EDITORIAL AND COMMENT.

It is now time to find that new leaf to turn over for 1899.

As a nation this Christmastide we can well say "Peace on earth; good will to men."

Saturday congress passed the Indian appropriation bill "substantially as reported." It is understood by our people that it included the \$100,000 for Siletz lands, the history of which we publish in another column.

The Nicaragua canal bill is being discussed by congress these days and will undoubtedly be passed this winter in some form. Work will begin upon it as soon as possible and in four or five years the canal will be in daily use. How great a benefit it will prove to this country and this coast cannot even be conceived at present.

There is a move on foot in this plac to purchase the S. A. Logan property on the hill just across the canyon from the Episcopal church containing just an acre, and present it to the county for court house purposes. It is a beautiful site and a neat court house would greatly improve its present appearance. The matter is to be laid before the county commissioners at their meeting.

The most unbiased writers of ability in United States, among whom is Albert Shaw, editor of the Review of Reviews, declare that the free silver question is a lost cause. Mr. Shaw says: "We are more likely in this country to turn the republic into a monarchy inside the next half dozen years than to change the gold standard for the monetary system advocated in the Chicago platform of 1896. This is merely an observation touching things as they are, and without the slightest reference to what one might prefer. For the present and for some years to come the cause of free silver in the United States is thoroughly and hopelessly defeated. Surely there can be no transcendent virtue in stubbornly denying a fact that is as patent as the rising of the sun." In opposition to this, W. J. Bryan strongly asserts that free coinage at the 16-to-1 ratio will be the issue in 1900.

Monday night a carload of salmon eggs, two million in number, passed through for Yaquina, where they were transferred to the Roberts and taken to the Siuslaw hatchery. The eggs were in shallow trays and were half as long as your little finger. Frank C. Middleton was in charge and secured the eggs from the Sacramento river in California. Yaquina river is in need of such a hatchery and will have to secure such aid if the fishing industry is to succeed in the future.

With \$500,000 spent on our harbor improvements during the next four years by the government, with \$100,000 received by the Siletz Indians and put in circulation, in addition to the other resources of Lincoln county, our people ought to thrive and place themselves in such positions that they will be in comfortable circumstances after the work of the government here has ceased. This county is slow of development and requires much labor and expense to improve, but through this period of assured prosperity it can be pushed with a fair profit and leave all our people well situated when the government work is done. No portion of this state will receive so much public assistance during the next four years as ours. Our people should appreciate this fact and wd know they will. We know they will lay aside all bickerings and embrace the opportunity with welcome to do something to improve their circumstances.

Elk City Items.

Col. F. J. Parker, editor of the Walla Walla Statesman, came in to spend a few days on his ranch on Big Elk river. The Colonel has a fine orchard on his place which is just commencing to bear. The orchard is composed of the best varieties of winter apples. He brought an expert from Walla Walla to prune and take care of the orchard. As Lincoln county apples are wormless it is safe to say the apple business will pay and special interest should be taken in the orchards of the county.

The barn on W. S. Anderson's place took fire on last Friday night and was totally destroyed. Loss is about \$100. No one seems to know how the fire occurred.

The people of Elk City are putting in a new wharf and floating dock which is an improvement very much needed at this place.

Mrs. J. M. Winskill and her daughter have just returned from the Sanitarium at Portland, where Mrs. Winskill went for treatment. She is much improved in health.

Mr. "C," who wrote up such a nice article in regard to the meteoric shower at Elk City, has not appeared in public for some time. He lives so near the top of the "Devil's Well" that his acquaintance with his Satanic majesty is so familiar that the great phenomenon made no impression upon him. He still has time to repent "While the lamp holds out to burn, the vilest sinner may return."

Everybody is in good humor hereabouts.

Rev. Bryant held services here today. There was a good attendance and we hope more will come to hear him two week from today at 2 o'clock p. m. when he will preach again.

Eddyville is to have a new school house, a much needed improvement, and we will have one that will be an ornament to our neighbors.

We notice in last issue that Kansas is trying to head off the cornstalk with axes, and am sorry to hear of so much labor being wasted. Why don't they herd in some chintz bugs or a pair of grasshoppers.

