EDITORIAL AND COMMENT.

There are 5000 avocations now open to women. One of them is marriage—the other 4999 are minor importance.

Come think of it, did you ever know a President who made more satisfactory appointments than President McKinley?

President McKinley has given Ex-Gov. Lord the appointment of Minister to Persia. A western man is a pleasant surprise to the west and Wm. P. Lord will fill the appoint, should he accept, with ability.

by that time we will expect all who are interested in our work to come and see us. Eight large pictures of prominent men with bunting draped over and between them decorate the walls, and new scrim curtains hang at the windows. The average attendance for last week in the seventh and eighth grades was 29, per cent present 92, per cent not tardy 94. There are now forty pupils in the primary department, one of the new ones being Stella Gannon.

The school is about back to its normal condition again, and the whoop is not heard as often as in the past.

The buzz of the saw can be heard every day sawing out lumber for the different buildings to be constructed at the agency the next two months.

Agent Buford, has under construction and nearing completion one of the best jails in the county of Lincoln, at a cost of over \$3000. As a jail architect he has few if any equals.

Robert DePoe at his request was transferred to Chemawa school at Salem. Robert is a very efficient teacher. As his transfer is in the line of promotion we say well and good. Warren H. Brown, from the Chilocco school, Oklahoma,

Dr. Townsend and his family passed through this place Thursday morning enroute from Newport to Roseburg, his new home. Miss Graham, his wife's sister, who has been making her home with the family during the past winter, accompanied them. Newport people will greatly regret their departure, as the Dr. found a warm spot in every heart with which he came in contact in church or on the street as he will do wherever his lot is cast. Roseburg is fortunate in having secured Dr. Townsend and his family as citizens.

ENGINEERS HERE.

An Earlier Visit Than Anticipated.

Delegates From All Valley Towns Present.

The Board of engineers appointed by President McKinley to investigate and report upon the feasibility of further improvements at Yaquina bar are at Newport today. A special, bearing delegates from all important Valley points, passed through at 11 o'clock. Their purpose is to show to the board the great importance to all of Oregon of these improvements. Our people believe that the board, after a personal knowledge of the situation and its importance cannot well report otherwise than favorably upon the present project. When the facts are before the board and only a just presentation of benefits sure to follow the completion of this work our people are satisfied the result will be right.

Words of highest praise have been spoken of these engineers and their abilities by all who know them and THE LEADER firmly believes their report will be a favorable one—that they will see things simply as they are and do Yaquina bar justice. Being satisfied that their report will be favorable. THE LEADER, in behalf of its readers, extends to them its sincere thanks. A full report of proceedings next week.

If the harbor is improved as desired, a line of steamers will be put on between this city and Yaquina.
