## EDITORIAL AND COMMENT.

The new bridge across the Santiam at Mill City has been completed and thrown open to travel.

The Roseburg Review published a beautiful New Year's number for the benefit of its many readers.

The fourth annual exhibition of the State Poultry Association will be held in Albany next week, beginning Monday.

On another page will be found a valuable chronological table of important events of 1898. Cut it out and preserve it for reference.

Senator Morgan's canal bill should not be passed. Let us have the Nicaragua canal and let it be a purely national improvement like any other river and harbor improvement.

There is a strong movement against seating Roberts, the polygamous senator-elect from Utah. May the movement win. The senate of the United States should be improved, not degraded.

Father Felix and Brother Ignatius, of Siletz spent the holidays with Father Jurek in this city. The former has just been on a visit to the Grand Ronde reservation, where there has been no priest since old Father Crocker returned to Belgium to spend the remainder of his days. The latter was one of the oldest missionaries of Oregon, and had spent great many years with the Grand Ronde Indians.—Corvallis Times.

This office received a communication from Waldport this week to which no signature was attached. THE LEADER desires the real names of the writers of all articles that appear in its columns and must have them. It is simply a matter of protection to ourselves as we cannot father this class of articles at all. The proper thing is to sign your name to the article you wish to have published. The we know where to find the writer, and he should be willing to take the responsibility of his own words, not throw it on the poor editor. No, we can't do it; our shoulders are too narrow by at least a foot.

The death of Sheriff Williams and Deputy Lamer should not pass with the lessons taught therein unheeded. To brother officers it teaches the lesson of being ever on the alert when dealing with suspects, no matter how trivial the crime, and never allowing them an advantage while in their presence. The sheriff and his deputies should have followed, not led, Mr. Willard. To the people it teaches that every peace officer takes his life in his hand when serving any kind of criminal papers, and for this risk, he should not be asked to serve for wages no greater than could be earned at peaceful labor. Six or eight brave sheriff's have been killed on this coast during the past year, and no one knows who the next one will be to meet death at the hands of some suspect who is not known to be a "bad man."

Russian and German statesmen both favor the Panama canal as against that of Nicaragua, but almost every permanent point of favor lies with the latter. The former 45 miles in length, the latter 180 miles. The former is all canal, the latter less than 30 miles of canal. The divide of the first is 299 feet above sea level, the latter 146 feet. Both expect to use a vast amount of water at a 100-foot level where a vast supply must be kept. The former supply largely by artificial means, the latter has a lake covering 3000 square miles for its supply. The latter is 400 miles shorter between Atlantic and Pacific United States ports. So it is easily seen these nations are prejudiced or very ignorant, attribute it to whichever cause you may.

Talk about grip and whooping cough! Well, I guess so. Monday morning old man LEADER arose before the crack of day and built the kitchen fire, as usual. He was not long in becoming aware of the fact that Mrs. LEADER was experiencing a full grown attack of the grip. Having some elegant ideas of medicine and its uses, he immediately concocted a glass of hot brandy, putting therein about two fingers of brandy. After swallowing six grains of quinine, Mrs. LEADER took the hot drink and quietly moved about preparing breakfast. The meal was no good. She never finished it and the two little LEADERS had to stay their empty maws until the pater familias could build the sitting room fire and carefully dispose of Mrs. LEADER. \* \* \* A period of seven hours is supposed to have elapsed. Mrs. LEADER calmly sits by the fire nodding, her other half reads near by with a satisfied smile on his classical features, the two little LEADERS are asleep in their snug little straw-ticks, and the grip is dead.

The question of what to do with the Philippines is one of grave moment. It is not at present a question of expansion or anti-expansion. We have, in our war for humanity, expanded unknowingly. The fact is, this nation awoke one morning to find the war ended and itself in possession of islands and people from which and whom it could not let go. Now, the question stares everybody in the face, "What shall we do with them?" The proper action now is to assist the people freed from the Spanish and Catholic yoke to understand and work out for themselves a republican form of government. About the first act will run against a snag and come up with a "round turn." But this government will be found in a position and the proper mood to gracefully back away from the snag, if immovable, and by a second tack, carry its point. With a high standard of morality and a will to assist others, this government of United States cannot fail eventually in raising the Filipinos to an equal footing with other nations. Of course, it will be not all sweet, but as we have found ourselves in a position where we cannot, in justice, let go, we can but go ahead and do our best, with success in the near future and heavy responsibility for the present.

### Comes Well Recommended.

W. B. Stevens, of the firm of Deuel & Stevens, has decided to leave Medford and locate in Albany, this state, where he has rented suitable buildings and will open a general merchandise store. The firm will remain the same as of old in Medford and will be under the sole management of the senior member of the firm F. K. Deuel. These gentlemen have made a wonderful success in their business in Medford but both being ambitious to be

prepared for that rainy day which comes to us all they are now just naturally branching out. Mr. Stevens has been a very honest, upright citizen of our city and many will regret his departure and this same regret is felt also for his family, which is a most exemplary one—and the entire household have friends innumerable in this city. Mr. Stevens will leave for the East in January where he will purchase goods for the new Albany store, and will return in time to open business about the first of March.—Medford Mail.

