For first-class, honest dental work, see Dr. Tatom at Hotel the 20 and a few days following.

Benj. Hahn is spending the day in town.

John Nye, who has lived 26 years on his farm between this place and Newport, is in town today. He is enroute to Los Angeles county, California, where he will remain about a year for the benefit of his health. THE LEADER will visit him during that time and keep him alive to development of this section.

A LeRoy, one of the high officers of the Odd Fellows lodge of Oregon, lectured here last night. His coming was unheralded and but few turned out. This sort of work gives our town a very black eye and the local members of this order are largely to blame. A little music and a good crowd would have sent Mr. LeRoy away from here with a very different feeling toward our people than the one now existing.

## Toledo Public School.

The seventh and eighth grade pupils have the privilege of a republic, that is, Prof. Holm told us if we were willing to carry it out he would give us the privilege of running our own school, but if we preferred a monarchy we could just say so and it should hereafter be ruled as such. We preferred a republic as we do not consider ourselves to be as the Russians, so ignorant that we must be ruled by a czar. Prof. Holm being chief executive officer we proceeded to elect our officers, and we of course have a constitution prepared by a committee of one, but we adopted it by sections so that all had a say in making the laws. The constitution is signed by all, requiring but two-thirds of members present. There is also a committee on morning entertainment, and every morning something interesting will be rendered.

Our sick pupils have all returned but Loma Ewing, who is getting better.

The primary grades participated in the entertainment held at the M. E. church, and it was enjoyed by them fully as much as by others.

Rev. E. Edwards, pastor of the English Baptist Church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by Otto O. Krogstad, druggist.

## New Industry.

B. F. Jones who has just returned from a trip down the coast where he has been examining the beach mines, says Wm. Stitt is in receipt of a letter from Capt. J. R. Mullett, of New York, in which the captain says he will arrive at Seal Rocks in the near future and will employ men and boats and capture alive fifty head of sea lions, which he will ship to Europe via New York. Capt. Mullett says he has been engaged in this business for the past twenty years, and has heretofore done his hunting at Santa Barbara, California, but sea lions are scarce at that place and he is in search of new grounds.

Mr. Jones says Seal Rock, which is about half mile off shore, had at least a thousand head upon it Wednesday and it was great sport to see them tumbling over one another and basking in the sun shine. He says there is one great, big fellow who seems to be boss and who always sets on the very top pinnacle of the rock and seems to roar louder and have more to say than all the rest. Billy Stitt has noted this fellow's appearance for many years and calls him Mark Hannah.

As some of the male lions weigh over 2,000 pounds it will be quite interesting to see them caught and crated, and I have no doubt but what there will be many spectators at Seal Rocks to witness the capture of these fine animals of the deep.

A little boy over in Weston was required to write an essay the other day on the subject of "Newspapers" and here is the result: "I don't know how newspapers came into the world, and don't think God does, for he hasn't got nothing to say about them, and 'editor' is not in the bible. I think the editor is one of the missing links you hear about, and stayed in the brush until after the flood, then came out and wrote the thing up, and has been here ever since. I don't think he ever dies; I never saw a dead 'un and never heard of one getting licked. Our paper is a mighty poor 'un; the editor goes 'thout underclothes all winter, don't wear no socks and pa hasn't paid his subscription in five yeary."

Moralists may prate, and doctors prose, and science shout from the housetop, but just so long as the birds sing and the flowers bloom, and a maiden's lips are cherry-red, and a young man's eyes look love, just so long the lads and lassies will kiss—and kiss again.

And where, good men, is the harm if the kissers and kissed be healthy, and true love stands sponsor. It is only when ill-health has blasted the sweet cleanliness of youth that death lurks upon its lips. The deadly germs of dread consumption are as harmless as June-time butterflies to the young man or woman who is thoroughly clean, sweet and healthy in every fiber and tissue. The germs of disease only attack that which is already partly decayed.

There is a great medicine that is a sure and certain protection against all germs and a speedy cure for all germ diseases. It is Dr. Pierce's Golden Medical Discovery. It gives youthful zest to the appetite. It corrects all faults of the digestion. It aids assimilation. It fills the blood with the vital, life-giving elements of the food. It builds sweet, clean, healthy tissues in every part of the body. It drives out all disease germs. It cures 98 per cent. of all cases of bronchial, throat and lung affections if taken in time. All good medicine dealers sell it, and have nothing "just as good."

Mr. Jos. Henderson Dirblun, of 544 Josephine Street, New Orleans, La., writes: "I was ailing for some two years, suffering from dyspepsia, a tired feeling, and loss of energy and appetite. I tried one bottle of Dr. Pierce's Golden Medical Discovery and found great relief. I took two more bottles, three in all, and one or two vials of the 'Pellets,' when I was in good health again. I recommend Dr. Pierce's Golden Medical Discovery to do all that it is claimed to do."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. All medicine dealers sell them. No other pills are "just as good."
