THE LEADER.

—R. E. COLLINS, EDITOR.—

FRIDAY, AUGUST 18, 1899.

On Saturday two automobiles beat the Paris-St. Mole express train in a race between those cities, a distance of 226 miles, making the best time ever recorded for an automobile, covering the distance in 7 hours and 4 minutes.

About 12 miles from Detroit, up in the Cascade mountains are located the Breitenbush hot springs. There are thirty or forty of them of all temperatures, from icy cold to 200 degrees above zero, boiling heat, scattered among each other. The grounds are splendidly located for camping, and the time is bound to come when this will be the finest summer resort in the Cascade mountains.

Frank B. Glenn, while hunting in the hill near Willow creek, about two miles from Vale, last Sunday, found a cannon ball in a ravine which weighs 12 pounds. The supposition is that it was fired from Uncle Sam's crude cannon then in use when General Cook was waging war against the Nez Perces Indians in 1863-1865. This makes the third cannon ball found in that vicinity.

The Daily Paladium of Benton Harbor, Mich., says of the Oregon trip: In our experience in hospitality, we never saw the equal of Oregon. The clasps of our pocket books are getting so rusty we fear we will not be able to open them when we get back to "the East." Roses are magnificent here. They grow to a diameter of seven inches and are most perfect in shape and of exquisite hues.

The wolf of starvation howls at the doors of thousands of men who are well to do and surrounded by plenty. Ill-health, in the majority of cases, is starvation, pure and simple. It means that body, brain, nerve, bone and sinew are improperly or insufficiently nourished. Improper, insufficient nourishment is starvation.

When a man's head aches it is because the tissues of the brain do not receive sufficient nourishment from the blood, or receive impure and unhealthy nourishment. When a man gets nervous and sleepless, it means that the blood is not properly nourishing the nerves. When his skin breaks out with blotches and pimples and eruptions, it means that the skin is being fed upon the impurities of the blood. Almost every known disease is primarily due to improper nourishment through the blood, which is the life-stream. Dr. Pierce's Golden Medical Discovery is the greatest of all blood-makers and purifiers. It gives edge to the appetite, corrects all disorders of the digestion, makes the assimilation of the life-giving elements of the food perfect, invigorates the liver, promotes secretion and excretion, and vitalizes the whole body. It makes firm, muscular flesh, but does not make corpulent people more corpulent. It cures 98 per cent. of all cases of lingering coughs, bronchial throat and kindred affections, which, if neglected, lead up to consumption. It is the best of all nerve tonics and restoratives. Kept by all medicine dealers.

"I was taken ill in February, 1892, with headache and pain in my back," writes H. Gaddis Esq., of 313 South J Street, Tacoma, Wash. "I called in a doctor and he came three times. He said I was bilious but I kept getting worse. I took a cough so that I could not sleep, only by being propped up in bed. My lungs hurt me, and I got so poor that I was just skin and bone. I thought I was going to die. I used two bottles of Dr. Pierce's Golden Medical Discovery and it made me sound and well. It saved my life."

No remedy relieves constipation so quickly and effectively as Dr. Pierce's Pleasant Pellets. They never gripe.

Summer capes, new, next week at Mrs. Fish's.

The Oregon State Fair at Salem will commence September 15, closing on the 22nd. At the last session of the legislature the Oregon State Board of Agriculture was changed and the board reduced to five members, appointed by the governor. We are informed that all the old debts have been paid so that the board is starting out with a clean record, and with the determination of making the fair of 1899 a success, both financially and otherwise. The board for the past few years has manipulated things so that they very nigh put a quietus on the whole business, but the present board are men that will do the right thing and great efforts are being put forth to make the coming meeting one of the best ever held in the state. To do this they must have the co-operation of the people of the state, and if they can get this they will have a good meeting.
