgil Watters, Benton county's efficient recorder has been in Toledo for a time this week making his settlement with the board of commissioners for the record transcribing.

B. F. Draper and family were passengers on last Saturday's train, enroute to the Bay. They will take up their residence upon the Bay this winter. They came from Woodburn, but have been east all summer.

John and Reuben Butler returned home last Monday after an absence of nearly two years. They have been up in Idaho, Eastern Washington and Eastern Oregon. They drove down from the Walla Walla country and will stop at the home place this winter.

The state board of railway commissioners made their semi-annual inspection of the O. P. railway yesterday. They carefully inspected the bridges by riding over them at a decreased rate of speed while standing on the rear platform of their coach. The inspection was no doubt very thorough, and the road and bridges will doubtless be pronounced in good condition to withstand the winter rains just coming on.

We are informed that some of the good people on Big Elk and Drift creek are rather incensed because of the failure of the court to act upon a road petition which they have presented to it, and blame some of the people down here because of the failure. We have looked the matter up and find that no bond accompanied their petition, nor has one yet been filed, although the judge and clerk both informed some of the interested parties that it would be necessary to do so before the court could lawfully act upon the same. These people should understand that a petition for a county road cannot be acted upon under any circumstances before a bond is duly filed by the petitioners.

Quite a party of Corvallis people stopped off at Toledo from last Sunday's excursion.

B. F. Wade came over from Turner to visit his people last week, returning last Saturday.

The ocean is reported to have been the roughest off shore yesterday it has been for a year.

It is reported that a sturgeon weighing 755 pounds was caught in the Columbia river one day recently.

Rev. John Parsons, of Salem, the presiding elder of the M. E. church of this district, was over to the agency last Sunday.

Don A. Smith, of Gates, came over to Yaquina Bay last Saturday, to engage in prospecting for coal for a friend over here.

Judge D. P. Blue expects to start the latter part of the week on his trip east. While gone he will combine pleasure with business and visit the World's fair.

To set at rights a wrong impression which seems to be abroad in our county we would state that district court convenes in this place on the 3rd Monday in November, which will be on the 20th of that month.

Dr. Lee, the agency physician, has resigned his position at the agency and has gone to San Francisco where he will resume practice of medicine. This leaves the agency without any resident physician.

J. L. McCulloch, the Yaquina jeweler, left a few weeks ago to go out to the Valley and find some place where times were not so hard. After looking over many places in the Valley he came to the conclusion that times were as hard there as here and has returned to the Bay country.

J. H. Bryant, a capitalist of Los Angeles, has been in the city and vicinity for several days looking after opportunities for investments of various kinds, but more particularly to inspect the coal interests of this locality. We understand that has become interested in the coal lands below town and will proceed at once to develop some of the coal prospects there.

John McCluskey brought a sample of wool to this office last Monday, taken off of one of his sheep. The fleece weighed twenty-two pounds and some of it measured twenty-eight inches in length. The fleece was taken from an old ewe. Mr. McCluskey lives a short distance from Toledo on the Siletz road and is one of the most enterprising farmers of Lincoln county.

Henry Burns found a grip hidden under a log in the woods near Dan Grady's place last Monday and it was brought in and turned over to Squire Hall. On opening it it was found to contain a lot of old letters, papers and pictures, and was evidently the property of Moses Hurd, an old gentleman who used to live in this vicinity. The grip and contents do not appear to have been exposed to the elements long, and how it got there is something of a mystery, as the old gentleman is not known to have been in this vicinity for more than a year.

Geo. Sylvester has discontinued the telephone service on his line from Newport to the rock quarry for the present. This was caused by the exorbitant rental charged by the Bell Telephone Company for their instruments. The Bell company's patent for the transmission of sound by electricity expires next March, and it is quite likely that after that time there will be lots of cheap instruments to be had of various makes and manufacture. The line from Toledo to Newport is still in service.

Mrs. Julia Megginson has leased to a company the right to mine coal upon the land owned by her known as the Shaw place. It will be remembered that several years ago a tunnel was run on this place and a three foot vein of good coal was found, but owing to the shape of the tunnel and the way the coal laid the water interfered with the work to such extent that work upon the mine was abandoned. It is now proposed to start a tunnel at such a point lower down that will allow the water to run out of the mine and have it thus kept clear without expensive pumping. The company is opening up a wagon road to tidewater and proposes to develop and work the mine. They agree to pay Mrs. Megginson ten cents per ton for all coal mined for the length of the time the lease runs.

