### LOCAL NOTES

Hon. R. A. Bensell was up from Newport today.

Austin Altree was down from Nashville several days this week.

Prof. Joseph Ewing will teach the spring term of school in the Parrish district.

B. F. Jones made a business trip to Portland Tuesday, and is expected to return tomorrow.

J. H. Burnham reports a cow with a pair of twin calves. Look out for triplets by McCaffrey's cow.

Nearly \$4,000 have been paid in as taxes to the sheriff on the 1894 roll. This is about one-fifth of the entire roll.

Ex-Sheriff Smith, of Clatsop county, who sued that county for \$16,000 as fees for making a delinquent tax sale, has compromised his suit and gets \$3,500.

The Odd Fellows' lodge had work in the initiatory degree last Saturday night. They were assisted by H. Denlinger, P. G., and the members are unanimous and loud in the praise of his excellent work.

Word reaches here that Dan Allison was taken ill with brain fever while enroute from here to Colorado. He took sick at Ogden, and was raving during the balance of the trip. He was a very sick man when last heard from.

Senator Mitchell has made application to the lighthouse board for the erection of a stake light on Ford's Point, Yaquina Bay. The matter has been referred to the officers of the Thirteenth lighthouse district for examination and report.

Representative Hermann has been urging the department for establishment of stake lights on Yaquina Bay, and has filed numerous signed petitions from the people. It is represented that these are necessary aids to navigation between Yaquina City and Newport.

The machinery for the creamery arrived from San Francisco on the steamer Lakme, with the exception of the engine, which we presume has been shipped from Portland. The boiler and other parts of the plant which are now here were taken down to the building today. A man from the house at Portland is expected to be here within a day or two to set it up.

The Creamery Company have issued a circular letter to those who have agreed to furnish milk telling them that they will be ready to receive milk on the 20th of the present month. Two plans are proposed to those furnishing milk. One is to pay 80 cents per hundred for the milk, the standard to be 4 per cent butter fat. The other is to charge the farmers 4 cents per pound for manufacturing the butter, the creamery to pay freight and commission charges for putting the butter on the market, and the farmers to get back the skimmed milk. The creamery intends to adopt whichever plan the majority of the farmers favor.

H. C. Wulf is advertising a petition for a liquor license at Yaquina City. There is nothing peculiar in this, except that he will put his house in the business part of the city if the petition is granted. It will be remembered that Wm. M. Hoag, who is the principal owner of all the realty in Yaquina City, has always strenuously refused to allow a saloon to be placed on the land at that place, and the liquor traffic has been carried on from scows tied to the shore. It would appear that Mr. Hoag must have changed his mind, or else must have made an exception in Mr. Wulf's favor.

Hon. J. D. Daly is in town today, coming up from Newport this morning.

Next Sunday is Easter Sunday. A motion to omit rain on that day will be in order.

A loaded lumber schooner lies at the wharf at Waldport awaiting the services of a tug to tow it out.

A. B. Hammond and party went over the road to Yaquina Tuesday in a special car. Mr. Hammond is giving the property a careful inspection from one end of the line to the other.

The Sunday school will hold a special Easter service at the old school house next Sunday. A special feature of the occasion will be the distribution of colored eggs to the smaller children.

The new name of the Oregon Pacific when reorganized will be the "Oregon Central and Eastern Railway." We hope that the future of the new organization will be much brighter than that of the old Oregon Pacific.

We are in receipt of a communication from Mr. J. G. Holcombe, assistant engineer at Newport, that the Yaquina Bay Board of U. S. Engineers, Col. Stickney, president, will hold a public session at Newport, Yaquina Bay, Oregon, on the evening of May 11, 1895, at which they will hear the views of those interested in the public improvement of Yaquina Bay.

Mr. B. T. Swart, the expert sent by C. G. Wickson & Co. to set up the creamery plant arrived this evening. Mr. Swart is a practical creamery and dairyman of years of practice, and is thoroughly posted in the matters. He will give a talk to the people at the court house next Monday afternoon at 2 o'clock. It is hoped that as many as can will attend and hear what he has to say, as his talk will be of great interest to the people of this county.

