Captain-General Weyler has yielded to insistent requests to extend until August the time for remaining in the island allowed to Jose Yznaga, the American newspaper correspondent sentenced to banishment.

Rufus Buck, Lonie Davis, Lucky Davis, Miami July and Sam Sampson, comprising the "Buck-gang," were executed in Fort Smith, Ark., President Cleveland refusing to interfere. They were convicted of murder and criminal assault.

Brazilian commercial circles are not favorable to a treaty of commerce with Argentina, not regarding the advantages to be obtained as of sufficient importance. Purely Brazilian firms are favorable to renewal of the treaty of reciprocity with the United States.

The village of Farmland, Indiana, is greatly excited over a riot that occurred at the North White river church after services last Sunday, in which one man was fatally stabbed and several others seriously hurt. Just how the trouble originated nobody knows.

Within a few weeks will be commenced one of the most gigantic operations in the history of the war department. Fortifications more powerful than those existing anywhere in the world will be built in New York harbor, the cost of the work being about \$10,000,000.

A special from Helena, Mont., says the Cheyenne Indians have donned their war paint and are holding powwows preparatory to a general uprising. Several troops of the Tenth cavalry have been ordered from Fort Custer to the Cheyenne agency at Lame Deer, Custer county, Mont.

A letter received in Havana gives the details of an important engagement in Pinar del Rio, near Cayo Redondo. The rebel leader, Brigadier Frani and his thirteen followers were killed and many wounded. They were carried from the field. The insurgents were put to flight. The feeling in Pinar del Rio is now one of alarm.

The New York World publishes the following: The Postal Cable Company has arranged for an extension of its lines into Southern territory, where it has not had a single wire. The Postal Telegraph-Cable Company, of Texas, has been formed, and an agreement entered into with the New York company for the transaction of business. Wires will be strung to reach the leading points, and ultimately will extend into Mexico.

Catherine Roschey, an inmate of the insane asylum at Salem, was killed by jumping from a third-story window of the farm building of the asylum.

A report from Walla Walla says that the wheat crop in that section, which it was feared had been injured by the hot weather of last week, has not been damaged to any considerable extent, and a full yield is confidently expected.

The run of salmon in the Columbia river continues light, no large catches having been made of late by any of the boats. It is thought that small catches will be the rule now until the regular July run begins, which will be in about a week or ten days.

Nathan Phillips, a pawnbroker of Monte Cristo, Wash., was fatally shot by David Leroy, who attempted to rob Phillips of a satchel full of jewelry which he was carrying, and upon being resisted, opened fire upon the pawnbroker with the above result. Leroy escaped.

As a result of the conference between the president and Secretary Lamont orders have been issued by the war department for the immediate execution of the provisions of the river and harbor appropriation bill, with the exception of those sections providing for the making of contracts for the continuation and completion of the work.

**Attempt on Baldwin's Life.**  
During the process of Lillian Ashley's suit against E. J. Baldwin for \$75,000 for seduction, in San Francisco, Emma Ashley, a sister of Lillian, tried to shoot the millionaire defendant. She fired at Baldwin, but the bullet missed. Emma Ashley is believed to be insane. During the trial she has spent her time in court reading the Bible. When taken to jail she sang "Nearer My God, to Thee" in a loud voice. Baldwin was crazy with rage and wanted a chance to fight some one. His hair was singed by the powder and the bullet passed within an inch of his head. His escape is ascribed to the woman's inexperience with firearms. The pistol was thrown upward by recoil after the trigger was pulled.

**Wheeling Injures Women.**  
A remarkable circular has been issued by the Women's Rescue League of Washington, D. C. It is signed by Charlotte Smith, president, and Virginia N. Lount, secretary of the legislation committee, and it calls attention in a most sensational manner to what these ladies consider the manifold, moral and physical ill effect of the riding of bicycles by women. The occasion of the issuance of the circular at this time is that next week there will be a bicycle parade in Washington in which it is thought that fully 40,000 wheels will participate. Of the 45,000 bicyclists in the city at least 15,000 are women.

**Counterfeiters Caught.**  
A St. Louis detective has succeeded in capturing a gang of counterfeiters. A complete set of tools was found in their possession. Those arrested have hitherto borne good characters, one of whom is a regular practicing female physician. There was also found by the detective a photographic engraving of a \$20 bill, some of the bills, the copper plates and all necessary paraphernalia for etching the plates.

