Why?

Why wear wool?
To keep out cold? No.
To keep in heat.
If the body is supplied with plenty of fresh air—oxygen—and proper food, it will generate sufficient warmth to protect you on the coldest day—**Scott's Emulsion of Cod-liver Oil**, with Hypophosphites, is the best warm-food. Thin people, people with poor blood who are easily shaken by a cold wind take Scott's Emulsion and it makes good blood, improves the appetite, increases flesh, furnishes bodily warmth, and prevents the ill results from colds, coughs, and exposures.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. *Ask your doctor.* This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites. Put up in 50 cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby.

No Air, No Life.

Pneumonia suffocates, because the swollen tubes get solid, and keep air from the lungs. Dr. Acker's English Remedy reduces the inflammation, so the patient breathes freely, and is soon well.

Miss R. Ray, 354 W. 22d St., N. Y., says: "When threatened with pneumonia, I took one bottle of Dr. Acker's English Remedy, and the pain and cough disappeared."

Weekly Crop and Weather Report.

WESTERN OREGON.

Weather.—Fair and warmer prevailed up to Sunday, when it became cooler with increasing cloudiness and a few scattered showers fell. Today (Monday) cool, cloudy and showery weather prevails. The mean temperature for the week averages 66 degrees, which is 1 degree higher than for the preceding week. The maximum temperatures averaged 77 degrees, and the minimum 55 degrees; the highest maximum was 92 degrees, on Saturday, and the lowest minimum was 48 degrees, on Thursday. The total rainfall for the week from a trace to 0.05 of an inch.

Crops.—The weather has been favorable to all farm operations. During the past week the threshing was practically completed; it was found that little or no damage was done to the grain by the rains the fore part of the month. Wheat and oats had more than average yields, and the large acreage of spring grain has made the total product equal to the former largest crop. Hop have all been picked and drying continues. The estimate of last week of one-third the total crop being ruined by rain, mold and lice, is a fair approximation of the loss.

Prune drying continues. The prune crop is thoroughly satisfactory and drying is progressing. The total prune crop will be the largest in the history of the State.

Plowing and seeding continue to be active. The rain of today is very opportune, for it will put all soil in excellent condition to be worked.

Potatoe digging continues to be very active, and all reports indicate a very large potatoe crop. Grapes are ripe and are a large crop. The fruit crop is practically all gathered, except winter apples and winter pears. Cabbage, carrots, onions, etc., are very large crops. The grass has become green, due to the early September rains, and pasturage is excellent. Stock is fattening, milch cows are improving, and the supply of butter is increasing.

The year has had a few unfavorable periods; but, on the whole, it has been one of the most successful and prosperous ones in the history of the state.

Peter M. Abbey came over from Newport Saturday and his visit has upset all calculations concerning contemplated Corvallis hotel changes. The Schmidt people were all prepared to vacate the Occidental, having even engaged help to assist in the removal, but the whole scheme for retirements and new landlords is now however declared to be off, and for the present at least William Schmidt will remain landlord of the Occidental. Mr. Abbey announces that he will not come to Corvallis to engage in the hotel business.—Corvallis Times.

The cheering news comes from old Marion county that "Nod" Looney has not flopped from Geer to Ike Patterson, but is still a Geer partisan. It is well. As long as "Nod" Looney stands firm it don't matter much what "Bent" Killin or "Spud" Murphy says, anyway.

J. W. Ball, collector of customs at Yaquina, has been given a certificate of the solvency of his bondsmen, thus renewing his official bond of \$50,000.

An Arkansas editor, reading that a young lady in New York kneads bread with her gloves on, says: "We need bread with our boots on; we need bread with our pants on, and if our subscribers in arrears don't pay up soon we shall need bread without anything on."

The Gervais Star says some of the hop yards near Gervais have been abandoned on account of the presence of mold, and now buyers have gone through such yards and offered 10 cents per pound for all that were left. The pickers have gone into the yards again in full force, and are diligently at work. This has happened in the F. Keizer yard, and other yards once given up are being repicked.

The New York World has been getting replies from democratic national committeemen to this inquiry: "Telegraph whether the growing prosperity of the country has shaken the faith of democrats and populists of your state in the silver issue. Is their loyalty to Mr. Bryan as a leader as great as ever?" Nearly all of the committeemen answered that the sentiment was still for free silver and Bryan.

"Have angels wings?" is a question the supreme court of the state of New York will be asked to decide. A woman artist made a memorial window for a church in Syracuse, N. Y. When the man who ordered it saw that there was a wingless angel in the window he refused to accept it and a suit followed. Presumably the verdict will have to be based on circumstantial evidence.

When Isaac Deter learned the result of the threshing of his wheat and barley last week he was the most happily surprised man in Lake county. The machine did not "clean up," as it is called, after finishing, or there would have been more grain, but here is the yield: Wheat, 56½ bushels to the acre; barley, 86½ bushels to the acre. We would like to know if it can be beat in Oregon.—Lake County Examiner.

"My boy came home from school one day with his hand badly lacerated and bleeding and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Co., St. Louis. "I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism, I know of no medicine or prescription equal to it. I consider it a household necessity." The 25 and 50 cent sizes for sale by O. O. Krogstad, druggist.

J. B. Montgomery, who is a past master in the art of fishing, and who is always on hand where good sport is to be had in that line, has been over to Yaquina Bay, enjoying the salmon-fishing for several days. As proof of his success, he yesterday sent over to friends here half a dozen fine salmon, the captives of his hook and line. Before returning he will probably try his hand at whale-fishing, and if he has luck his friends may expect a mess of blubber to give them an idea of what is the proper thing for a Klondike outfit.

This notice appeared in an Eastern paper. "Married, at Flintstone, by Rev. Windstone, Mr. Nehemiah Whitestone and Miss Wilhemina Sandstone, both of Limestone." The Tacoma News remarks: "There will be other pebbles on the beach."

On Yaquina Bay they are having rare sport trolling for salmon. Dr. Davis caught a Chinook the first of the week weighing over 30 pounds. The bay is filled with boats and all are catching salmon, mostly silver-sides. It is royal sport—Corvallis Union.

Hon. C. B. Moores, of Salem, has been appointed register of the Oregon City land office, and he is going to accept the appointment. Mr. Moores was speaker of the lower house of the legislature in 1895, and is a man thoroughly qualified in every respect to fill the office.

Dr. J. R. Bayley was in town over Sunday. The name of the doctor is associated with all the early struggles of the state, and particularly so of this town. At Newport, where he resides, he has the finest residence in the county. He is port physician at the bay and an important factor in all its enterprises.—Corvallis Union.

Trouble is on between cattle buyers over in Lincoln. James Lewis has been operating over there, and also has a man named Meaker. A carload of cattle had been gathered for shipment from Yaquina to the valley the other day, and by some queer and incomprehensible freak in human nature, both men laid claim to the bovines. The dispute became violent and a lawsuit in which the jury hung, and a fight in which Lewis claims he thoroughly licked the other man, were two results of the misunderstanding, and the end, they say, is not yet. At last accounts the other fellow, and not Jim, had possession of the cattle.—Corvallis Times.

The Toledo Weekly Blade.

Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 postoffices in the country. It is edited with reference to a national circulation. It is a Republican paper, but men of all politics take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department, (best in the world). Young Folks, Sunday School Lessons, Talmage's Sermons, the Farmstead, the Question Bureau (which answers questions for subscribers), the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only \$1 a year. If you wish to raise a club, write for terms.
