#### Still Firing Away.

The Newport News is still after Carter, Lake, et al., for the failure of the legislature to re-elect Mitchell to the U.S. senate. Some of its articles are quite pointed and take the gentlemen referred to to task in a rather vigorous manner. These articles take on new interest in the light of the rumor that they are penned by Hon, R. A. Bensell, of Newport. Mr. Bensell was at Salem during the entire session and should have acquired a knowledge of what was going on there. His letters show that the whole business was rotten to core. But that the are not ready believe. We do not think that money, promises and combinations were confined to one side only. In fact this is a case where we do not believe that the pot can call the kettle black with any degree of consistency.

As far as Mr. Lake is concerned, Mr. Beusell was one of the delegates to the state convention that "discovered" him, and helped to give him the republican nomination, and it looks pretty tough to see him desert him now.

Corbett, who was a senator by appointment once before, is said to have made the office pay in a SAMPLE COPIES SENT FREE. financial way. It seems that a new tariff bill, raising the duties on iron Address, The LEADER, and steel, had been prepared and was certain of passage through congress, and Corbett concluded to profit by his knowledge of its provisions. Pending the passage of the bill he invested all the funds he had or could borrow in iron, and after the measure became a law that commodity went up with a whoop, Corbett doubling his money, thus laying the foundation for his present enormous fortune. - Salem States-

Perhaps one of the best indications of the power which is behind Mr. Hammond, and the foundation upon which the Astoria railroad is to be Painter and Paparhanger, builded is furnished in that portion of the ninety-nine year contract between the Astoria & Columbia River railroad and the Northern track between Goble and Portland It appears that one of the conditions is that the Northern Pacific shall immediately relay that portios of its system with steel rails of the heaviest manufacture.—Statesman.

According to the Oregonian the sugar schedule in the new tariff bill annually into the pockets of the gar trusts. This means just that much money taken out of the pockets of the people who consume the sugar.
