To say the parents are happy, is but a poor expression of the fact. Mother and child are doing well and the father wears an unusually bland smile of contentment.
Our boys are making the tropical climate of Luzon too tropical for Aguinaldo. He and his followers, who are leaving his command in squads have been driven from place to place until now they are about to leave Luzon for Southern islands. THE LEADER believes the worst is over.
B. F. Sanborn, one of THE LEADER's regular readers living near Seal Rocks, paid us a visit Wednesday and renewed for another year. This gentlemen only visits the county capital about once a year, but stays close to his home and work. The county needs more citizens with this failing.
For Sale.
I own and wish to sell the "Old Cannon Ranch" 2 miles up bay from Toledo. Make me an offer. What have you in Minnesota or Dakota to trade for it.
m3-4t J. H. GRIFFIN,

Two of the boys sent from Siletz to Chemawa and who had run away, were taken above the agency by Marshal Brewer early this week and returned to school. They were found in the woods with grub and a Winchester and they had thrown up fortifications that they might repulse any attack. Sam'l Center brought the marshal and the boys over Wednesday.
Millinery Opening.
Mrs. T. P. Fish has just returned from a ten day's visit to Portland where she has been catching the new ideas of the metropolis that she might the better know how to please her customers. Feeding the Fire.

The most powerful engine must stop if the fires are not fed. Man is the most wonderful piece of machinery in the world, yet no matter how strong and well-made his bodily frame may be, if the fire of life within him is not constantly fed his limbs and muscles become powerless and useless. The reason men become helpless and diseased is because the food they eat, which is the fuel of life, is not properly digested and appropriated by the stomach and nutritive organs. It is not completely transformed into the strength and working power which is to man what steam is to the engine. That wonderful power-making "Golden Medical Discovery," invented by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., imbues the human digestive juices and blood-making glands with capacity to extract abundant nourishment from the food. It builds up organic tissue, nerve fiber, hard muscular flesh and working force. It gives a man steam. What it did for Mr. F. S. Hughes, of Junction, Hunterdon Co., N. J., is given in his own words. He writes: "I received your kind letter, and in reply would say that mine was a bad case of kidney and liver trouble, and that six bottles of Dr. Pierce's Golden Medical Discovery and four bottles of little 'Pelllets' effected a complete cure. It is well known that almost every engineer is troubled more or less with kidney trouble, especially on our fast express trains. I run one hundred and forty-four miles on these trains every day in the week, and have had no return of the trouble since taking the remedies, nearly three years ago."

FOR SALE.—I have now on hand plenty of good baled hay for sale. Those in need will know where to buy.