Commissioner M. L. Trapp is making preparations to take up his residence in his handsome dwelling in this city.

The sentiment seems to be generally in favor of voting a special tax of three to five mills at the special school election next Saturday. It is very necessary that all interested turn out and voice their sentiments in the matter.

Beal Gaither, of Toledo, the newly appointed Indian agent at the Siletz reservation, is in the city. He will go to Portland tomorrow. He expects to assume the duties of his position about the first of the coming month.—Corvallis News.

The Corvallis Times kindly gives Toledo's attempted incorporation a nice little writeup, which is in the main correct. It makes an error, however in stating that the various officers had assumed the duties of their offices. They had not got that far along yet.

In justice to ourselves we wish to state that the error in publication in notice of city election referred to elsewhere was not made by the LEADER. The notice as published in the LEADER was in accordance with the copy furnished, the mistake having been made and overlooked elsewhere.

Hon. Beal Gaither is over from the Agency this week completing and filling out his bond as agent at the Siletz agency. The bond will be in the penal sum of \$15,000, but must be qualified in the sum of \$30,000. Senator Crosno, of this place is performing Mr. Gaither's duties while the latter is engaged in the above matter.

The election to incorporate has again been declared illegal by the county court. At their session this morning the following order was passed which is self-explanatory:

In the matter of incorporating the city of Toledo: Now at this day this matter came on to be further heard, having heretofore been duly argued and submitted to this court upon the motion of W. C. Copeland, objector herein; and it being made to appear to the court by its records that the notice published calling the election to decide for or against incorporation did not properly describe the boundaries of said proposed incorporation and that the court erred in calling the last election held upon said proposed incorporation. Now, therefore, it is hereby ordered, adjudged and decreed that all proceedings heretofore had in relation to the said proposed incorporation be and are hereby set aside and annulled, and that said petition be dismissed.

According to Receiver Hadley's statement the O. P. road has gone behind to the tune \$14,296.51 during the past three months in operating expenses. A summary of the earnings and expenses is as follows:

MISS LULU HARRINGTON, Teacher.

The Oregon Pacific.

Last Saturday a meeting to consider Oregon Pacific matters was held at Mill City. Superintendent Mulcahy and Receiver Hadley were present. W. H. Burns was elected chairman of the meeting. The action taken was a resolution that the creditors should first present their claims to the Receiver, if not paid, then to the Court, then to the Governor. A committee was appointed to attend to the matter. A gentleman present at the meeting gives the following version of the matter:

The meeting was attended by about one hundred and fifty men, nearly all creditors, directly or indirectly. The present state of affairs was brought about largely by the treatment received by some of the creditors. One instance, that of R. G. Pierce of Gates, will suffice to show to the public the character of the present management. The road owes Mr. Pierce about four thousand dollars for material, and a few days ago he asked for one hundred dollars to buy provisions and pay some of his men, to which he received a reply from Receiver Hadley worded something like this: "What are we going to get for this hundred dollars? Are you going to put out any more material?" Mr. Pierce has the letter to verify this statement. Receiver Hadley and Superintendent Mulcahy were present and when they found a decided move was to be made to compromise by offering to furnish some provisions to those who would keep on putting out wood, and a lot of promises, such as the O. P. are accustomed to make to their creditors; but they were completely ignored. A large amount of wood has been sent to San Francisco, and to date no money has been received for it. No satisfactory explanation could be given regarding this move than that part of it had been sold on time. The committee in charge intend to force this matter to the bitter end. They are tired of promises and wind about the road being built over the mountains. They want our money now due from the road and they will then talk about their future.—Albany Democrat.

The property of the Toledo Coal Company was sold by Sheriff Landis to satisfy a mortgage held against it by Eugene Hale. The execution was for \$4,512.40 and the sheriff's costs of sale. The first bid was \$4,000 by J. H. Bryant, and Milton Hale bid with a bid of \$4,700. The next bid was by R. F. Jones of \$4,750, and these being no other bids the property was knocked down to Mr. Jones at that figure.