**Jury Disagreed.**

**Squadron Drills.**  
Washington, July 6.—In the execution of the broad plans for the instruction of our naval officers in squadron drills and combined maneuvers, formulated by Secretary Herbert, the summer drills of the North Atlantic squadron, which will begin on the 15th inst., will find their counterpart in a series of squadron movements, target practice and fleet drills, to be conducted by the Pacific station by Admiral Beardsley. Because many of the ships naturally attached to his station, have been necessarily transferred to the Atlantic station, Admiral Beardsley will not have as many vessels available for his drills as will Admiral Bance, on the Atlantic coast. Consequently, in order to be able to carry out a programme of any value, from an educational standpoint, he must make the most of such ships as he can command, and it will be impossible, therefore, this season to withdraw any of the ships, even temporarily, from the squadron to attend the local celebrations at various points on the Pacific coast, as has been customary in the past.

**English Company Shut Out.**  
New York, July 6.—The Herald's correspondent in Rio Janeiro, telegraphs that despite the presidents of the English Cable Company, the Brazilian government has granted to another company the privilege of establishing a land telephone service to connect Rio with all ports north of Para. The concession is heartily supported by the press.

## THE NEW WOMAN DISCUSSED

The Subject of a Lecture by Rev. Mr. Copeland.

### BEGINNING OF WOMAN'S ERA

The Lecture Was One of Scholastic Merit, and Was Enthusiastically Received by an Attentive Audience.

Salem, July 7.—An interested audience this evening assembled at Unity church, to hear what the Rev. Mr. Copeland had to say of "The New Woman, Selected by God to End the World." The lecture was one of scholastic merit, and was enthusiastically received. In fact, one of the very best Mr. Copeland has ever delivered. The text was: "For the Marriage of the Lamb has come, and his wife has made herself ready, and I, John, saw the holy city coming down from God as a bride adorned for her husband."

In beginning his lecture, the speaker called attention to the very general expectation of the end of the world at the close of the century, prevailing amongst all religions, and sustained by men of science, as well as by preachers of the second advent. He quoted many prophecies proclaiming that the end of the world was at hand, some of which are new and gathered from ancient books. He quoted from the Bagavad Gita, the words of Krishna: "I produce myself among creatures, whenever there is a decline of virtue, and an insurrection of vice in the world." That such conditions prevailed was detailed at length in the strongest possible language. The darkness of the picture was relieved by calling attention to the coming reign of woman in literature, art, society and politics.

The causes of woman's emancipation were indicated, and her influence in every department of life depicted. A new race was in the process of formation, which should develop the feminine side, and be fit to use those inner forces which the "X" ray and the Keeley motor indicate are to replace the common electricity.

"The past centuries have witnessed a steady progress in the delicacy and spirituality of the forces used: From horse-power to water-power; from water-power to steam; from steam to electricity; from electricity to etheric vibration, which latter cannot now be used, for man is yet too material and selfish, and would make this power which dwarfs electricity only rivet the despotism of the few over the many beyond any power to break. But when the old dispensation has ended, then may we have the use of the new force. We have seen what changes have resulted, from the substitution of steam for horse and water-power; we are witnessing the changes made by replacing steam by electricity, shortening the hours of labor and making life easier to live. What may we not look for, when we replace electricity with interetheric vibration, or as Bulwer Lytton, in his "Coming Race," calls it, "Vril," which he very significantly places in the hands of woman, and which she uses to restrain selfishness of the male part of the race, not yet raised to her high standard of morals."

The lecture concluded with the following sentences: Lo, the sign of the Son of Man in the heavens, ending the language of barbarism. Clad in new bodies made out of finer elements, because born of love, those souls have passed through many incarnations marked with much suffering and tribulation, shall dwell in the New Jerusalem; which shall not be here or there; but everywhere. Of this city the indwelling God, now in control of the old-time, cruel and rapacious animal, who preferred darkness to light, shall be the glory.

### GUARDS OVERPOWERED.

Fourteen Desperadoes Broke From a United States Jail.

