**Newport, Yaquina Bay, Oregon.**

## Oh, So Wearisome.

The senatorial fight at Salem is getting to be thorn in the flesh of all good citizens of Oregon. The patience of the people is fully exhausted. The session is now more than half gone and nothing has been accomplished except to pile up expenses and costs for the state to pay. Not a single act of any importance is near being passed. The whole legislative machinery is held up and the state robbed and plundered under the disguise of electing a senator to succeed Dolph. Of the merits or demerits of the Dolph or anti-Dolph wings, we have nothing to say. We don't know, nor care how far in the right or wrong the controversy is. But we do say that if 72 republican members out of a total of 90, cannot elect a senator in a reasonable length of time, that they and the whole party should be held strictly accountable for every dollar of lost time and every dollar of needless expense. It is not an excuse, or a semblance of an excuse for them to say that they can't agree. They have no business to disagree. They pledged themselves to the people that they would agree, if elected, and the people elected them. There is no decent reason why they can't agree on some man for U. S. senator. The state is full of able men. The idea that there is but one man fit to represent Oregon in the U. S. senate is an insult to scores of intelligent republicans of the state. If Dolph's supporters are fighting for what they term a principle and not for an individual, let them take up another man who is partisan of the same principles. If the opposition to Dolph is really in earnest let them concentrate upon some man who stands for free coinage of silver and try to elect him. This flying and fooling around from one to another fools nobody, and lays up wrath against them for a day to come. The whole thing is a farce and a fraud, and is wholly unworthy of a set of representatives.

## Pioneer News.

The channeling machine has started again at the Pioneer rock quarry and is run by O. Kisor.

G. E. Davis left for San Francisco last Friday.

The O. P. are having the hill in front of J. H. McNeil's store graded so the passenger can run off on the siding when there happens to be an extra on the track.

J. H. McNeil has erected a warehouse and has just received a carload of flour and feed to put in it.

Saturday evening when the extra was pulling a load of rock out, the tender left the track. The engine was going full speed so that it pushed it three or four cars length along the ties and onto the other track. They whistled for the section foremen and Miller and Carter came, the latter bringing his Japs. They finally succeeded in getting it on the track, but they found the axle sprung so they pulled out without their load and at a walking pace. "It tore the track up pretty badly for a little ways.

The bridge gang have been along here repairing the bridges.

Miss Maud Rader, of Toledo, has been staying here since New Year's, but left last Friday for her home in Toledo.

Born—February 2, to the wife of B. F. King, a boy.

Fred Wittenstrom, one of the owners of the rock quarry on the Olsson place, has been in the valley after his derrick, but returned Tuesday.

Dave Williams, the stone cutter at this quarry, has been laid up with the tooth ache, but went to Albany Monday to get it fixed.

This month has been a pleasant one so far.

A. H.

## Glen Items.

Fine weather this, if the frost was left out of the program.  
N. B. Neal returned from the valley last week.

Walter Curler and Mr. Weitman, of Harlan, made Drift Creek a short visit last week.

Mrs. Sarah Banks, S. J. Wilhoit and Willie Arnold were county seat callers Friday, the first two filing on claims located on Gopher creek.

Miss Minnie Watkins and Miss Clara Stanley left for their respective homes in Linu county a short time ago. We are sorry to lose such desirable young ladies from our midst, as young ladies are very scarce articles in this place. They are cordially invited to come again.

Albert Watkins had a log rolling yesterday (Monday). There were seven men present who spent a pleasant afternoon clearing his new road of logs. Roads are what we need in this country. Who wants to roll logs next?

ICHABOD.

Feb. 5, 1895.

## Siletz Items.

The boys are getting ready to celebrate "Franchise day," on the 8th day of February. They expect to make the anvils roar pretty loud. This is the first time they ever celebrated, so they will have a good time.

Antone Selsic is making many improvements on his place. He has three yoke of oxen and one team of horses hauling old logs that are in his way so as to make more room for his potatoes. That is what we want all of them to do.

Indian court was in session on Monday. Two cases were tried, both for drunkenness and fighting. Both were found guilty. The fight occurred on last Friday night and it was quite a tussle. One fellow got a pretty sore face, while the other got more or less scratches and a pair of black eyes.

## From Steer Creek.

We have had a fine winter. The cattle on the range are fat enough for beef.

Chas. H. Everetts has just completed a road from his place on Steer Creek to Little Rock creek, there he connects with Mr. Nash's road. It will make a good and short road from Big Rock creek and the Siletz to the railroad and the Valley. It is two miles over a big hill, and he worked all winter with four or five men and teams.

Mrs. Everetts will move onto her place soon.

A good many new-comers are coming in here lately. There will be quite a settlement on Steer Creek.

A. HAYSEED.

Mr. F. H. Adams, representing the firm of G. G. Wickson & Co., of Portland and San Francisco, dealers in creamery and dairy supplies, was in Toledo over Sunday. On Saturday evening he met the board of directors of the Yaquina Bay Creamery Company and the result of the meeting was that the company contracted for the machinery necessary to operate the creamery. The machinery consists of a ten horse power boiler with an eight horse power engine; an "Alpha De Lavel" separator, and all the peculiar adjuncts that are necessary in the butter making art. The machinery will be prepared for shipment as soon as possible. Wickson & Co. also furnish plans for a building that will be arranged to suit the machinery. As soon as these plans arrive active work will begin on the erection of the building. All doubts that Toledo will have a creamery has been now removed, and by the 1st of April next a first-class creamery plant will be in operation in Toledo.

A. H.
