T. W. GORMAN, Yaquina City, Oregon.

Itch, Salt-Rheum and Eczema. The intense itching and smarting incident to these diseases, is usually allayed by applying Chamberlain's Eye and Skin Ointment.

The imbecility of some men is always inviting the embrace of death. It is the delight of such men to boast of what "tough fellows" they are, and tell how they overwork themselves and how they neglect little disorders and little illnesses that put other people on their backs.

of a boastful, cheerful idiot. If his head aches, it isn't worth paying any attention to: if he feels dull and drowsy during the day, it isn't worth serious consideration; if he is troubled with sleeplessness at night, he does himself with opiates. When he suffers from nervousness, he walks into the nearest drug store and orders powerful medicines that even a physician prescribes with care.

"I had indigestion and a torpid liver," writes Mrs. A. L. Gibbs, of Russellville, Logan County, Ky. "Dr. Pierce's Golden Medical Discovery cured me."

If constipation is also present, Dr. Pierce's Pleasant Pellets should be taken. They never fail; they never gripe. Druggists sell both medicines.

EDITORIAL.

No more elk can be killed in Oregon for 11 years. As usual, we are too slow.

With the senatorial contest settled we may look for remedial legislation from the regular session.

The people of Eugene are building a light draught steamboat, which will be down the river in a few days.

Another new law authorizes Benton county to establish and maintain a free ferry across the Willamette at Corvallis.

The senate has passed a bill amending the constitution and repealing the clause creating the office of state printer.

President McKinley visited the Omaha exposition Wednesday. He made a jewel of a speech and just set people wild with shouting.

Portland's new charter passed both houses Tuesday. It retains the police judge but cuts his salary from \$3,000 to \$1,800 per annum.

The governor has approved the law passed by legislature which extends the open season on all rivers but Columbia and its tributaries.

Last Saturday the La Grand sugar refinery sold its first car of Oregon grown and Oregon refined sugar to J. D. McKinnon. The quality is said to be the best.

Democratic papers are telling their readers they are quite certain to control the next congress. We can't see how they figure. The present house contains a majority of fifty over all. Republicans will have to lose heavily if they are not in majority next congress.

"Little Joe" will make Oregon a good senator. He is brainy, he is ambitious, he is a worker, he is a good organizer, and has no peer in our state as a parliamentarian. These qualifications cannot but make him a good senator.

The fact that a man is successful makes him enemies, and it is largely that Joe Simon has been successful that he has so many enemies in his own party. His work in 1897 is all that his enemies can put their finger on to stand against him.

Just think of it; Spain wants United States to assume Cuba's indebtedness. It includes the expense of 10 year's insurrection and that of the late war with Spain. She also wants to saddle the entire debt of the Philippines upon this country. It is the first thing our folks will do—in a horn.

No word of criticism has been heard in this locality at the senatorial choice of our legislature. Every one seems to breathe easier since the work was finished. The anti-Corbett members showed good sense and that they were willing to meet the Corbett people half way, when they made the offer to go into caucus and stand by its choice if only Corbett's name was stricken from the list of "availables." For this work they will receive the com-

mendation of nearly all the people in the state.

The ways and means committee reported Wednesday. The total of appropriations allowed is \$1,200,000—\$100,000 less than that of 1895. As this includes \$45,000 interest and also the expenses of the 1897 force it is considered very low. All applications of organizations not directly under the care of the state were laid aside.

One might easily believe the stories about Secretary Alger's palpable negligence and rank incapacity if they did not know that Fitzhugh Lee and Gen. Joe Wheeler life-time democrats and until lately bitter enemies of the North, have both testified that no army was ever so well equipped and given such good care. That kills it all.

At Virden, Illinois, day before yesterday a train containing 200 negro miners stopped just two minutes and the result was eight dead white men and eighteen wounded. The loss of the blacks was not given. The manager lays it to the governor and the governor lays it to the manager. It is a sad condition of affairs and the sooner a remedy can be found, the better for the entire country.

Toledo All Right.

