Mr. and Mrs. Vincent came near losing their dwelling house in this place by fire last Saturday. Just after noon fire caught in the roof, and had not help been prompt in responding the house would soon have been a total loss. Fortunately the fire was gotten under control, and extinguished, and the damage was not great. The fire started from sparks from a pipe sticking through a shed roof which was so close to the main roof that the sparks took effect.

W. A. Fash has the shed part of his new furniture store about enclosed. He expects to go to Woodburn about Saturday and make arrangements to ship his stock of furniture and undertaker's goods over. These he will put into the shed until he can get the main part of the building finished. He expects to have his goods here some time next week. His building is quite a good sized one, covering a plot of ground 50 feet square. The main part of the building will be 30x50 and the shed part 20x50.

The machine shops at Yaquina are turning down some locomotive drive wheels for the Coos Bay railroad. These wheels had become worn, and they were sent up on the Farallon to be turned down.

It looks almost like some of our young sports were trying to break into jail. We would advise them to carefully investigate the state law with regard to prize-fighting, or aiding or abetting the same.

Road Supervisor Tillotson has started to work out the regular road taxes for this year. He had a force of men cutting roots and stumps yesterday in order that the crowder can be put on the road and level it up in good shape.

The proposition to issue city bonds in the sum of \$2,500 was voted on by the people of Toledo last Saturday was defeated by a vote of 39 to 28. The election passed off very quietly. The full vote of the city was not polled, there being some eight or ten votes that were not cast.

O'Brien's, Yaquina, has become a household saying with the people of Lincoln county, when the subject of clothing, dry goods and furnishings are mentioned. This is the only exclusive dry goods house in the county, and it is out this spring with a larger stock of the latest styles and patterns, than has ever been brought to this county. Their large and commodious store room is filled with new goods. Their stock of clothing is unusually large and shows that the price and quality must be right to insure them a large trade from the surrounding country. Their advertisement speaks to the readers of the LEADER each week, and what is more to the point they do just as they advertise.

You can get anything at Gowell's. All the latest styles in shoes at O'Brien's.

Gowell's prices are based on values.

Capt. Henry Nice, of Alsea Bay, was a passenger on Saturday evening's train.

Uncle Sol Mulkey, and his son James, were down from Little Elk on business Monday evening.

Hon. J. R. Bryson and wife, of Corvallis, expect to soon make a business trip to New York City.

Do you know that if you neglect catarrh in the head it will bring on other troubles that often terminate fatally. Stop it now and be cured from that disagreeable disease, by using Prescription No. 1. Forsale by O. O. Krogstad, druggist.

Chas. L. Tillotson has a logging contract with M. Gregson, of the Toledo saw mill, which will keep him busy the most of the summer. The contract is for 300,000 feet. The logs will be taken from the Logan place on Pool's slough. Mr. Tillotson expects to go to work on the contract at an early date.

Assessor Lutz is assessing unimproved lands belonging to farmers and ranchers at from \$2 to \$3 per acre. If Mr. Lutz will assess the lands of the O. & C. and the O. C. & E. railroads, the Oregon Agricultural company and the other lands held by speculative corporations at the same figures it will equalize matters a little, and also add to the county treasury quite an amount of extra cash.

Mine Host Brunk, of the Yaquina hotel, is one of the most accommodating and genial of landlords, always ready to speed the parting guest, and to welcome the new one. This was forcibly illustrated the other day. One of the O. C. & E. bridge boys being called suddenly away to a remote point to work sent word to Mr. Brunk to forward his valise. Some landlords would not have done it, but Mac did. He also was careful to see that the valise had the proper address on it, so that it would reach the owner in safety. In fact so careful was he that the whole grip was covered with cards and addresses of various kinds and in unknown quantities. To make it safe in case it should happen to fall into the water a good big life preserver was tied to the bottom of the grip. We are pleased to be able to state that the grip arrived in safety.

It's too bad, but we don't suppose that there is a hardly a single flounder and mighty few perch left in the lower bay. We judge this from the appearance of the fishing party from Elk City that was headed for the fishing grounds Tuesday. The party consisted of L. W. Deyoe, Wm. Woods, Brit White, Ed. Allen and a drummer and another gentlemen whose name, residence and avocation was unknown, but he must have been a newcomer. We felt rather sorry for the drummer and the stranger, as both of them seemed to be nice men, but the other members of the party kept such close watch on them while they were in Toledo that it was impossible to rescue them, or to even to give them a fair warning. The party had the steam launch Mascotte chartered for a two days' trip, and from the gloom and depression that seemed to hang over and pervade the whole party it was plain to be seen that they had their minds made up either to catch all the fish in the lower bay, or to drown that drummer and run off with his sample case. We hope that the fish are all right, anyhow.

Gowell sells at wholesale and retail.

Val. Wheeler writes to have his LEADER sent to La Du, Washington, where he is in charge of the rock crushers of the Columbia River Rock and Contract Company, of Portland. They are furnishing crushed stone for the fortifications that the government are erecting at Fort Stevens, on the lower Columbia river.

Americans are the most inventive people on earth. To them have been issued nearly 500,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by O. O. Krogstad, druggist.

Ever since the Corbett-Fitzsimmons battle, glove contests, boxing matches and other forms of fistic cult has been popular all over the country. It struck Toledo, and seems to be getting worse instead of better. It changed from the mild type of boxing for fun into the more virulent form of trying to get up a genuine match yesterday. It seems that a couple of our young men had some difficulty and were about to settle it in the old fashioned way, with "bare knuckles and beef steaks," when the more sportively inclined induced them to settle it in prize ring style. That is, they tried to induce them. Accordingly a challenge duly written, signed, sealed, executed and manifested was dispatched by one of the would-be "scrappers" to the other through the medium of a faithful friend. The challenged party received the ominous looking document, and informed the messenger that he stood ready to fight the sender, messenger, backer, or any other blankety-blank chap that would take it up. Later he sent a messenger accepting the challenge and chose as his weapons a basket of rotten eggs. This style of a deadly weapon did not seem to suit the "promoters" of the affair and the match was not pulled off.

When ever good qualities of Chamberlain's Cough Remedy become known to people will have nothing else. For sale by O. O. Krogstad, druggist.

Consumption

Out-door life and Scott's Emulsion of Cod-liver Oil with Hypophosphites have cured thousands of cases of consumption in the early stages. They cure old, advanced cases too; but not so many, nor so promptly. When a case is so far advanced that a cure cannot be made, even then SCOTT'S EMULSION checks the rapidity of the disease, relieves the pains in the chest, reduces the night sweats, and makes the cough easier. In these cases it comforts and prolongs life. Don't experiment with cures that destroy the digestion. Pin your faith to the one remedy which has been THE STANDARD FOR OVER 20 YEARS.
