KENTUCKY MIRACLE.

JUDGE JOHN M. RICE TELLS HOW HE WAS CURED.

Orippled for Six Years With Sciatic ed in it. Rheumatism in Its Worst Form-He Expected to Die, But Was Saved in a Marvelous Manner.

From the Covington (Ky.) Post.]

The Hon. John M. Rice of Louisa, Lawrence county, Kentucky, has for the past two years retired from active life as Criminal and Circuit Judge of the Sixteenth Judicial District of Kentucky. "He has for many years served his native county and State in the Legislature at Frankfort and at Washington, and until his retirement was a noted figure in political and judicial circles. The dge is well known throughout the State, and possesses the best qualities which go to make a Kentucky gentleman

onored wherever he is known.
About six years ago the bodily troubles hich finally caused his retirement at a me when his mental faculties were in zenith of their strength began their roachment upon his naturally strong nstitution. A few days ago a Ken-icky Post reporter called upon Judge ce, who in the following words related e history of the cause that led to his tirement: "It is just about six years ace I had an attack of rheumatism, Ight a fürst, but soon developing into sciatic theumatism, which began first with acute shooting pains in the hips, gradually extending downward to my

"My condition became so bad that I eventually lost all power of my legs, and then the liver, kidneys and bladder, and in fact my whole system, became deiged. I tried the treatment of many cians; but, receiving no lasting fit from them, I had recourse to patremedies, trying one kind after an-

er until I believe there were none I 1888, attended by my son John I went to Hot Springs, Ark. I was not much benefited by some months stay there, when I returned home. My liver was actually dead, and a dull perent pain in its region kept me on the k all the time. In 1890 I was reapnted Circuit Judge, but it was impos-le for me to give attention to my du-s. In 1891 I went to the Silurian igs, Wakeshaw, Wis. I stayed there e time, but without improvement. Again I returned home, this time ng no hopes of recovery. The musof my limbs were now reduced by ophy to mere strings. Sciatic pains red me terribly, but it was the dised condition of my liver that I felt

gradually wearing my life away. Doc-lors gave me up, all kinds of remedies had been tried without avail, and there othing more for me to do but remyself to fate. ingered on in this condition, sustained almost entirely by stimulants, until April, 1893. One day John saw an account of Dr. Williams' Pink Pills for something new, and as one more gatter so many others could not do such harm, John prevailed upon me ry the Pink Pills. It was, I think, the first week of May the pills arrived. try the Pink Pills. member I was not expected to live nore than three or four days at the The effect of the pills, however, narvelous, and I could soon eat

THE FATAL GIFT OF BEAUTY. Men Are Quite as Anxious to Possess It a Are Women.

"Do you think, madam, that you could remove the wrinkles from my face!"

The speaker was an old gentleman, with venerable beard trailing half way to his waist, and a general air of having wrestled with time and been badly worsted. The scene was the famous shrine of beauty presided over by Mme. Chromeyellow. Madame, it seemed, had issued coupons with The Sunday Fakir entitling the fortunate bearer to a sample jar of one of her remedies, and they had done their work. Her visitors, like the Confederate army, represented humanity from the cra-

AT THE SHRINE OF BEAUTY. dle to the grave, but, unlike that army, were of both sexes. It was not surprising to see women grown old and haggard clutching at the straw wrapped up in the sample jar, nor was it very strange to see girls with complexions like peaches and cream vainly trying to improve on nature, It Is a Profitless Proceeding to Carry Coals but it was exceedingly funny to see the men go in, dive into their vest pockets for There are more ways than one, my son, of carrying coals to Newcastle, and in almost every case it is a profitless protiny bottle. Some of them "just came in for their wives"—poor fellows—and they ceeding on the part of the person engaglooked the most sheepish of all. And that is where they differed from the women. Therefore, my son, have nothing to do with that kind of traffic-that is to say, The women took it as a matter of course and exchanged confidences with each other, especially seeking out those who looked do not encroach upon another's preserves except to admire. Do not attempt to

as if they might be customers and scan-ning them with critical eye.

