ouches for its truth:

Washington Forty Years Ago. Compared to the Washington of today, the city 40 years ago was very shabby. I use the word unreservedly, as I recall particular instances of shabbiness, Pennsylvania avenue was poorly paved, poorly lighted and covered with mud. The old canal was a receptacle for the filth of the city. Jabbaring negroes filled the worker city. Jabbering negroes filled the market place with miserable carts tied up with ropes and drawn by poor, jaded animals. Their market truck was anything but in-

A gentleman who became tired of waiting for a family coach that was to take him in-the country to dinner strolled from his Boston.
"You must have Dr. Blank," she said; "a well to the market place and found the vehicle, in which he scated himself to await stitch in time saves nine."

The business man sat by the fire toasting the coming of the black Jehn. He felt something moving under his feet, and, lo! it The business man sat by the fire toasting his shins when the physician arrived, "Let's see your tongue. Any fever? Yes, a little. You must go to bed." Dr. Blank made a rapid diagnosis of his patient. "How's your temperature? What, 125? Why, you are a great deal sicker man than you are aware of. Temperture 125 degrees to be seen was a little pig which was to be sold and the proceeds taken to buy fruit and nuts for the entertainment!—Kate Field's Wash.

A tiny boy of my acquaintance was taken some years ago to the Corcoran Art gallery. A large painting representing the death of Moses made a very powerful impression upon his mind and induced questions which were perhaps rather carelessly proposed. The country when the little answered. That evening, when the little fellow's father came in the child rushed up to him crying in awestrack tones "Bad news, papa! bad news! Mozes is dead."—Washington Star

LITERARY NOTES.

Mrs. Burton Harrison is writing a series of articles for and about society Girls which The Ladies' Home Journal

will begin in one of its early issues. The quaint little women of Kate Greenaway are to be seen in a magazine for the first time since their creation. Miss Greenaway has heretolore always drawn them in color and for book publication. Now, however, she is at work upon a special series of her curious tots for The Ladies' Home Journal, and in that periodical they will alternate with a new series of Palmer Cox's funny "Brownies."

No great stock of wine is kept either at Os horne or at Balmoral, the supplies of those places being renewed as often as may be necessary. The queen's collection of old port and sherry, East India Madeira and cabinet Rhine wines is probably the largest and finest in the country, and her majesty has a splendid cellar of imperial Tokay, which was Prince Albert's favorite dessert wine. George IV purchased vast quantities of port, Madeira and sherry, which he ties of port, Madeira and sherry, which he was privileged to import free of duty, and was privileged to import free of duty, and those days members of the household in the great railway standard that periodical they will alternate with a new series of Palmer Cox's funny "Brownies."

The only picture as yet published in this country of the late Philip Gilbert Hamerton, painter, poet and critic, furnishes the frontispiece of The Illustrated American of the current week. The work of Karl Bitter, with illustrations of his genius as shown in the bronze doors of Trinity Church, New York city, in the statues at George Vanderbilt's North Carolina palace and in the magwas privileged to import free of duct, and in those days members of the household in those days members of the household were in the habit of getting a great deal of were in the same way under the pretext wine in the same way under the pretext wine in the same way under the pretext that it was being ordered by them for the that it was being ordered by them for the London World.

I ondon World. National Guard is explained in interest-ing text and by animated photographs. New York's five-million-dollar driveway is another of the illustrated features. The series of illustrators is devoted this week to William H. Hyde. Under the title of "The Passing of the Mummer-Isis" Mr. Nirdlinger discusses the deca-dence of the ridiculous cult that has put

day make up a number of peculiar at-

WELL PUT.

" It makes me mournful to think," said an old veteran of the G. A., " that this good right arm of mine, which carried a musket in a hundred fights, should now be all in a hundred fights, should now be all doubled up and out of shape with rheumatism." "Well, look here; where have you been living all this time, that you don't know St. Jacobs Oil will cure you?" And straightway he went for a bottle, and lo! he was cured also. The straight way is the sure way for the accomplishment of any good in this life, and the seeking of the great remedy for the cure of pain is surely the best way. Ask those who have been benefited and they will put you straight.