Guthrie, O. T., July 7.—Fourteen prisoners overpowered the guards in the United States jail at 9:30 tonight and broke jail. Bill Doolin and "Dynamite Dick," the last survivors of the Dalton gang, who were wanted for the murders committed in the Ingalls fight, at which four deputy marshals were killed, were the principal actors. Fourteen out of fifty-nine prisoners escaped. They were the most desperate characters. They are, besides those named above, Charles Montgomery, Jim Black, Walt McClain, Bill Crittenden, Ed Lawrence, Kid Phillips, George Law, Henry Irvin, Bill Jones, C. O. Nix, Lee Killiam and W. Beck. They got from the guards two revolvers and Winchester by a rush out of the cage when the cage was open. They knocked one of the guards down, placed the other two in the steel cage, making them enter at the points of their revolvers. Having the guards safe, the ringleaders called for everyone of the prisoners to escape if they wanted to. Only fourteen followed. William Beck was so weak that he sat by the side of a road out of the city, wondering how he would escape. Later the outlaws made a man named Schofield and his girl get out of a buggy and give it to them. A posse of deputy marshals, headed by Bill Lightman, who captured Doolin, went in pursuit.

### "Three Friends" Pursued

Key West, July 8.—The steamer Three Friends passed here at 9 A. M., pursued by the Spanish warship Alfonso XIII. Both vessels were under full steam. The Friends was between eight and ten miles ahead of the warship. Observers say the warship fired upon the Three Friends. The warship is cutting the three mile limit very close, and is trying to head off the Three Friends. It is reported the United States warship Maine, and United States cutters are getting up steam preparatory to intercepting both vessels. Great excitement prevails.

### Ugly Feeling Prevailing.

Cleveland, July 8.—Contrary to police fears, there was no violent demonstration last evening after the funeral of William Rettger, the striker at the Brown Hoisting & Conveying Company who was shot by a nonunion man. There was, however, a great deal of feeling manifest, and the authorities think the prospect for trouble tonight, when the men in the works go home, are fully equal to those of the preceding nights. The militia is still in its armories waiting orders. The funeral was an immense affair, fully 10,000 union men being in line.

### General Young Dead.

Washington, July 8.—A dispatch was received by the state department today announcing that General Pierce B. Young, United States minister to Guatemala and Honduras, died at New York at 11:30 today. General Young arrived in this country June 24. He submitted to an operation at the Presbyterian hospital, New York, and never recovered. He was a native of Georgia, and had a distinguished record for service in the Confederate army.

### Earthquake at Cyprus.

Genoa, Italy, July 8.—Just arrived reports from Larnica say the island of Cyprus has been suffering from earthquake shocks since July 1. A general panic is said to prevail at Larnica. The government and military authorities are providing tents for the afflicted people. The town is deserted.

### For Union With Greece.

London, July 8.—A dispatch to the Standard from Athens says that the Cretans yesterday elected a provisional government, and decided to proclaim the union of the island with Greece, and, if pressed hope that autonomy will be granted to the island under surveillance of the powers.

### Horrible Double Murder.

Santa Barbara, Cal., July 8.—A horrible double murder has been committed here. The bodies of Mrs. H. R. Richardson, aged 60, and her daughter, Ethel, were found. They had been stabbed and beaten with a club. Intense excitement prevails. There is no clue to the murder.

### Walling Sentenced.

Newport, Ky., July 8.—Alonzo J. Walling, convicted of the murder of Pearl Bryan, was sentenced today to be hanged on August 7.

### The School Population.

Washington, July 7.—The total enrollment in educational institutions of all kinds in the United States for the school year of 1893-94 was nearly 16,000,000, according to the report for the year just promulgated by Commissioner of Education Harris. Of these all but 400,000 were in the regular schools, an increase of about half a million for the year. The percentage of total population enrolled in the schools was 20.53. School property gained in value during the year over \$26,000,000, and 1,103 more schoolhouses were in operation. In the past twenty years the South has increased 54 per cent in population, but its school attendance has increased 130 per cent, more than twice as fast as the population. In the twenty years from 1874 to 1894, the value of school property in the South increased from \$18,000,000 to \$51,000,000. Higher education has also made a good record. The report includes Specialist McDonald's criminological investigation. The latter seeks to prove that there can be no rational treatment of crime until the causes are investigated. He estimates nine-tenths of the crime to be due to bad social conditions.

### Turkey's Policy Condemned.

Philippopolis, July 7.—The consuls of the European powers are sending pessimistic accounts of the way in which hostilities are being conducted in Crete. The situation is such that should the porte insist in its conduct, French men-of-war may land troops on the island. The Armenian patriarch, Isemin, has asked permission to resign. Further outbreaks seem inevitable. The Turkish battalions at Jeddah, who mutinied on account of receiving no pay, have deserted their arms. There are no troops available to put down this revolt. The porte, foreseeing complications in Greece, Macedonia and Syria, is about to mobilize all the troops of the bediff, or landwehr.

