GERMEA for breakfast.

DENTISTS IN PETTICOATS.

Dr. Josephine M. Rankin Managing a Large Association in New York.

The manager of one of the largest dental associations in New York is a Brooklyn woman—young, pretty and thoroughly versed in professional ways. Dr. Josephine Maude Rankin has had, up to date, nine years' experience in the somewhat active calling of dentistry. Before entering college she was for three years assistant in the offices of various well-known city dentists. In '93 she graduated with honors from the Philadelphia Dental College, which meant a three-years' course of steady plodding, and since receiving her diploma she has practiced constantly in New York. To prove her success in her chosen profession it is only necessary to state that from the small of

DR. JOSEPHINE MAUDE RANKIN.

face in which she began work she has enlarged her quarters until she now occupies an entire building, and has no less than ten men in her employ. She is, however, sole manager of the dental association as well as its organizer. She is an active, progressive worker in her profession. One of the finest exhibits of dental work at the Atlanta Exposition was sent by Miss Rankin, and brought her high praise from dentists all over the country. Miss Rankin does not object to women as co-workers, but, strange to say, has never received an application for work from a woman dentist. The 200 women who are in the dental profession in the United States are without exception in business for themselves.

A MARVELOUS CLOCK.

Tiny Human Skeletons Sound the Passing Hours.

Probably the most wonderful piece of mechanism ever seen or dreamed of is the property of an Inland Indian prince. It was the work of the vastly skilled artisans of the east, and the only white man, probably, who ever set eyes upon it was the English army officer who went to the palace of the nabob as bearer of messages from the English government, and, returning to the coast, told of the marvel he had witnessed.

The dial of this clock was outlined in gold upon a carved slab of some peculiar marble, and beneath it was suspended, between two uprights, a silver gong. Then a broad, flat surface of marble spread out before that littered from end to end with miniature bones

THE MARVELOUS CLOCK.

and skulls, and here and there tiny silver hammers, with little round balls for heads. The bones seemed to be entirely disconnected, and looked only like so much rubbish remnants of the tiny dead.

The clock stood in the dining hall where the ceremonious meal was being served, and as 1 o'clock drew near the prince called the visitor's attention to a rustling among the dry bones. With a faint clatter they began to rise and come together, a skull set itself upon the shoulder structure, and from the mass of dry bones one tiny skeleton rose complete, with a little hammer clutched in his bony fingers. He stood beside the shining gong until the minute hand pointed precisely to the hour. Then, with a quick swing, he drove the hammer against the shining surface, and a silver note, fine as a thread, burst forth and echoed away in soft cadences among the distant pillars of the place. Before its whispers ceased in the stillness the little skeleton had, like the ghost of John James Christopher Benjamin Blinn, "gone down again," and the scattered bones lay motionless once more upon the marble plain.

Of course there is such a thing as love, or there wouldn't be so many divorces.

PAIN'S CELERY COMPOUND

The Best Remedy in the World—It Makes People Well.

There is one true specific for diseases arising from impure blood and a debilitated nervous system, and that is Paine's celery compound, so generally prescribed by physicians. It is probably the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For the latter Paine's celery compound has succeeded again and again where everything else has failed.

Street railway rails in Memphis, Tenn., are being welded together with molten steel.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.

Hall's Family Pills are the best.

To be perfectly proportioned it is claimed that a man should weigh twenty-eight pounds to every foot of his height.

HOITT'S SCHOOL FOR BOYS

At Burlingame, San Mateo County, Cal., is one of the most thorough, careful and practical "Home Schools" to be found on the Pacific coast. It prepares boys for any university, technical school, or for active business; is accredited at the State and Stanford Universities, and under the able management of Ex State Superintendent Ira G. Hoitt, Ph. D., ranks among the first schools in the United States. Re-opens August 4.—*Mining and Scientific Press.*

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Blood Poison.

Contagious Blood Poison has been appropriately called the curse of mankind. It is the one disease that physicians cannot cure; their mercurial and potash remedies only bottle up the poison in the system, to surely break forth in a more virulent form, resulting in a total wreck of the system.

Dr. Frank B. Martin, a prominent dealer at 926 Pennsylvania Ave., Washington, D.C., says: I was for a long time under treatment of two of the best physicians of this city, for a severe case of blood poison, but my condition grew worse all the while, notwithstanding the fact that they charged me three hundred dollars. My mouth was

filled with eating sores; my tongue was almost eaten away, so that for three months I was unable to taste any solid food. My hair was coming out rapidly. I was in a horrible fix. I had tried various treatments, and was nearly discouraged, when a friend recommended S.S.S. After I had taken four bottles, I began to get better, and when I had washed eighteen bottles, I was cured and well, my skin was without a blemish, and I have had no return of the disease. S.S.S. (guaranteed purely vegetable) will cure any case of blood poison. Books on the disease and its treatment, mailed free by Swift Specific Co., Santa, Ga.