"It can't be possible that those men really want that stuff for themselves," said a lady to one of the attendants. goods store, do not attempt to instruct him by the ventilation of ideas of your "Oh, but indeed they do, madame," said he girl. "They often and of en want to the girl. take our treatment, and when we won't give it to them they buy the whole set of remedies and work on themselves at home. You ladies don't know all that there is to

as it were the evil one, all temptation to be known about men yet. If you just watch here for awhile, you'll see."
So the first speaker sat and watched, and facetiousness and paronomasia. If a mechanic, do not presume to give him points she saw what seemed an endless procession of young men and old men, bald men and But, on the other hand, my son, do not hairy men, men with wrinkles and men attempt to interfere with his speaking or without, all seeking what women alone have been supposed to chase — eternal his calling, profession or specialty. Pulpit. An extraordinary lunacy case has lately been attracting much attention in London. It originated in a demand made by the Rev. Clement Tollemache and Captain Anastasius Tollemache that an investiga-tion should be made into the mental condition of their brother, the Rev. Augustus It is a common mistake, my son, to Tollemache, vicar of Whitwick, in Leicessuppose that because a man delights in tershire.

Mr. Tollemache is a bachelor about 54 years of age and has held the Whitwick living for 17 years. Twelve months ago he began to show signs of eccentricity. He had a policeman's whistle and used to blow it pleases him to exalt himself in a given it during service in church. On April 12, Tollemache was found sitting among the girl candidates and refused to leave them. Throughout the service he held an umthe same so far as he is concerned—he is brella up and turned a large ring he wore toward the bishop "to keep off the evil one!" He attached great importance to his large ring. He wore it on his thumb and usually held it up in front of him for guid-

THE VICAR AND HIS THUMB RING. ance and assistance. It enabled him, he said, to hear whispers at a distance. At one time he walked round and round a We believe that cable road practice bas reached the stage where but little horse trying to mesmerize it with this ring. He used to dress in a policeman's room is left for improvement. They have been developed, improved and coat, and with a bullseye lantern fixed in operated by the best engineering skill* his belt went "searching for ghosts" at his which the country affords. Nearly all church. At the funeral of a very old and are on a good dividend paying basis; well to do parishioner Mr. Tollemache re-but whatever the past experience of the but whatever the past experience of the elergyman had been got to do so he struck two systems has been, or whatever the the grave three times with a pickax, and blowing his whistle all the time declared present status of the two may be, we are only voicing the convictions of well in-

that he was communicating with the dead.

Mr. G. Underwood, the vicar's warden, formed engineers when we say that electric systems will continue to increase in efficiency (by which is meant earning the respondent blowing a whistle during in efficiency (by which is meant earning service. He blew the whistle in order to emphasize a statement he was making.

Many other evidences of the vicar's ecand only one method of rapid transit is recognized—the electric car.—Electrical centricity were adduced, with the result that he was adjudged a lunatic and in-

WOMENANDTHEBATH

RECARDED BY THEM AS GREAT BEAUTIFIER.

How They Use It and Increase Its Effectiveness by Massage-Great Changes There is no doubt that women are

ginning to realize more and more the importance of the bath. It no longer coninues to be a perfunctory duty, to be gone through with as a matter of course on Saturday night, much as the family washing is undertaken on Monday. The relation of cleanliness to godliness has ceased to be of importance. The bath has grown to be considered, on the con-

The fair sex have learned to study the bath and its effects upon their feelings, and in-cidentally the action of tepid or hot water to the companied so for the rest of his life. cidentally the action of tepid or hot water on their fair skins and its efficacy in softening and beautifying their complexions.

No longer can it be said that with the simply wiping the face with a corner of a sympathy, so as to know if possible the wet towel, even if the statement was ever real motive of his doing or refusing to majority of American women a bath means

trary, a close adjunct to woman's beauty

The women of foreign countries in the edge and to act upon it when required past undoubtedly had a greater apprecia-tion of the near relation of the bath to per-sonal beauty than the women of the United States. That a great change in this direc-tion has been wrought is evident from the greater intelligence shown by the American women today in the matter of bathing and their growing predilection for what is known as Swedish massage.

In nearly all the larger Turkish baths or hammam here in New York city special accommodations are provided for ladies, and the proprietor of a well known establishment assured me the other day that he has five woman patrons today where he and one a few years ago.

Besides these regular public Turkish baths there are many young women who make a very good living as skilled operators in the art of massage. Some of them the magic coupon and sneak out with the are also manicures and hair dressers, but

primarily they are massage operators.

