T. W. GORMAN,
Yaquina City, - Oregon.

The carriage of a buzz-saw doesn't move very fast, but if a man says on it long enough he will presently be sawn asunder. The process of gradual bodily decline and

loss of energy which leads finally to consumption is not always very rapid, but if it isn't stopped it will presently begin to saw its way into the most vital part of the body, the lungs. There would be very little consumption if every family would keep Dr. Pierce's Golden Medical Discovery in the house, and use it whenever feeling "out of sorts." It keeps the entire body in such a high condition of health and forcefulness that wasting diseases have no chance to get a foot-hold. A teaspoonful or two before meals, in a little water, gives the digestive organism power to assimilate the blood-making, nerve-toning, strength-building properties of the food.

It enables the liver and excretory system to clear the circulation of bilious poisons and remove all waste matter from the body. It replaces worn out tissue with hard muscular flesh, and changes weakness and debility into active power and nerve force. The originator of this great "Discovery," R. V. Pierce, M. D., is chief consulting physician to the great Invalids' Hotel and Surgical Institute of Buffalo, N. Y., at the head of a staff of nearly a score of eminent associate physicians and surgeons. He has acquired, in his over thirty years of active practice, a reputation second to no living physician in the treatment of obstinate, chronic diseases. His prescriptions must not be confounded with the numerous "boom" remedies, "extracts," "compounds," and "sarsaparillas," which a profit-seeking druggist is often ready to urge as a substitute. Dr. Pierce's medicines are the product of wide experience and deep study. Any one may consult him by mail free of charge.

EDITORIAL.

"The currents of destiny flow through the hearts of the people."—President McKinley.

The bids for the government contract for improving Yaquina bar were opened Tuesday as per advertisement. The lowest bid was made by a Chicago firm at \$511,945.

The public schools of Toledo are doing excellent work this year and pupils are still coming in from the neighboring farms. There are now 101 in attendance and nothing but praise is heard from the scholars. Our little town has for years boasted the banner schools in the county and we see no reason for laying the palm down now.

A dispatch in the Oregonian says the Navara struck a rock on the bar and sprung a leak which caused her to return, unload and repair before putting to sea. It is misleading from the fact that the Navara never struck a rock on the bar if she was in the channel. That she struck is due to her being out of her place—out of the channel. We never kick about the truth concerning Yaquina bar, but enter a protest at a lie.

It is only natural that people in Oregon represented by Hon. Thos. Tongue should feel very grateful to him for the labor done in securing, during the late war, the letting of the contract for Yaquina bar improvements. That they do appreciate this labor can be seen by facial expressions when he appears and by kindest words in conversation. While we greatly disliked his election, in that it robbed us of Binger Herrmann, our friend, it is only justice to Mr. Tongue to say he has done remarkably well during his first term of office.

Some time ago Attorney Pipes filed a bill against the county for \$750 for services in the Land-Jones cases. Our board of county commissioners told him he had over-estimated the value of his services, and the court said further that when the board received his receipt in full, he should receive \$250; otherwise he must sue. A few days since the receipt arrived, the warrant drawn and the matter settled. During the first work on the case Mr. Pipes was paid \$200, and, with the last payment, received \$450 for his services. It was amply sufficient.

It will be noticed the Oregonian says "the firm to whom the contract is let will not be likely to undertake anything beyond preparatory work until another appropriation is made." As we understand the matter, the provisions of the contract made it obligatory on the part of the contractor to begin the work before a specified time, that he was to spend \$15,000 per month during each month from May to November, each year and during the rest of the year could drop to \$9,000 per month. Whether that is the amount spent on what the Oregonian terms preparatory work, or not, it is enough to satisfy people that the good work will be accomplished as soon as possible.