A Deflant Son of Arkansaw.

Colonel F. L. Fron told a good story at the Lindell recently. It smacked strongly of the carly days of Arkansas, when travelers were supposed to have fled from justice in the states to find refuge inside the boundaries of Arkansas.

"A lot of us were sitting in the barroom of the Arkansas." A Deflant Son of Arkansaw.

1819. Educated for the law, he was admitted to the bar at room and at least a dozen guests were to be Naples. He took a accommodated, there was considerable PRANCESCO CRISEL. Palermo insurrection of 1848, and after its failure went into exide. In 1850-'60 he organized another revolution lended at the rest of the statement of one man, who said he was a native of New York. Another granized another revolution lended at the conversation because of the property of the propert man had given the state and county where his birth occurred. Upon the declaration of each that he was born in a certain state, some one was ready with a good story to illustrate the character and habits of its people.
"Ex-Governor Throckmorton of Texas

acted as chairman or class leader, and the last man seemed reluctant to divulge the secret of his birthplace. Throckmorton said to the silent guest, 'My friend, we have all given in our testimony, and the company would be glad to know where you were born.'

"'Well, gentlemen, since you are so anxious to know, I was born in Arkansas.

Now, haing you, laugh!"
"The roars of laughter following this admission were deafening, and Throckmorton ordered a quart of the best bourbon in the house, which we finished in honor of our Arkansas friend."—St. Louis Republic.

Fireproof Buildings.

Scarcely a week goes by that one or another of the journals devoted to architec-ture does not contain some article by experienced and able writers bearing upon the fireproofing of buildings, and without doubt there could be formulated from these doubt there could be formulated from these battile of Murfreesboro. As engineer he has managed many great works, and was engaged as chief engineer in the construction of the Kentucky Union railroad when appointed to his present position. Though past 70 years of age, he is still vigorous.

The foot ball season, now in full swing, is one of interest. A picture of Emmons, Captain of the Harvard team, actions of the Harvard team, actions, Captain of the Harvard team, actions, Captain of the Harvard team, actions, Captain of the Harvard team, actions of companies this sketch. Yale, Princeton building can be built and at a pay that the since such a comical appearance that he is irresistible. Those who don't buy will hand him a nickel or a dime may be out of compassion, thinking that it must be a hard family fate indeed that has driven one so young to peddling.

The real things that have driven the boy to do what he does are the pair of urchins outside. They wait patiently until the small child reappears, and then they take all the money he has made. To prevent him from cheating them they search his pockets, make him open his mouth to show not a first class architect or engineer in the country who will dealy that an absolutely pay that the syndicate doesn't have to sell country who will deny that an absolutely examine his fists. So well does the scheme fireproof building can be built and at a pay that the syndicate doesn't have to sell

reasonable cost.
Yet fires of the most disastrous character Yet fires of the most disastrons character though perhaps the best work has been best work has been the transfer of the most disastrons character are constantly occurring in buildings advertised by their owners as fireproof. It is not surprising, therefore, that a large element, probably a vast majority, of the entire community doubt the possibility of constructing an absolutely fireproof building. It is an incontrovertible fact that every fire which has taken place in a "fire proof" building has been due to the indis criminate use of combustible material in its construction. Moreover, it may be demonstrated that fireproof material could have been substituted for the material burned at a cost not exceeding 20 per cent.-Engineering Magazine.

The rough Englishman has a curious way of showing his gratitude. A dean tells of a man whose wife had been ill, and to whom the visiting clergyman had been kind. One day the husband called on his wife's spirit-ual adviser and said: "Mestur Whitworth, you've been very kind to my ould girl when she wor sick so long abed, and I want to do yer a good turn and I can do yer a good turn. There's going to be the grandilest dog fight in this place tomorrow, and I can get yer into the inner ring!"-Buffalo Com-

A HERALD OF THE INFANT YEAR. A HERALD OF THE INFANT YEAR.

