Oregon Teachers.

SALEM, ORE., May 20, 1899.

TO OREGON TEACHERS:

The National Educational Association will convene at Los Angeles July 11 to 14, 1899. As it will be some time before we can hope to secure this great convention again on the coast, this meeting affords us an excellent opportunity to come in touch with the men and women who are molding and shaping to a great extent, the educational sentiment and practices of the country.

One who has never attended one of the sessions of this association can scarcely realize the enthusiasm and inspiration for the teaching profession that may be secured by coming in contact with the personality of the eminent educators of whom this body is composed. It is an opportunity we ought not to miss; if we can possibly afford it.

It is sincerely hoped that many of you can your way clear to attend, and show, by your presence, that Oregon teachers are not behind the times.

Hotel rates are from 75 cents to \$6 per day. This gives one an idea of what it will cost to live after reaching the city. All the hotels give special rates by the week or month. The earliest applicants will, of course, secure the most satisfactory accommodations.

The Southern Pacific offers a \$35 round trip rate, Portland to Los Angeles and return, exclusive of sleeping car privileges, and conditional upon a party of two or more being secured from this section, has been decided upon and tickets will be placed on sale from July 5th to 9th inclusive, with final limit of return August 15th. Tickets good only for continuous trip going, and with stop-over privileges returning within the time limit. The same rate is made to those who wish to go by ocean steamer. It would be well to notify the manager as soon as you decide to go, stating route, etc.

State manager.

Insomnia is a self inflicted curse through the violation of nature's laws. The cause may be over-anxiety, planning for the morrow, thinking and worrying over the yesterdays and to-days, but no opiate can remove the cause, even though it may bring sleep. If the cause is merely mental overwork it may be quickly removed by relieving the brain of the excess of blood. Physical exercise is a panacea for about every ailment which human flesh is heir to. Therefore, stand erect, and rise slowly from the heels; descend slowly. Do this from forty to fifty times until you feel the congestion in the muscles of the leg. Almost instant relief follows, and sleep is soon induced. For those who are averse to a little work I would recommend, instead, a bowl of very hot milk (with out so much as a wafer) immediately before retiring. The hotter the milk the better for the purpose. This will prove a better sleep-producer than all the opiates known to medical science. It brings about an increased activity of the blood vessels of the stomach, causing slight temporary congestion, which relieves the blood vessels of the brain. The hot milk is also quite strengthening to the stomach.—Ladies Home Journal.

A little hilarious good time in Albany Tuesday morning early ended in the shooting of one Chas. Farrell through the head by Henry Williams, the saloonist. This sort of good times end this way not infrequently. Doctors say the wound may not be fatal.

Would Not Suffer So Again for Fifty Times Its Price

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liveryman, Burgettstown, Washington Co Pa. This remedy is for sale by O. O. Krogstad, Druggist.

Eggs for Market.

Eggs are frequently found in the market that are very unpalatable, due to their having been packed and held for higher prices. This unfortunate condition is largely attributable to the fact that most of the eggs have been sterilized, and frequently an embryonic development is started before the eggs are collected; then for lack of proper temperature the embryo dies, and putrefaction takes place through the vital activity of micro organisms, polluting the whole egg in time. Many methods of packing eggs would be much more successful if there were a certainty of the eggs being unfertilized. Sometimes it also occurs that bacteria enter the egg from the hen long before it is laid so that although a preservative method is employed to exclude the air from the shell it does not follow that the egg will keep; because the exclusion of air will not prevent the multiplication of the Anaerobic bacilli.

On the other hand, if dry packing is used, unless it is antiseptic, there is certainly danger of germs entering the egg through the pores of the shell.—Oregon Experiment Station Findings.

A frog, a duck, a lamb and a polecat started for the circus. When they arrived all were able to pay their admission fee except the poor polecat—he was thus compelled to crawl under the canvas. This is how it was: The frog had a green back, the duck had a bill, and the lamb had four quarters, but the poor polecat had only a scent—and that was bad.

Our stock of spring clothing has just arrived. A big stock of pants ranging in price from \$1. to \$5.

The bud is more easily blighted than the full-blown rose. A young girl is more susceptible to weakness and disease that will wreck her in a womanly way than she is after she has attained to healthy womanhood. Thousands of women have their lives wrecked by troubles of this delicate description because of their own ignorance and the prudery of their mothers.

Whenever the wandering demon of ill-health finds a ship adrift upon the sea of ignorance, he steps on board, takes the helm, and steers straight for the maelstrom of death. The young woman who has not been taught the necessity of taking care of her health in a womanly way is a ship adrift upon the sea of ignorance. Diseases that will wreck her future happiness will soon assume command. Young women who suffer from weakness and disease peculiar to their sex live under a terrible nervous tension, and if they escape death are always threatened with insanity. The whole nervous system is affected by the constant drag and drain upon the delicate and feminine organs. Dr. Pierce's Favorite Prescription is the one perfect and unfailing specific for every derangement and disorder of this description. It fits a woman for wifehood and motherhood. It is the best of all known nerve tonics. It is the discovery of one of the most eminent and skillful specialists in disease of women.

"I was troubled three years with female weakness," writes Miss Ellen Otey, of Bedford City, Bedford Co., Va. "I had two physicians, but neither did me any good. I was troubled with pains in my left side all the time. When it was time for my monthly periods I thought I would die with pains in my back and stomach. I also had chills. I could not get up without fainting. Finally I took three bottles of Dr. Pierce's Favorite Prescription and two of his 'Golden Medical Discovery.' I do not have any pains at all and am in better health now than I ever was in my life."

How to preserve health and beauty are told in Dr. Pierce's Medical Adviser. It is free. For a paper-covered copy send 21 one-cent stamps, to cover mailing only; cloth binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.
