The true story of those 278 days of suffering by Greely's heroic little band of explorers in the Arctic region has been told by General Greely himself, for the first time, for the October Ladies Home Journal. For years General Greely has kept an unbroken silence about his fearful experience and that of his companions, as they dropped dead one by one at his side, and it was only after the greatest persuasion that the famous explorer was induced to write the story.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtain relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. Last Monday evening another charm was added to the life of the Gazette family. We have been childless, lonely and disconsolate these many years, but now with this issue we take a new high in our overalls and begin life anew as the father of a bouncing baby, which nature has cheated of the opportunity of having the name of Dewey or Sampson, because it was not built that way—being a girl—that will some day cause us to swap our editorial chair for a pair of curling irons and take chewing gum on subscription.—Vale Gazette.

A new excursion arrangement has gone into effect on the Southern Pacific. A rate of \$4.65 for round trip has been made between Corvallis and Portland good Saturday, Sunday, and Monday. The regular round trip between Corvallis and Portland, good 30 days is \$5.50. This reduction is made for the three days of each week referred to in order to stimulate a sort of Sunday excursion business, between interior points and Portland. Similar rates have been made by the S. P. at other points.

One thing is certain—the stars and stripes will never float anywhere on the face of the footstool over a people who are not made freer by their coming. Under the sacred folds of our banner of freedom there can be no such a thing as human slavery in any form without forcing the flag to speak a lie. This war began in the interest of humanity, and in that interest it will end, maps or no maps. Wherever the stars and stripes once float the banner of treachery and trickery and brutality can never be raised again.—Knoxville Journal.

In the Philippine Islands all males over 21 years of age must pay a poll tax that equals £4 in our money, and the woman must pay £3. A man must pay license to sell coconuts from his own raising. Every article of furniture that costs half a sovereign is taxed. The curtain never goes up at a theater unless £2 is paid to the government, and for every act of slaughtering his own animals, clipping his own sheep or felling his own trees, the Philippine farmer must pay a fee to the government. There is exacted government tribute for getting married, and for being buried and at every step and turn of his life, the tax collector holds out his hand to him, and it is not a demand that can be refused. No wonder that Spain wishes to keep a possession that yields such a return; no wonder also that the last sixty years have developed seventeen rebellions in the Philippines.
