Hood's

Sarsaparilla as a blood purifier and building up medicine leads everything ever produced. It is positively the best. Others may make the same claim. But there's this difference: We prove it. Not by antiquity, but by Merit. Not by what we say, but by what Hood's Sarsaparilla does. It has a record of Cures unequalled in medical history. It positively, perfectly and permanently cures when all other medicines fail. That the keen discrimination of the people recognizes its merit and the cures by Hood's Sarsaparilla, is shown by the fact that they buy Hood's Sarsaparilla in preference to the exclusion of all others. Hood's Sarsaparilla has a larger sale than all other blood purifiers. It wins confidence everywhere because the statements in its advertising and testimonials are verified by all who take it. No other medicine has ever received such praise, or so many voluntary testimonials of wonderful cures. No other medicine possesses

parilla

the peculiar combination, proportion and process used in preparing Hood's Sarsaparilla, and which give it merit peculiar to itself. This is the secret of its wonderful power, of its wonderful sales, of its wonderful hold upon the confidence of the people. This is why it cures Scrofula, Salt Rheum, Catarrh, Rheumatism, all Humors, Kidney and Liver troubles, Dyspepsia, That Tired Feeling, builds up the nerves, creates an appetite and strengthens the whole system. Its merit, its sales, its

Cures

NORTON NOTES.

Judging from the jokes in the daily conversation, our people are enjoying the weather.

Quite a number intend to peel chittim when the weather will permit.

Two prominent citizens who have a camp in the mountains discovered a den some weeks ago and walked several miles in an excited state to secure rifles to kill the bear. As a courageous charge upon the den proved it to be a rat's nest, our hunters are strangely silent.

Dave Hamar passes through our neighborhood occasionally on his way to buy cattle.

Mr. Seaman took the train recently at Nortons for Portland, intending soon to go from there to Alaska.

Mr. Lafe Pepin, of Chitwood, spent one night last week with H. S. Porter. He drove a good team which he had just bought.

School opened here last week with fifteen pupils, and Miss Maggie Hampton, of Rooca, as teacher.

The Sunday school has been in a flourishing condition all winter.

The Nortons and the Nashville Sunday schools will join in open air service for Children's Day, June 14.

Miss Ida Skinner left here this morning for Dallas to take the teachers' examination. She expects to begin teaching soon in Polk county, on the upper Siletz.

Rumor says there will be a dance at Mrs. Chambers' residence ere long.

PEARL,

Nortons, May 12, 1896.

SALADO SAYINGS.

Veral Mulkey, of Summit, and Frank Mulvaney, of Big Elk, were at Salado Sunday.

Leo Chapman is on the Chapman ranch now. He came out from Philomath last week.

Leander and Harve Parks, who have been working at Geo. Hodges' saw-mill, are rafting their lumber down to the river.

W. H. Daniels is home from Corvallis where he has been working.

Marriages, none, but the indications are favorable.

The people of Salado are in sore need of a little rain, the roads are getting so excruciatingly dusty.

TRVX.

Salado, May 12, 1896.

KERNVILLE ITEMS.

It has rained, rained, rained here for the last ten days.

The lumber for Kerns' cannery is all on the ground now, and the building commenced today. They also intend putting in a general merchandise store in connection with the cannery. There will be from forty to fifty men employed on the work soon.

A petition is being circulated to establish a postoffice at Kernville. A postoffice here would be a great convenience, for now we have to go to the Agency, which is about forty miles.

Mr. R. A. Miller and a crew of workmen arrived last week and have camped on the cannery site. They commenced work on the buildings today.

Mr. D. Keru and brother, of Portland, dropped down among us last week. They are busy superintending the course of construction of the cannery building, and are looking daily for the arrival of their steamer, which will bring a part of the material for the cannery.

From the looks of things now we will not have to go out for mail and supplies very much longer.

Mr. Cook and wife, of Salem, moved in a week or so ago. A Mr. Johnson is also expected in soon.

There was also a family moved in from Oregon City last week but I did not learn their name.

PETER.

ELK CITY ITEMS.

All kinds of weather.

Spring trout bite very well.

Geo. Hodge, of Salado, was in town today.

Judge Mitcham and G. E. Davis, of Pioneer, called yesterday.

T. O. Mays has moved back to Elk.

J. J. Bristow and Charley Williams were up yesterday looking after the Elk bridge. They made a contract with the Pepin boys to replace the bridge.

The county-seat question gets warm now and, and yesterday was one of the warm days. Uncle Charley Williams thinks it will go to the lower bay, but will put it at Toledo now and move it to Newport in two or five years.

E. M. Mays returned to Elk City with his family the last of the week. They have been at St. Helena, California, for the past two years. Mr. Mays' health has improved so that he thinks he can stand Webfoot again. He has been in Oregon six weeks and has gained ten pounds.

A car load of lumber arrived yesterday from the front for Col. F. J. Parker. He will repair and build larger his house on the ranch at Bear creek.

A small crew of men were put to work on the Rochester quarry the first of the week.

If this weather continues work will commence again on the Elk City and West Yaquina road tomorrow. Eight or ten days will put it to Mill Creek.

Farmers are very anxious to see better weather. Spring grain is not all sown and no gardens are planted.

NOVUS HOMO.

Elk City, May 13.

SPECIAL TERM OF THE COUNTY COURT

County court met in special session last Monday to act upon the petition of Wulf & Brunk for a saloon license, and to let the contract for the bridge across the Big Elk at Elk City. The court granted the liquor license for one year. In the matter of the bridge at Elk City, the court decided to go to Elk and view the site, which they did on Tuesday. The contract for putting up the bridge was let to L. F. and I. J. Pepin for \$397.50. After the court adjourned for this called session, another session was called to act upon the matter of creating an election precinct on Salmon river. At that session the precinct asked for was created.

Trees

live sometimes when girdled nearly around. Nature ever labors to repair damage, and after a time, the wounded surfaces are nicely healed. Some persons live and fully recover, even after consumption has made cavities in the lungs. In this struggle we can greatly aid nature by giving Scott's Emulsion of Cod-liver Oil with Hypophosphites. The oil supplies needed fat, and the hypophosphites tone up the nerves. The decline in weight ceases. A positive gain begins, and once again there is promise of life and health. It is never too late to try.

Scott's Emulsion has been endorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites. Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.