Bids for the proposed improvement of the entrance to Yaquina bay by extending the present north

jetty 2100 feet and the south jetty 2000 feet, removing rock from the channel and placing more rock on the present jetties, were opened yesterday by Major W. L. Fisk, corps United States engineers. Eight bids were presented, a representative of each bidder being present when the bids were opened. Following is a list of the bidders and the total amount of each bid:

Christie, Lowe & Heyworth, of Chicago.....\$511,945
Wakefield & Jacobson, Portland..... 606,796
John Kiernan, Portland... 614,610
Daniel Kern, Portland... 629,246
Albany Contract Company, Albany..... 672,791
W. L. Prather, jr., Oakland, California..... 674,688
Campbell & Buckman, San Francisco..... 686,990
Columbia Bridge Co, Portland..... 847,569

The estimated cost of the work was \$1,025,000, but congress ordered that the contract should not exceed \$1,000,000 and the \$25,000 then appropriated. This \$25,000, minus the amount expended in taking care of the plant, etc., is all that is now available for the work, so the firm to whom the contract is awarded will not be likely to undertake anything beyond preparatory work until another appropriation is made. The specifications require that the government shall not be obligated to pay any more than \$400,000 on contracts in any one year. The bids will be forwarded to the department at Washington, with Major Fisk's recommendation, and as the Chicago firm is so much below every other bidder it is a foregone conclusion that the contract will be let to it. A bond of \$200,000 will be required of the successful bidder for the faithful performance of the contract.—Oregonian, Oct. 26.

A Needed Modification.

For some time past the Indians on Siletz reservation have been asking for a modification of some of the conditions of the allotment treaty with United States, made in 1895.

They desire that when one of their number dies his land may be placed on the market and sold, his heirs to receive the money and use it in improving their homes. Since the allotment was made 150 of their number have died leaving 12,000 acres of the best land on the reservation to heirs who have no use for it at all. At this rate in a few years a very small number will own the entire reserve, eighty acres of which is all one of them can cultivate. They ask that the balance of about \$100,000 be paid to them at once, that they may receive the benefit of its use while life allows its enjoyment. Many are old and wish to use this money to purchase needed comforts. They do not like to live as they now do and at death have their share of this money go to others. They also wish to be allowed to lease their lands for as long a period as ten years so the renter can fence and clear them and have time during the life of the lease to obtain a reward for his labor. This a three-year lease will not permit. They also desire to be made full citizens, to pay taxes and receive the protection of our civil courts just the same as others do.

Believing their requests to be only just, some of our representative men have desired Representative Tongue to visit them and personally listen to their requests, so Monday Mr. Tongue visited them at the Agency for that purpose. Many of the young men were absent, being at Kernville fishing for the cannery, yet some 100 were present. They met in the school building and made known their desires. Very able speeches were

made by U. S. Grant, Ned Evans, John Williams, Charley Depece and Geo. Harney, all save one addressing the audience in English in a very creditable manner. To these speeches Mr. Tongue listened with much surprise, not being aware of their ability in this direction.

After asking them numerous questions Mr. Tongue told them he could make them no definite promise only that he would endeavor to place their wishes before congress and try to obtain their desired modifications.

Mr. Tongue was accompanied by Agent Buford, R. A. Bensell, B. E. Jones and our reporter. While at the Agency these gentlemen enjoyed the open hospitality of the agent, who entertained royally during their stay. During the afternoon all returned to Toledo, where Tuesday morning Mr. Tongue took the train for home, much pleased with his visit.

Convenient Cutting Table.

A plain wooden table, one yard wide and one and a quarter yards long, may be painted a pretty shade of green, and pockets of green and white denim may be fastened to each end and across the front. At each end fasten a piece of denim three-quarters of a yard in length, one-half yard of this to be folded up and bound so as to form a pocket. One of these will prove to be a very convenient receptacle for scraps which would otherwise fall to the floor and make a litter, while the pocket at the other end may be used to keep shirt and waist patterns in. Across the front have a similar pocket, and in this may be kept the tape measures, scissors, yard-sticks, chalk, and any other necessary implements.—Demorest Magazine.

Teachers' Examination.

Notice is hereby given that for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof will hold a public examination at the county court house, Toledo, Oregon, beginning at one o'clock p. m., Wednesday, Nov. 9, 1898.

Applicants not present at the opening will not be permitted to take the examination.

Dated this 27th day of October, A. D. 1898.

How to Prevent Croup.

We have to children who are subject to attack of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined.—J. M. NICKLE, of Nickle Bros., merchants, Nickleville, Pa. For sale by O. O. Krogstad, druggist.
