Jack Porter and Bid Boyle of Newport were in town Tuesday looking for stray cattle. They were found not far from here.

Dr. Parrish of Monmouth visited Mrs. T. W. Davis at Newport Wednesday. He says she is improving as rapidly as possible.

Doctor Ford arrived last night from Eugene and will hold services at the church this evening. No services were held last evening as announced Sunday.

Brother and Sister Soule, of the Tug, came up this morning to visit among friends and enjoy the meeting over which Doctor Ford presides this afternoon.

Mrs. Lester Waugh drove in from Cape Foulweather Wednesday to bring home her sister Sophia, who is living with the family of Judge Stewart and attending school.

Miss Ollie Logan returned from Monmouth college Wednesday evening, having attended school there during the fall and winter. Her Newport friends will welcome her among them again.

Prof. Dillion has been entertaining our citizens this week by lectures on the mind and hypnotism, and they have been paying him for it. A goodly number have given him attention regularly. The study of the mind is of much more importance to common humanity than

is realized by men. Such knowledge should be more generally spread among the people for their own good. It would change the condition of people for the better greatly if universally thoroughly understood.

Reports say the popular C. O. B. Club of Newport was given a neat and pleasantly received banquet on May Day by C. M. Winant, who never forgets something to eat when a good time is expected.

Social Dance.

Wednesday, May 17, at Jone's Hall a Social Ball will be given by the Rosebrook's Orchestra. Tickets, 50 cents. Remember the date and if you want to dance, take this opportunity.

Siletz Wa Wa.

Messrs. Peter McKie and James Pierce, two intelligent Indians from the GrandRonde reservation have been visiting friends at Siletz the last week.

There has been uncovered upon the allotment of U. S. Grant as fine a quarry of sandstone as there is in the state of Oregon. It is a beautiful grey and hardens after being exposed to the air a few days.

Rosa, the daughter of Wm. Umata, died April 28, after an illness of about two weeks. The cause of her demise was the whooping cough. Rosa will be greatly missed by her schoolmates.

James Ross, the efficient sheriff of Lincoln county, paid Siletz a visit this week. Everyone is ever pleased to have James call even in an official capacity; something that cannot be said of every sheriff.

Sup't Bert R. Betz and wife will attend the propaganda of teachers that convenes at Los Angeles, Cal., during July.

Dr. Turner reports less sickness; but says if the present weather persists in staying, a boat would be more applicable to visit patients with than a horse.

TOLEDO PUBLIC SCHOOL.

Monday was a day enjoyed by the whole school.

The seventh and eighth grades rendered a short program in the morning, at the close of which Mr. Jones delivered a very interesting speech, and remarks were offered by the county superintendent and school board. The pupils appreciated all and thank them, hoping they will return.

Entertainment was given in the afternoon by the primary and intermediate departments, the latter being enjoyed by the higher grades as well as a large number of visitors who were present for the entire programs.

The boys have a new foot ball with which they have a great deal of sport as well as exercise; while the girls find great pleasure in jumping rope.

Matilda Rache returned to school last Tuesday after a long absence.

Two of the fifth grade pupils left school last week.

BORN.—To the wife of Rosco Peebles, Sunday April 30, a son. Weight 10 pounds. Mother and child doing well. Rosco wears a smile from ear to ear.

Ben King has had a tussel with the grippe, for a while Ben didn't know which was the best man, but we are glad to report his recovery.

Uncle Barney and Grandma Morrison are both on the sick list, Grandma having run a full grown well developed nail nearly through her foot, and Uncle Barney has a bad spell of grippe.

Mrs. Mabel McDonald has been laid up with the grippe for several days but is slowly recovering.

Jas. McDonald is grading a new wagon road near his place it will be a grand improvement when completed.

I notice an article in THE LEADER of April 14, headed "The Protection of Game," and signed A. L. Chitwood. Now Mr. C. seems to think that by running deer with dogs they will all be exterminated, 'tis true, but can he himself or what few others may join in with him stop people from hunting? The majority will all join in the loud chorus No! For the small majority opposed to running dogs to buck against the whole of Lincoln county is only throwing their time away and is worse than idleness. I am no hunter myself neither do I keep a dog but I would say, exterminate the deer as soon as possible, why? as long as deer remain in our country the varments which destroy our sheep, goats, and other small stock can never be exterminated as long as a deer remain and it is a known fact that there are but very few dogs but what will leave a varment track and run a deer. If all people were alike, or of one mind (which they are not) then running dogs could be stoped, but as long as there is a deer in these mountains we will hear the bark of the hound as he comes singing over the wooded hills, and mighty sweet music it is. But I for one could enjoy running a cougar, bear, wild-cat or any small varments in preference to deer and I would say every one who hasn't a good deer dog get one, exterminate the deer first then the varments and we would soon have numerous flocks of stock around us and all would be prosperous.

LONE STAR.

A New Obstacle.

The old obstacles that used to prevent the marriage of loving couples are out of date. The blood-and-thunder villain is a myth nowadays. The cruel father is only a tradition. Distance, absence and shipwreck in these days of cheap, safe and swift transportation do not count. The new obstacle is a common sense one. It is ill-health on one side or the other, and sometimes on both.

Men nowadays hesitate to marry a woman, no matter how beautiful, no matter how attractive, or interesting, or witty, if she is a sufferer from ill-health. All men worth having desire happy, healthy children. Any woman who will, may fit herself for the duties of wifehood and the exalted function of motherhood. Dr. Pierce's Favorite Prescription banishes all hindrance in the nature of local ill-health. It gives health, power and capacity to the delicate and important organs concerned in wifehood and maternity. It corrects all displacements, allays inflammation, heals ulceration, stops exhausting drains and soothes pain. It prepares for natural, healthy motherhood. It makes maternity easy and safe and almost painless. It insures a new-comer constitutionally strong and able to withstand the usual ills of babyhood. It is the greatest of nerve tonics and restoratives. Medicine dealers sell it and an honest dealer will not urge a substitute upon you.

"After suffering untold tortures," writes Mrs. J. Ferguson, of Box 29, Douglas Station, Selkirk Co., Manitoba, "I thank God I found relief and cure in Dr. Pierce's Favorite Prescription."

The profit side of life is health. The balance is written in the rich, red, pure blood of health. Dr. Pierce's Pleasant Pellets cure constipation and make the blood rich and pure. They never gripe. By druggists.

A Pleasure and a Duty.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. LYNCH, Dorr, W. Va. This remedy is sold by O. O. Krogstad Druggist.