These young women ordinarily have a clientele which embraces a class of customers who can afford to pay well for what lature to get it changed. they want and do not hesitate to do so.

Some years ago massage operators found their customers chiefly among invalids or parson, and I'll pay all the expenses mywith a great legal problem, "um-erparson, and I'll pay all the expenses mypeople who were desirous of getting rid of their superfluous flesh. Today many women, young and old, take a thorough mas-sage after their bath three or four times a week, and declare that besides softening and beautifying the skin it rests and troit Free Press. soothes their entire nervous system. This massage they receive at home immediately after leaving the bath.

Massage, by the way, is a particular fad among those bright eyed, wholesome young women who affect tennis, riding, fencing and other athletic exercises which come within the feminine province. Immediately after finishing a bout with the folls, a deuce set at tennis or a brisk dash in the next there is always provided a dish of sweet-folls, a deuce set at tennis or a brisk dash in the next there is nothing that we want to bonbon having a likeness painted upo in the park, there is nothing that a young it. And when the hosts retire there is woman finds more delightful than a dip in her porcelain bathtub, followed by the best part of an hour in the host in the dignified officers and functionaries part of an bour in the hands of an expert operator. When she has finished such a to take home to equally eager wives and treatment she emerges from her boudoir lithe of limb, graceful of carriage, hereyes dancing and her whole face aglow with bealth, a perfect picture of that of which we are all so proud, a comely American girl full of animal spirits and a native wit which has made her a favorite everywhere.

Long ago the women of the old countries appreciated the advantages of the bath and its power to enhance their personal charms. The almond eyed Japanese beauty, with her darker complexion and gentle manners, gives an added suppleness and field all to themselves smoothness to her skin by a nightly bath Indianapolis Journal. and a morning dip in water as hot as she can stand. This plan, while it is said to work admirably with the Japanese women, Columbia have issued an order to the would doubtless prove dangerous in this land of colds and rheumatism.

English girls have never been noted like their American cousins for their taste in dress, but what they lack in chic they make up for in other ways. The healthy, fresh complexions and beautiful skin of English does not like to be called by that title. when the bishop of Peterborough arrived to perform the ceremony of confirmation, of course in England women go in for riding to hounds and all kinds of athletics, but I have it direct from the lips of an I have it direct from the lips of an of Manchester was worth only \$3,165. English mother that she believed that the beautiful complexions with which her daughters were blessed were due more than anything else to the plunges which they took in cold water every morning immediately after arising. The dip in cold water is followed by a brisk rubbing until the skin is all aglow and as soft and pliable as velvet. Of course there is considerable shock attendant upon a plunge in cold water, and it should never be attempt ed by weak or delicate girls, or, in fact, by any one whose skin does not assume healthy, red hue after being vigorously

The Frenchwoman as typified, at least, by the true Parisienne is nothing if not luxurious in her tastes. She pays the greatest attention to her bath and is also an ardent devotee of massage. After her morning bath, which she takes in lukewarm water, she indulges in a hasty shower bath, after which she lies down for her massage. Her passion for perfumes then leads her to be lightly sprayed with violet water, while scented orris powder is sifted into her hair, to be carefully brushed out again later by her maid. After all this sort of thing is over you can imagine what a radiant, fragrant picture of health and sweetness the French belie presents when

her toilet has been completed.

In Brazil the women are said to be partial to bathing in milk, but, never having been there or ever having had the pleasure of the acquaintance of a Brazilian belle, I cannot speak with authority on that point. It is well known, however, that milk has an excellent effect upon the complexion and is also very efficacious in softening the skin. It is impossible to lay down any general rule as to how the bathing habit should be indulged in, for what would be good for one would be dangerous for another. The best way is to remember that the bath is not to be regarded as an aid to cleanlines: alone, but rather as an aid to health, per sonal attractiveness, to say nothing of the wisdom and wealth which are commonly supposed to attend upon early rising.-New York Herald.

One Way of Quieting a Child. a was teaching my child-about five years pld-to read. She did not wish to read at that time, and began to make a series of borrible howls, remaining at the same time perfectly dry eyed. I turned to do some writing, when, after a time, finding I paid no attention to the noise she was making, she said in her sweetest voice, "Don't I interrupt you, mother?" Upon my answering, "Not in the least, my dear," the noise was stopped, and she quietly re-sumed her reading.—Fanny Kemble ir "Further Records."
