Gowell bought and sells everything. Crosby Matthews was up from Newport Saturday. Mrs. Matt Patterson of Yaqunin, visited in Toledo Tuesday. For longest variety, best quality, lowest prices. After nearly a month’s stay at Other Rock Chas. Rhul is again in town.

Miss Ivy Griffth of Elk City, visited Miss Lou Burt the first of the week. Mrs. Dick and Eth Gillher were over from the Agency, and attended the dance Monday night.

The dance at the court house last Saturday night was quite a success, there being a good crowd in attendance. N. L. Glass, of Big Elk, and John P. Allen, of Nashville, made proof before County Clerk Jones last Saturday.

It has been reported here to the effect that one of the most responsible business men in town, has neglected his business, and has left town.

While Santa Claus Van Clere has made his Christmas effort, and has concluded to export the city books to the South, John Good, of 103 S. Liberty, Fullerton take the lead, or will be given the order himself. Speaking of Fullerton, it is a very sad sight to see his store in an empty room.

The holding for printing assessor’s books last Tuesday was quite considerable amount of business, amounting to something like 2,000,000 pages blank. The lowest bid was that of the “Eagle,” being the highest bid that of the New York Times. That is contact the “Eagle” please.

The close margin.

The Terre Haute and Indiana Transportation Company have purchased the steamer T. R. Richardson and will put her on the Newport-Yaqunin run. This will make but one boat on the run this coming summer, and the Richardson the run two again after a long lay-off. The Richardson is a good boat for that run, being comfortable, roomy and fast.

These hard times even brings out the good in human nature, and if all people have possessed for some time, it is possible that we shall see. Lester Waugh’s hands are clean, he is a silver piece, a little harder than a dollar. It be- longs to him.

The sale of a part of the inscriptions are went out, but the words “Vernac Nor, Geth. Oth. Kenning,” can be deciphered. The edge is not milled, but instead some letters have been stumped thereon. Mr. Waugh got the silver piece from an Indian, and the Indian got it from the white man, where the Indian got it no one knows.

An idea of what may be done with beehive in this country can be obtained from the experiences of Mr. J. W. O. Neel, last year with his 700 hives. He had about 900 hives of bees in the spring. During the winter, 300 were lost. This number was cast from these, and in addi- tion thereto Mr. Neel took care of the bees and got 200 hives of good honey for which he received about an average of 14 cents per pound. His income outside of his work caring for the bees and the sale of some of the honey was about $16, leaving a net gain of $2. Besides the increase of seven or eight hives, this was more than a reasonable value of $4. This was in one of the most cycles of our city.

For bee suppliers call on Gowell.

Do you know a good thing? If you do, go to Gowell to buy of him.

Gowell has everything in the weed line at Portland and San Francisco prices.

Peter Telien is still at Yaqunin with a full line of farmers’ and merchants’ supply.

Miss Beth and Eth Gillher were over from the Agency and attended the dance Monday night.

The dance at the court house last Saturday night was quite a success, there being a good crowd in attendance.

N. L. Glass, of Big Elk, and John P. Allen, of Nashville, made proof before County Clerk Jones last Saturday.

Mrs. Chas. H. Van Cleve has made his Christmas effort, and has concluded to export the city books to the South.

The holding for printing assessor’s books last Tuesday was quite considerable amount of business, amounting to something like 2,000,000 pages blank. The lowest bid was that of the “Eagle,” being the highest bid that of the New York Times. That is contact the “Eagle” please.

The close margin.

R. W. Copeland, Geo. Mc- Clinkey and Ira Wade were Toledo canvassers last week, and it is reported they are successful applicants for teacher’s certificates for the next examination.

Do you know that if you neglect exercise, then your body is in the same condition as your clothes and horses? Do you know that exercise is a sport of all rational beings. It is simple and inexpensive, being only a little piece of fuel with an explosive at the end that generates carbonic acid gas when it explodes. This fire is inserted in the gutter hole, and the fire is put down on the stove floor with a long hook, so that the gas cannot escape. Soon there is the hot stuff, the clothes and horses are dry and all the squinters, geishas and anything else soiled in the washing have left in the long, long sleep.

