LINCOLN COUNTY LEADER.

—W. L. DAVIS, EDITOR.—

FRIDAY, JANUARY 13, 1899.

The citizens of Milton, Umatilla county, are agitating the question of building a competing line railway into their town.

THE LEADER is indebted to Hon. Thos. H. Tongue for copy of special "Consular Reports" received at this office during the week.

Thos. Linnville takes the place of the recently murdered Sheriff Williams, as sheriff of Clackamas county. He is a very popular republican.

Marion county taxpayers have enjoined the payment to Geo. C. Bingham of \$180, fees for collecting the delinquent taxes of that county. It is believed that the county court exceeded its authority in hiring Mr. Bingham.

The Portland pilotage bill, the school laws revision bill, the state fair bill, normal school bills, the sugar bounty bill and the sheriff salaries bills, are the main questions to be fought over and decided at the present session. These will call for many hot debates.

Representative McCulloch of Marion, has found by investigation that the school districts of Oregon pay annual insurance premiums to the amount of \$18,000. Losses by fire are but \$2,500. Hence he will introduce a bill making it unlawful for officers to insure school buildings with school funds, but compel each district in the state to pay its proportionate amount of the loss of a burned building toward the erection of another in its place.

The Salem Statesman sounds the note of warning when it tells of the gathering at Salem of a school book lobby. If any one item needs honest sincere and judicious thought and action this term, it is the question of school books. It is the work of no "spring chicken" to successfully pilot a good bill on this subject through legislature without the effect of the "third house" being felt. May Hon. John Daly prove to be a Dewey in this battle for the school children of Oregon.

General Garcia's Respect for Valor.

Courage in any cause, even a bad one, always commanded Garcia's respect. At the fall of Victoria de las Tunas forty-five Spanish guerrillas who had fired on a flag of truce, men who in that neighborhood had committed every crime of which only those brutes in human form are capable, were mached, or put to the sword. Hearing of their fate, the son of the Spanish commander of the garrison, a boy of fifteen, began to cry, whereupon his father reprimanded him sharply in Garcia's hearing. "Stop," commanded his father. "I am ashamed of you. You wanted the privilege of fighting the insurgents; you have had it. Your rifle has poured lead into their ranks for two days; now it is your turn. Show yourself a man, a soldier of Spain."

General Garcia listened with admiration for the spirit displayed by the father and sympathy for the fears of the boy. "Tell your son not to worry," he said. "Not a hair of his head shall be harmed. Both of my boys fought by my side during the battle just finished. Your boy has simply fulfilled his duty to you and to his country. You have my respect and shall have my protection until you can join your friends in Holguin or elsewhere." They, with fifteen hundred other prisoners, were given escort to the Spanish lines and there liberated.—Review of Reviews.

La Grigge Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" For sale by O. O. Krogstad, druggist.

Here Too, Pete!

In view of the difficulty which has arisen in this county over the matter of selecting the names of 200 men to serve as jurors for the coming year, would it not be well for the legislature to change the law governing this work, so that it may be taken out of the hands of the county court entirely and placed nearer the common people, where the peculiar fitness of individuals for jury service is better known and understood?

Some of the Eastern states follow a method which I believe works well, and would give better satisfaction in Oregon. The selection of names to serve as jurors is left to the judges of election in the several precincts at each general election. When the county clerks send out the poll books, he notifies the judges of election of the number of jurymen allotted to each precinct (proportioned according to the number of votes cast at the preceding election), and after the votes of the precinct are counted and the returns are made up, the judges then select from the list of voters the required number, and enter their names in the blank book provided in the poll book. These names are copied on slips of paper, in a similar manner to that pursued in Oregon, and the jury panel is drawn by three of the responsible county officers, the clerk making a record of them, the county judge holding the box and the sheriff drawing the names out without seeing them.

Oregon, not holding annual elections, might resuscitate a meeting of the judges of election at a stated time in the odd numbered years to make up a new list, but that could be provided for.

These judges of election, residing in the precinct, are acquainted with every man in it, with their peculiarities and their qualifications, and are most competent to select the best material in the respective neighborhoods. The selection would also be free from county seat manipulation, and from political influences.—F. D. in Statesman.

How to Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and la grippe. Every bottle warranted. For sale by O. O. Krogstad, druggist.

A Shattered Nervous System

FINALLY HEART TROUBLE Restored to Health by Dr. Miles' Nerve

MR. EDWARD HARDY, the jolly manager of Sheppard Co's. great store at Braceville, Ill., writes: "I had never been sick a day in my life until in 1890, got so bad with nervous prostration that had to give up and commence to doctor. I tried our local physicians and one in Joliet but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nerveine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.