The bones of the skull are arched because in that form the greatest strength is combined with the least weight and quantity of material.

### Satoli's Successor.

Rome, July 7.—According to a newspaper statement, Bishop Falconio, of Acerenza, will replace Cardinal Satoli as papal legate to the United States. Bishop Falconio was once engaged at St. Buenaventura college, Allegheny, N. Y.

## AWFUL WAVE OF DEATH

Further Particulars of the Disaster in Japan.

### WORSE THAN FIRST THOUGHT

Entire Cities Were Washed Away—Some of the Seaports That Were Affected—Thousands Were Killed.

Vancouver, B. C., July 6.—The Empress of China arrived last night with Yokohama news to June 18. Regarding the recent earthquake wave, the Yokohama Mail has the following:

It will be sometime doubtless, before the full particulars reach Tokio of the cruel disaster that has overtaken the people living on the coast of Pikuzen and Rikchu. Between 8 and 8:20 P. M. on the 18th a violent seismic disturbance occurred in the ocean that bathes the northeastern coast of the main island. Accounts thus far received place the center of the disturbance in the vicinity of the island Kinkwa-Zan. Following the coast line northward from Kinkwa-Zan, we find the reports from the various places on the beach:

Onogawa, Futhama—Many lives lost, animals destroyed and houses inundated, but no definite numbers stated.

Washigama—Forty persons killed, thirty houses washed away; prison doors thrown open and several prisoners supposed to be lost, as well as some of the wardens; quantities of mail matter swept away.

Motoyoshi (or Shizukawa)—Eighty houses swept away; seventy-two corpses recovered.

Kamaishi—Over one-half of the town swept away; many persons and animals killed; telegraph office washed away.

Miyako—Much injury to life and property.

Kuji—The same fate as above.

Hachinoye, Minato—Eleven persons killed, two missing; school building destroyed; bridges swept away.

Some accounts speak vaguely of thousands of lives lost and 500 houses swept away on the coast of Ojika and Motoyosi alone, but that seems to be exaggeration.

One statement is that thirteen shocks were felt in the neighborhood of Ishimaki, but they must have been comparatively slight. Undoubtedly there has been a lamentable loss of life and property, and large tracts of rice fields have been inundated and destroyed.

Following are further details regarding the damage done and lives lost through the tidal wave:

Onani, Motoyoshi—Buildings swept away, ninety; deaths, 400.

Hashikami, Mura—Buildings swept away, 300; deaths, 400; wounded, 100.

Koidzumi, Mura—Deaths 1,450.

Utatsu, Mura, Motoyoshi district—Buildings swept away, 600, there being absolutely nothing left; deaths, 600; wounded, 250.

Okachibama, Momo district—Buildings swept away, 40; deaths, 81; wounded, 5.

Sendai—In the districts of Motoyoshi, Ojika and Momo, in Miyagi prefecture, there was disastrous damage by the tidal wave during the night. Motoyoshi alone had 1,030 deaths, and 560 buildings washed away.

### Protection of Pugilism

San Francisco, July 6.—There is a movement on foot among sporting men to form a society that will probably be known as a Sportsmen's Protective Association. The object will be the protection of sports in general, and the fostering of boxing bouts in particular. Business men interested in sporting matters are at the head of the movement. It is their intention to interest John D. Spreckles, Thomas H. Williams and others equally prominent in sporting circles in the matter, and in this way form an organization that will not only do a great deal toward the purification of sports, but become a prominent political factor as well. Just at present it looks as if the sole purpose of the organization is to perpetuate "scientific" boxing exhibitions, and that candidates for public office who are not opposed to such exhibitions will have the support and approval of the association.

### A Quarantine Squabble.

San Francisco, July 6.—The board of health is prepared to defy the federal government. At a meeting of the board today a letter was dictated by Dr. Wallace Wyman, in charge of the Marine hospital at Washington, declaring that the United States statutes gives the federal government no authority to establish quarantine regulations over San Francisco bay, while the California statutes particularly establish the position of the quarantine officer. The board has announced its intention of standing by its authority.

### Was It Andrea's Balloon?

New York, July 6.—A special to the World from Winnipeg says: "A mysterious balloon passed over Winnipeg this evening. The appearance of the balloon caused people to wonder if it was Andrea's balloon. Professor Andrea sailed early in June from Norway for Spitzbergen, from whence he intended to go to the North pole in a balloon."