E. W. Durkee, of Chitwood, was among us yesterday employing men to help fill his wood contract to be shipped to Corvallis. We have plenty of wood and if any one has the cash to pay for it we want to see them.

The Bellamy Land Case.

The mooted case of John O. Allen against the Bellamy colony has been in course of trial in Referee Hawkins' court this week. Attorney Jones represented Mr. Allen and Attorney Denlinger represented the defendants. J. R. Wyatt assisted Mr. Jones. The evidence is very voluminous and will cover 200 type written pages. Albert Freerksen was stenographer.

More evidence was necessary and court was continued till some future day prior to the time of our circuit court.

The case has been of great interest in this locality. According to the contract Mr. Allen sold his land to the colony for \$2,800, payable \$100 per year without interest. Mr. Allen is 78 years of age and claims he never signed the contract, but that it is a case of forgery or fraud. The other parties to the contract claim it to be only an open business transaction, without fraud or anything wrong. Circuit court in January will doubtless decide the case.

Two Pointed Questions Answered.

What is the use of making a better article than your competitors if you can not get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. "Beauty and Power."
The secret of a woman's power is in her complete womanliness, both physical and mental. This does not mean perfection of outline nor regularity of features. It does not mean wit, nor talents nor accomplishments. It means that physical attractiveness that comes from perfect bodily condition and the bright, happy cheerfulness of disposition which only complete health can insure.
A woman with a bright eye, clear complexion, mantling color in the cheeks and buoyant elastic step and manner has a natural attractiveness that no artificial agency can counterfeit.
A woman who is afflicted with the mortifying misfortune of a dull, sallow, pimply complexion or that listless movement and attitude which provokes only disgust and revulsion in the opposite sex, ought to avail herself of the purifying, invigorating power of Dr. Pierce's Golden Medical Discovery, which makes a strong, healthy stomach and digestive organism; purifies the blood and imparts a natural stimulus to the excretory functions; insures healthy weight, clear skin, bright eyes and the animated manner and bearing of perfect health.
A lady living in West Virginia, Miss Ann Callow, of Kyger, Roane Co., writes: "It is with pleasure I write you after using a few bottles of Dr. Pierce's 'Favorite Prescription' and 'Golden Medical Discovery,' and I think them valuable medicines for female troubles and weaknesses. I could hardly go about my work I had such inward weakness and constant misery in the womb. It worried me so that I would give out in walking a short distance. I had a bad cough and my lungs hurt me all the time. I got very thin, my complexion was bad and my eyes would get so heavy in the evening they seemed stiff in the lids. I could hardly move them. Many persons were alarmed about me. I looked so bad and had such a cough, they were afraid I would go into consumption. I felt so badly every day that I had no life about me. I used only five bottles in all. I shall ever speak in praise of your grand medicines. They are blessings to suffering females."
Another good thing to have in the house is a vial of Dr. Pierce's Pleasant Pellets. They cure biliousness and constipation and never gripe.

Sheriff's Sale.

Notice is hereby given that by virtue and authority of an execution issued out of the Circuit Court of the state of Oregon for the county of Lincoln, bearing date of December 10th, 1898, and under the seal of said court and attested by the clerk thereof, upon a judgment and mandate from the Supreme Court of the State of Oregon rendered the 28th day of February, 1898, and filed in the circuit court of the State of Oregon for Lincoln county, on the 27th day of September, 1898, in a suit therein pending wherein U. G. Hale, The Toledo Coal Company defendants and appellants, and C. E. Croson, Coal, Van Clave, L. E. Blaine and Geo. A. The aforesaid execution was to me directed and delivered and commands me that out of the personal property, or if sufficient cannot be found then out of the real property in my county, belonging to the said respondent B. F. Jones, I being unable after diligent search to find any personal property within my county belonging to aforesaid respondent, B. F. Jones, not exempt from execution, upon which to levy and make the sums of money mentioned in said execution.

Now, therefore, on Saturday the 14th day of January, 1899, at 1 o'clock p. m. of said day at the court house door in the city of Toledo, in said Lincoln county, Oregon, I will sell at public auction the highest bidder for cash in hand, the above described real property, together with the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining as well as all the right, title and interest of the said respondent B.