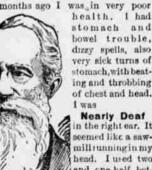

Clip the last thirty years or more from the century, and the segment will represent the term of the unbounded popularity of Hostetter's Stomach Bitters. The opening of the year 1895 will be signalized by the appearance of a fresh Almanac of the Bitters, in which the uses, derivation and action of this world-famous medicine will be lucidly set forth. Everybody should read it. The calendar and astronomical calculations to be found in this brochure are always astonishingly accurate, and the statistics illustrations, humor and other reading matter rich in interest and full of profit. The Hostetter Company of Pittsburg, Pa., publish it themselves. They employ more than sixty hands in the mechanical work, and more than eleven months in the year are consumed in its preparation. It can be obtained, without cost, of all druggists and country dealers, and is printed in English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spaulsh.

at the World's Columbian Fair was the result of investigation by the Government authorities and leading experts in food products. It stamps Dr. Price's as the best and strongest baking powder ever offered to the public.

Animals In Fire.

When Cyprus was the center of the cop-per industry, it is asserted that a 4-footed

animal with wings lived in the hottest fur-

naces among the fire, and furthermore that it would die instantly upon being removed

from its natural element, the flames. The salamander of ohl was also a creature which

did not dread the fire. Some say that it could eat fire and spit flames; others that its breath would ignite all combustibles.

Pliny says, "This animal is so intensely cold as to extinguish fire by its contact, in the same way that ice doth."—St. Louis Re-

English Railroad Rates.

There is sufficient evidence to show that English railway rates, if they have not been so high as to interfere with the natural development of a trade that has in past years enjoyed redundant prosperity, have at any rate been notably higher than the average rates charged on foreign railways. And not only so, but while the rates on other systems have been more or less re-duced of late years English railway rates have remained comparatively unaltered.

Reductions have, no doubt, been made

here and there, and in some cases over a considerable area, but the railway compa-nies adhere to their established principle of charging as much as the traffic will bear, which means in a good many instances fully as much as they can get compatibly with keeping the traffic alive. It is this admitted practice which has led to a species of revolon the part of large bodies of traders, which has evolved the Manchester ship canal, and which has now for many years past threat ened the evolution of other canals designed to provide transport between the midlands and the sea, as well as the revival of the whole canal system of the country, in active

competition with railway lines.

The railways again plead the high effi ciency of the service they render, and for this, no doubt, they are entitled to all praise; but, to use an aphorism of the late Lord Beaconsfield, you are not likely to allay the pangs of hunger by regaling your guest with a bottle of Maraschino.—Fort with a bottle of Maraschino.-Fort

MRS. WINSLOW'S SOTTING FOR OHILDREN TEETHING

People who get the greatest degree of comfort and real en-joyment out of life, are those who make the most out and improved products o modern inventive genius which best serve the

which best serve the needs of their physical being. Accordingly, the most intelligent and progressive people are found to employ the most refined and perfect laxative to regulate and tone up the stomach, liver, and bowels, when in need themes the great popularity every one is having."
Mr. A. obeyed. That afternoon they
keard of several other cases in that suburb, all under the care of the popular Dr. Blank, who were dangerously ill and all having a temperature of 125 degrees, At night Mrs. A. went round to Dr. Blank's and told him what she had done; that her husband was up and dressed, and that he would return to business in the morning. But she did not feel well her-self. Perhaps she was tired out. She didn't

bowels, when in need of such an agent—hence the great popularity of Dr. Pierce's Pleasant Pellets. These are made from the purest, most refined and concentrated vegetable extracts, and from forty-two to forty-four are contained in each vial, which is sold at the same price as the cheaper made and more ordinary pills found in the market. In curative virtues, there is no comparison to be made between them and the ordinary pills, as any one may easily learn by sending for a free sample, (four to seven doses) of the Pellets, which will be sent on receipt of name

"There isn't anything the matter with that thermometer, is there?" Mrs. A. ONCE USED THEY ARE ALWAYS IN PAVOR.

The Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-eating, they are unequaled. They are tiny, sugar-coated granules; any child will readily take them. Accept no substitute that may be recom-Dr. Blank placed it under his own tongue.

"And I declare! So is mine," he cried,

"Doctor, let me look at it," said Mrs. A.,