### In the Toils Again.

Our whilom miner, Harry L. Miller or Harry Leonard, who left a trail of petty thieveries on his trail in this county from Little Elk down the Yaquina, thence over the Siletz and out into Polk county by the Rock Creek road, was arrested at Dallas last week for petty larceny, and in default of \$100 bonds, now lies incarcerated in the Polk county jail. Winter is again with us and he doubtless longs to be again among the boarders at the pen. The first person who found himself robbed should have notified our sheriff at once and our miner would have been punished by this county instead of Polk. The reputation our county gains by such lack of action is not good and should be avoided in future. Lincoln county is not rich, neither is she poor enough to contenance crime because of the cost of punishment.

### Church Notes.

Services at the M. E. church Sunday morning and evening. Come everybody.

We preached to a fair audience Sabbath morning in Siletz, not as large as usual owing to the absence of the children, who were visiting at their homes.

Our dinner with the government employees at the school building was greatly enjoyed, especially the chicken.

We thank Miss Maggie Hampton of Rocca, for the five dollars and kind words sent us. I append some extracts from her letter: "As the soul must have a body so our soul must or membership be expressed in material things—in the better sense money is my prayer. 'Thy kingdom come' and I bid you in God's name to do His work. The money is His and not mine. It is not only less than a tithe He has given me but is all I have, and I can never repay Him for what He has done for me." Miss Maggie has learned the language of heaven, speaks it plain and it is easy for a Christian to understand her.

A letter from some friends in Wallace, Nebraska, informs us they will become residents in this locality the fore part of February.

Service at Eddyville Tuesday, 2 p. m., January 17.

Services at Chitwood, 4 p. m., January 17.

Services at Yaquina Thursday, 8 p. m., January 19.

Prof. Geo. A. Wilson of Boston, has sent us one hundred books free of all expense. A magnificent present and thoroughly appreciate the gift. Come and see them.

### Nortons Notes.

Snow, rain and sunshine is hard on stock.

There was a dance Monday night at the residence of Mrs. Tilla Hamar.

Jos. W. Bryant and family is spending the holidays at the Summit.

Miss Mary Morrison went to Corvallis Tuesday to visit friends.

Misses Anna and Emma Mulvany of Harlan, spent the holidays with friends at Nortons.

Mrs. M. L. Glass went to Corvallis Tuesday to get an acher extracted.

The wool growers in this vicinity that have been holding their wool for the promised 25 to 30 cents, McKinley prices, would now be glad to sell at less than Cleveland prices.

News reached this place Monday night that A. K. Handy was lost in the Siletz mountains last Saturday, and Monday there was a large number of men hunting for him, with little prospect for success as there has been about a foot of snow fallen since he was lost. (Corvallis papers please copy.)

We have seen two men drive from 75 to 100 head of cattle out of this county, but times are more prosperous now and we seen two men taking an old cow along with a rope, one man ahead pulling and the other behind whipping. Whether it is the money that is in it or the fun we don't know.

### VALDEZ.

When a young man asks a father for his daughter's hand in marriage, if the father is a wise one, he thinks of one thing equally as important as the young man's morals, social and business standing and intelligence. A young man who suffers from ill-health has no right to marry until his health is restored. To do so is to commit a crime against the human race. While all diseases may not be directly inherited, the constitutional tendency to acquire them is inherited. If a man is a consumptive, the chances are that his children will have weak, undersized lungs, and a predisposition to acquire the same disease. The young man who suffers from bronchitis, weak lungs, spitting of blood or any disease of the air-passages which, if neglected leads up to consumption, may take Dr. Pierce's Golden Medical Discovery with almost absolute assurance of recovery. It cures 98 per cent. of all cases when taken in time. It soothes and heals the delicate and sensitive tissues of the air-passages and lungs, checks the cough, facilitates expectoration, drives out all impurities and disease germs from the tainted blood and builds new and healthy tissues. Mr. John G. Born, of 4020 Liberty Ave., Pittsburgh, Pa., writes: "Some thirty months ago I said to my wife, 'I don't want to keep anything from you. I must tell you I am in the last stage of consumption.' In December 1896 I commenced taking Dr. Pierce's Golden Medical Discovery. I could then only speak in whispers. I have taken thirteen bottles, and can say with truth I am greatly benefited. People are surprised to hear me speak. I can halloo, and my voice has not been as good in eight years. My stomach was never in better condition. Formerly I could not eat without suffering very much immediately after, but now I can eat anything."
