

KNOWS ALL THAT'S GOING ON.

President Kruger of the Transvaal Has a Perfect Spy System.

No one ever denied that Oom Paul, president of the South African Republic, was an astute old statesman. Time and again he has beaten our British cousins in diplomacy and has proved his worth as a diplomatist.

At the time of the Jameson raid it caused Dr. Jameson and his associates considerable surprise that their plans were known to the Boers almost as soon as they were conceived. The British were met, fought and defeated by an ambushed body of men almost at the very beginning of their attack, and it was believed at the time that one of their number had turned traitor and given the plans to the Boers, but now the secret is known.

The old warrior enlisted the services of the barmaids at Johannesburg in the political secret service. Through them he learned that new men were being enlisted in the Cape police and that new guns were being shipped, week after week, from England. Through the same source he was informed of the attempts that were being made by English politicians to force the hands of the Government of the Orange Free State in case war should be declared by the British Government against his country. The Englishmen babbled all this over their cups and the barmaids' winning smiles and bright eyes never gave them the suspicion that they were telling secrets of vital importance.

No sooner had the pretty barmaids enticed from the sturdy colonists their important secrets than Oom Paul was informed. The old statesman knew how to parry blow with blow. To the amazement of the British, no sooner had they increased their force of available fighters by means of secret enlistment than they were informed that Oom Paul had enlisted a still larger number of men. No sooner had their guns arrived from England than they found out that the Boers also had obtained, from a firm in Germany, a larger number of weapons of still better manufacture. By means of always being forewarned Kruger ward off war.—New York Herald.

LAW AS INTERPRETED.

The owner of an unfinished building is held in *Foley vs. Manufacturers' & B. F. Insurance Company* (N. Y.), 43 L. R. A. 664, to have an insurable interest to the extent of its value, although under the building contract the loss, if there were no insurance, would fall on the builder.

The contract of a member of a mutual benefit association is held in *Lehman vs. Clark* (Ill.), 43 L. R. A. 648, to be a purely unilateral one which entitles him at any time to discontinue his payments without subjecting him to any liability for unpaid assessments, but only to the forfeiture of his interest.

A suit for the cancellation and surrender of a receipt renewing a lapsed life insurance policy on the ground that it was obtained by fraud, is held in *John Hancock Mutual Loan Insurance Company vs. Dick* (Mich.), 43 L. R. A. 566, to be maintainable in equity, although the fraud might be a defense to a pending action at law on the policy.

State taxation of the average number of refrigerator cars used by railroads within the state, but owned by a foreign corporation which has no office or place of business in the state, is upheld in *American Refrigerator Transit Company vs. Hall*, U. S. Advance sheets 630, although the cars are employed as vehicles of transportation in the interchange of interstate commerce.

An insurance policy containing no stipulation as to suicide, taken out in good faith by the insured, is held in *Seller vs. Economic Life Association* (Iowa), 43 L. R. A. 537, distinguishing *Ritter vs. Mutual Loan Insurance Company*, 169 U. S. 39, 42 L. ed. 633, not to be avoided as against the beneficiary named therein by the fact that the assured deliberately committed suicide while sane.

A statute changing the time for election of township trustees, whereby those holding over until the next election will hold for a period longer than the constitutional limit of tenure, is sustained in *State, ex rel. Harrison vs. Menaugh* (Ind.), 43 L. R. A. 408, on the ground that the statute does not extend the term of office, but that the extension of the term is made by requiring officers to hold over until their successors qualify.

Public Fountains Well Patronized. One of Boston's municipal officials, who is especially interested in the establishment of free ice water fountains in that city, hired a man to watch one of the drinking places the other day from 6 a. m. to 10 p. m., for the purpose of ascertaining whether or not it was well patronized. Between the hours named exactly 9,335 persons drank at the city's expense. The fountain has four faucets.

The Remorse of a Guilty Stomach

Henry McLellan, of Hamilton, Ill., is a veteran of the 16th Illinois Infantry. He said:

"For more than 15 years I was a sufferer from gastritis in its worst form. I was much reduced in flesh and strength and unable to attend to business. Finally my wife persuaded me to try Dr. Williams' Pink Pills for Pale People and to my surprise I began to get better. Three boxes effected a cure that has been permanent. When I began to take the pills I weighed 130 pounds; now I weigh 163. These pills did me more good than all the other medicines I have ever taken."

Subscribed and sworn to before me this second day of December, 1897.

String Beans Stewed in Butter.

Prepare the beans as usual, parboil them, then put them on in just enough new boiling water to cover them, and add as much butter as you would use in dressing them to serve. Let them cook in the water and butter for two hours, adding water as it boils away. Pepper and add salt to taste, add a little milk if preferred, and you will have a dish, fit not only for a king, but for the independent American citizen who pays his way as he goes.—Housewife.

Largest Bust on Record.

The bust of Sir Joseph Paxton, the architect of the famous Crystal palace in London, is now being moved from its old position on the terrace to the parade. The work of moving it is much like that of moving a house, for the bust is one of the largest ever made. It was completed in 1863, and stands over nine feet in height. Sir Joseph Paxton was born in Bedfordshire in 1803, and was knighted for his services in designing the Crystal palace. He died in Sydenham in 1865. His plan for the Crystal palace was accepted after 233 other plans had been declined. He also won fame as a landscape gardener and architect, and was elected to parliament as a liberal.—Chicago Tribune.

Music for Nervousness.

Scientists claim that music has power to soothe the nerves. But the quickest way to cure nervousness is to strengthen the nervous system. We know of nothing which will accomplish this quicker than Hostetter's Stomach Bitters. Do not take a substitute. See that a private Revenue Stamp covers the neck of the bottle.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

PE-RU-NA

FOR WOMEN

The debilitating drains and discharges which weaken so many women are caused by Catarrh of the distinctly feminine organs. The sufferer may call her trouble Leucorrhoea, or Weakness, or Female Disease or some other name, but the real trouble is catarrh of the female organs and nothing else.

Pe-ru-na radically and permanently cures this and all other forms of Catarrh. It is a positive specific for female troubles caused by catarrh of the delicate lining of the organs peculiar to women. It always cures if used persistently. It is prompt and certain.

The microbes that cause chills and fever and malaria enter the system through mucous membranes made porous by catarrh. Pe-ru-na heals the mucous membranes and prevents the entrance of malarial germs, thus preventing and curing these affections.