A rather serious cutting affray took place at Newport last Friday. The participants to the affair were Ed Abbey and Pate Townsend. It seems that Townsend had been following Abbey around for a fight. Abbey warned him to keep off, but he persisted and Abbey drew a knife and proceeded to carve him. He cut him on the nose and cheek and in the hip. Townsend bled quite freely but the wounds are not considered dangerous. No arrests were made.

A new vessel came into port below this week. It was the steamer Lakme, and she hails from San Francisco. The Lakme is a large vessel, said to be larger than the old Willamette Valley which used to ply between here and San Francisco. She is the largest vessel ever to bring a load in over the bar. It is said that she came in on less than a full tide drawing 16 feet of water and went out today drawing 17 feet. She took about 700 tons of miscellaneous freight for Frisco.

Mr. A. B. Hammond stopped his special car here yesterday long enough to speak some encouraging words to some of our people who happened to be at the depot. Mr. Hammond commended our people for their enterprise in erecting and fitting up a good creamery plant in the face of hard times and discouraging circumstances, and said that he would do all in his power to aid the enterprise in the way of low rates for hauling milk to the creamery, and the manufactured product thence to the market.

Finally the House and Senate journals of the late defunct legislature have been "revised" by a legislative committee of five members who performed the arduous duties at the starvation rate of \$10 per day with only two clerks to help them at the same miserable wages. This "revising" cost the state \$1,150 and was just that much money stolen from the people of the state of Oregon. But in the face of many enormous wrongs perpetrated by the last legislature, it seems very petty to object to a small outrage of only \$1,150. We should arise and call ourselves blessed, when we realize that the revising committee was the last leech the individual members of the last legislature bled the state with.

The egg market is looking up a little, as the stores are nearly out of that delectable berry.

The enrollment of the public school number 68 at the close of the first week. The school starts off with a good interest and promises to be a successful term.

A brother of Mayor W. L. Strong of New York, who was elected by the great reform movement in that city last fall, lives in Oregon. Of course it is in "Old Yamhill" that he has his residence.

R. E. Collins returned from Dallas Tuesday, where he attended the district convention of Epworth Leagues. He speaks very highly of the work performed, and of the kindness and hospitality of the citizens of Dallas.

Jack Kingsley, F. H. McDonald and Ed. Abbey drove up from Newport last Monday. They drove Pete Abbey's new team and hack. By the way, this new outfit of Pete's is just about the handsomest turn out in the county.

School district No. —, at Seal Reck, voted on a proposition to issue \$800 in bonds for the purpose of erecting a new school building. The bonds carried and work will begin on the new building as soon as the money is realized on the sale of the bonds.

Toledo Lodge No. 108, I. O. O. F., elected as delegates to the Grand Lodge B. F. Jones and A. Rochester, Bay Lodge at Yaquina elected H. M. Brunk and E. J. Burrows. We have not learned who the Newport lodge elected. F. J. Frary, of this place has been elected a delegate from Kings Valley lodge, also.

Ira Hunter, clerk of Benton county, sent over after a box of clams last night and stated in connection therewith that circuit court was in session there and they could use a few clams. We don't know what they can use them in connection with circuit court for unless they use them for juryman.

There is a school district in Wallowa county which has only nine legal voters, four male and four female persons of school age, and at the last term of school taught there was an average attendance of three. The school building is counted as worth \$15, and the furniture valued at \$5. Can any other county beat this?

The demand for the making free of the McKenzie toll road was before the Lane county court again last week, being numerously petitioned for. The owners offered to take \$1,000 for their right or to submit the matter to three appraisers to be appointed by the county court. The matter was, however, continued for the term.

Surveyor Gideon has completed his work taking levels of the various streets of Toledo and has gone home. The base of the grades was a point across the track from Mrs. Copeland's store, one foot above the level of the track. The highest point found was 168 feet higher than this base, and the steepest grade on any street is a fraction over 22 feet to the hundred.

Bids will be opened today by Captain Symons for furnishing and delivering stone for the improvement of Yaquina Bay. Ten thousand and tons of the best stone obtainable will be used in the work, and the same must be as nearly cubical as practicable, each piece not to exceed 10 tons in weight, nor to be less than two. The vast amount of rock will be used to strengthen and improve the north and south jetties.

