## Railroad Engineer

Testifies to Benefits Received From  
Dr. Miles' Remedies.

THERE is no more responsible position on earth than that of a railroad engineer. On his steady nerves, clear brain, bright eye and perfect self command, depend the safety of the train and the lives of its passengers. Dr. Miles' Nerve and other remedies are especially adapted to keeping the nerves steady, the brain clear and the mental faculties unimpaired.

Engineer F. W. McCoy, formerly of 1323 Broadway, Council Bluffs, but now residing at 3111 Humboldt St., Denver, writes that he "suffered for years from constipation, causing sick, nervous and bilious headaches and was fully restored to health by Dr. Miles' Nerve & Liver Pills. I heartily recommend Dr. Miles' Remedies."

Although the war lasted only 114 days it is estimated that it cost the government so far \$150,000,000, of which \$98,000,000 has actually been paid out of the treasury. Beginning March 1st, when the first increase in expenditures in anticipation of the war became apparent in the daily expenditures of the treasury, actual disbursements have been approximately as follows: March—Army, \$600,000; navy, \$2,400,000; total, \$3,000,000. April—Army, \$1,200,000; navy, \$9,800,000; total, \$11,000,000. May—Army, \$12,000,000; navy, \$7,000,000; total, \$19,000,000. June—Army, \$16,500,000; navy, \$6,500,000; total, \$23,000,000. July—Army, \$29,000,000; navy, \$5,500,000; total, \$35,000,000. To August 13th—Army, \$5,500,000; navy, \$1,500,000; total, \$7,000,000. Total war department, \$65,300,000, total, navy department, \$327,000,000. Grand total, \$98,000,000. Appropriations made by congress on account of the war aggregated about \$360,000,000, and cover the time to January 1, 1899.

The elk and deer season has been open since the 1st, and Southern Oregon hunters who have been out report good luck. In other parts of the state little has been heard of the doings of the hunters. It is pretty generally expected that before the season ends the slaughter of elk will be about as great as usual, and that one result of the indiscriminate killing will be a petition to the next legislature for the enactment of better game laws and provision for their enforcement. It is understood that Game Warden McGuire is now drafting a bill which will cover the whole question. Owing to the wholesale slaughter of elk during recent years, it is said that Mr McGuire will favor either a law limiting the killing by each person to one or two animals, or one altogether prohibiting the killing of elk for a term of five years, so the stock may increase. Mr. McGuire says that at the present rate of slaughter there will be no elk left in the state in a few years.—Oregonian.

Gen. S. B. M. Young, who commanded the Second brigade in General Wheeler's cavalry division, in the fighting before Santiago, had a chance to study the Cuban insurgents at close range, and his opinion of them, expressed in the following vigorous language, is worthy of consideration: "The insurgents," says General Young, "are a lot of degenerates, absolutely devoid of honor or gratitude. They have no regard for the truth, and when they make promises they never keep them unless it is to their own advantage to do so." The Cubans are no more capable of self-government than the savages of Africa. The average Cuban is of a very low order of mankind. He is a mixture of Spanish, Indian, Italian and negro, and he inherits the bad qualities of all. They would loot everything in sight and then start in and rob one another. Most of the leaders of the so-called Cuban army are a lot of adventurers, ready to sacrifice everybody and everything to further their own personal ends. It's my opinion that few of them would hesitate to sell out to the Spaniards if fully convinced that the United States is not going to deliver the island over to them. The only thing which might prevent them from doing so is that the Spaniards know them too well to trust them. I have a great deal more confidence in the Spaniards than I have in the Cubans."

### BOYS COMPOSITION ON HENS.

A boy's composition on hens reads as follows: "Hens is curious animals. They don't have no nose, nor no teeth, nor no ears. They swaller their vittles whole, and chew it up in their crop inside of 'em. The outside of hens is usually put into pillars and feather dusters. The inside of a hen is sometimes filled up with marbles and shirt buttons and sich. The hen is much smaller than some other animals, but they'll dig up more tomato plants than anything that ain't a hen. Hens is very useful to lay eggs for plum puddings. Bet yer life I like plum pudding. Skinny Bates eat so much plum pudding once that it put him in the colliery. Hens has got wings and can fly when they are scart. I cut my Uncle William's hen's neck off with the hatchet and it scart her to death. Hens sometimes make very fine spring chickens.

While at Newport last week, Rev G. W. Grannis distinguished himself by catching a shark measuring about 5 feet in length. The reverend gentleman was strolling along the beach between that city and Nye creek, accompanied by several acquaintances, when he saw some live object struggling in the surf. On further observations he discovered that it was a shark and grabbing a piece of drift wood on the bank, he waded into the water and succeeded in killing the big fish. Bringing the monster to shore it was taken to Newport, where it was the object of much curiosity for a large number of the summer resorters at that place.—Salem Statesman.

The corporation of Wells-Fargo express company was one of the strong corporations of the country that howled the loudest in the national campaign of 1896 about national dishonor and against free coinage. It now proves how patriotic it can be by refusing to pay its share of the war tax. When anyone sends anything by express now days they must dig up a revenue stamp. That great and good corporation's patriotism does not run to the extent of one cent on each one of its way bills.