County Superintendent Irwin de- serted the same position, with the same pay, to the hole and the hogs in their beds teachers at Newport, mention of which is made elsewhere. The war is going on, and the counties in the country may well be proud of Mr. Irwin, who is attracting more and more promising educators every day, and thus the success of the educational system. The Superior Superintendent Irwin, Prof. Chapman, Prof. Campbell, Presi- dent Van Buren, and the other progressive educators pushing the educational system in the county is bound to be a success.

Albert Hankins was up from Newport today, looking after the place that will be used to put in the new dock at that place.

The food and the Oregon legis- lature have both hit the hills at the same length of time—forty days. The legislature held over four days. Oatmeal is at its lowest in value at the close of the food.

A NEW KIND OF PUDDING.

The Salem Journal has had the good taste to report on PUDDING in its columns. The writer says,—"I have a woman’s department in your paper. I want you to give a recipe which a friend sent me from Oregon. It is a new pudding, and is now very fashionable. It is called ‘condensed pudding.’ For the benefit of our unempleado branches, I will give them the following recipe.

Take three glasses of condensed milk, and one quart of good, ordinary apple sauce, with an ounce of salt, a few ounces of sugar, and cover with a nice rich crust. Bake in a moderate oven. This pudding is a delight, and will go down very well with a tea-spoonful of rum. I think your readers will like it.

CABINET AND REPAIR WORK.

I am prepared to do all kinds of Cabinet work repairing, and will do all kinds of Printers and Milling work. Paper hung and new furniture made. Call or address:

R. A. ADKINS,
Toledo, Ohio.

An Important Change.

Beginning January 1st, the present weekly edition of the DAILY PRESS has been changed to a TWICE A WEEK.

The Price will remain the same.

$1.00 PER YEAR

The usual liberal and generous testimonials will be continued, and will also

Contents

TRANSPORTATION

Realizing the benefits that the summer school had been to other states, and the power they have in awakening the latent powers and energies of the people in the state in educational work, upon which the safety of our country and the future of the land the heads of several educational department’s of the state have decided to establish one in Oregon. With that in mind the Board of State Supervisors have appointed C. H. Chapman, H. R. Miller and W. L. Crockett as agents of several days this week in Newport, considering the advantages of that place for the location of this school, they were well pleased as they have made a drastic investigation of the people of this county: That they will be set as a "board of educational directors." The Board of State Supervisors has power to dispose of the property of Lincoln county, and that the property should be turned into buildings. The course will include in its several departments, such as geography, geology, history and economics, agriculture, mechanical and agricultural sciences, advertisement, physical culture, teachers review, English literature, peda- gogy, and general and special education, astronomy, etc. These several departments will be taught by specialists in their work, identified from all parts of the state. What is asked by these gentlemen is in assimilation in comparison to the benefits the school will be to the people of the county, that the school is already over en- thusiastic, bringing all the people, having a degree of intelligence and refinement that could be solicited to us in ten times the number of the people of Iowa, thousands of people that it will attract will consume as much in products of our county, furnishing high cash market for all free produce. Mr. Chapman, in his communication to the Oregon legislature, says the cost of the buildings required will be about $150,000. The legislature, he says, will be denoted no doubt. The amount of money expended by the legislature of the state this year in our county will amount to about $3,000 or $4,000. This will be a most valuable and important addition to the school in Portland. This will be a great step in the advancement of the educational center of which Oregon and the Pacific coast will be proud. We hope that every person will assist this enterprise, and we are confident they will.

For additional information call on Mr. Chapman, 103 S. Liberty.

The Leader

I have taken up my position at the obelisk, one bit of stone, about a year off, marked with split and bad stone. I am now notified to prove property and pay charges on same.