There has been an extreme dearth of matrimonial ventures in Lincoln county since the days of 1895 have been upon us. The county clerk is almost in despair, as there has not been a license issued since the latter part of January. What is the cause of the sudden collapse in the matrimonial market is unknown, but some shrewd observers say that it is sign that the times are getting better. This sign does not apply to the business of the county clerk and the ministers. The clerk might let a few licenses go at half price to get the business started again.

### Norton Notes.

Mr. Andrew Porter paid a visit to his mother last week.

Mrs. Eddy, Mrs. Moses Huffaker's mother has been quite ill.

Mr. Huntington, our proposed postmaster, is busy plowing.

Mrs. Fred Wagner is quite busy superintending the care of her rapidly growing flock of sheep.

The Norton school opened last week with ten pupils, Miss Maggie J. Hampton, teacher. The school will observe Arbor day.

The Nashville school will open April 15, with Mr. Ames, of Philomath, as teacher.

A. W. Skinner will teach the school on Mary's river.

The people of Rock Creek have waked and organized a school district. They held their first meeting and elected Thomas Chandler, Geo. B. Hampton and George Miller, directors, and J. M. Derrick, otherwise known as "Jolly Jim," clerk. Their school house is to be located in Sunshine Gap.

### Glen Items.

A few days of sunshine after the storm. The grass and other vegetation is growing rapidly.

News, as usual, is somewhat scarce in this part of the county.

Nathan Watkins left for the valley a few days ago.

O. C. Simpson, our rustling mail carrier, tells us that we have a new road supervisor in this part of the county.

Willie Arnold has been peddling salmon from Corvallis to Albany during the past week.

Wm. Arnold and wife made Elk City a visit Sunday.

Johnny Flynn, the former Meadow creek bachelor, is digging his potatoes this week.

P. N. Lathrop and John Folmsbee made a visit to Drift creek last week. Wm. Arnold sold Mr. Folmsbee a cow while he was over. More in the future.

ICHABOD.

### Siletz Items.

The Inspector has left us. When he was here a year ago he gave us a good send-off on the reservation, but he did not seem inclined to do so this time owing to some things he seen which he did not like to see. The better class of Indians are very sorry and hope that it will not occur again.

Indian court was in session last Monday. One case of drunkenness was sentenced to 30 days in the Agency jail. The case against the Logan boys was continued as one of the witnesses was at the mouth of the Siletz.

There has been quite a little stir for the past week here. It seems as though most everybody are out on their muscle, for there was a pull and hit between two women, which resulted in both being made pretty sore. It is getting dangerous to be safe these days. We hope they will tumble to themselves and quit the job.

### Cure For Crippled Children.

The National Surgical Institute, Pacific Branch, 319 Bush St., San Francisco successfully treats all cases of Orthopedic Surgery, Diseases of the Spine, Hip and Knee Joints, Paralysis, Piles, Fistula, Nasal Catarrh, Bow Legs, Knock Knees, all Deformities and Chronic Diseases. Their success in treating these cases is shown by thousands of references from trustworthy people all over the country.

Persons having afflicted children or friends should convince themselves of the excellent results of the system of treatment by this Institute. One or more of these surgeons will be at the Hemphill House, Corvallis, Friday, April 26th to examine cases. Send for circular. Reference may be had to Jesse Porter, of Corvallis; Judge Thos. L. Davidson, of Salem; John A. Shaw, Secy. Santiam Mill Co., Albany; L. McFarland, of Albany, and hundreds of others.

The difference existing between the sheriff and the county court seems to be over the advisability of making a sale of property for delinquent taxes. The court thinks that much of the taxes will be voluntarily paid during the next month or two, and that a sale at this time is unwise, and that it is not at all probable to bring in enough to pay the expenses incidental to a sale. The sheriff claims that he is imposed upon by being compelled to carry a number of delinquent rolls in his office, and no prospect for the settlement or disposal of them. He has the delinquent rolls of 1889, 90, 91, 92 and 93 in his hands and naturally would like close them up in some manner. The law, he claims, contemplates and directs that this be done by levy and sale of property. Upon the first three rolls named above he has collected the grand total of \$55, the amount collected on the 1889 roll being 67 cents. To require the sheriff to carry these rolls is unreasonable, and a sale would be unprofitable. It does seem to us that the court and the sheriff ought to be able to get together in this tax matter and agree upon some feasible plan of collection which would be fair to both county and sheriff.

### For Sale.