Few little cities in Oregon are in better financial circumstances than Toledo. It owns its own jail and lot, owns ground for city hall and for a city park and owes but \$800. In short it has kept up its improvements with its growth and has something to show for all moneys expended. More grading and street work has been done in Toledo than any other town of its size and age in Oregon. Toledo is certain of being a solid little city. It is the center of trade and the largest amount of developed resources are tributary to it. Her liberality in building roads has contributed much to this state of things and should be kept up in future as in the past.

Nortons Notes.

Fall work is progressing slowly. No grain sown at present—too much rain.

Pasture on the out range is good this fall, and the stock is in first-class condition.

A good deal of stock is exchanging hands these days.

Bryant & Wagner drove about two hundred head of sheep to Kings valley this week.

John Hewett bought a choice lot of sheep of N. F. Edward, this week for \$3.25 per head.

'Squire Luckey, of Eddyville, had business at Nortons Tuesday, and made us a pleasant call.

J. W. Bryant killed three large bears this fall, with the aid of our esteemed friend, Frank Hyde's dogs. This is what makes us sheep raisers smile.

The sheep raisers of this vicinity is talking of organizing a club to pay a bounty on wild cat, cougar and bear.

H. S. Porter's thoroughbred Delaine ram, Dewey, did not take the prize at the State fair for being the best sheep in Oregon, because he was not there. If he had been there he would have taken the cake, bakery wagon and all. He sheared 18 pounds more wool than the first prize sheep at the fair.

We like to pay taxes, but we don't like to pay \$24.50 on our dogs that we have to keep so we can raise stock to make our living and pay our taxes. So let us kick on that dog tax law they are trying to get through the legislature.

PRO BONO PUBLICO.

Oct. 12, 1898. Underclothing for men, boys, ladies and children in an endless variety at YAQ. BAY MERC. Co's

Other Bidders.

Messrs. Wakefield and Jacobson, of Marshfield, whom our people will remember as the contractors who did the Coos bay improvement, arrived in this place Wednesday to look after lumber and piling for the work to be done on Yaquina bar. After a chat with our lumberman, M. Gregson, they took the evening train for Newport, where they will look over the immediate conditions surrounding the work to be done.

This firm is the fifth to look over the ground preparatory to bidding on the work, hence it does not appear that there will be any scarcity of bidders as has been feared by some of our people.

It will not be long till the impulse of this work will be felt by all this section of Oregon. It cannot come too quick.

Big Elk Items.

Mr. M. Glass has sold his ranch to a Mr. Kestar, of California. He has moved his family on the place, and Mr. Glass is occupying Milt Hart's house for the present.

Lem and Daisy Baker have been sick with typhoid fever. Both are improving rapidly and will go to Polk county for a visit until they regain their strength.

A. C. Tunison's mother has come west for a long visit to her children. Her home is in Michigan.

Beulah Tunison has gone to Eugene for a visit.

Otto Hathaway is very busy hunting deer near Marys peak.

There was three salmon and twenty men up Big Elk Monday.

Nearly all the people have returned from hop-picking.

Lizzie Mischler died September 11, 1898, aged 17 years. Lizzie was sick two weeks with typhoid fever. The end came at 4 o'clock in the morning. Her last words were "Good bye, I'm going home."

Her schoolmates covered her coffin and grave with flowers. She was their favorite at school, and there were many bitter farewell tears shed. Her uncle arrived at the grave just before the coffin was lowered. He had traveled all the way from California to see once more the well loved form. So bright in her studies, and loving to schoolmates and parents, but her hands are folded over her loving heart and she is taking her long last sleep in Big Elk grave yard.

'Tis hard to break the tender cord, When love has bound the heart; 'Tis hard, so hard, to speak the words, Must we forever part? Dearest loved one, we have laid thee In the peaceful grave's embrace, But thy memory will be cherished 'Till we see thy heavenly face.

Mothers, do you want your little boy to look neat and tidy and up to the latest style? If so, call on the YAQ. BAY MERC. Co.
