Every postmaster in Lincoln county is authorized to act as agent for the LEADER.

Any great display of words touching upon the various candidates for congressional honors in this district seems wholly unnecessary at this time, but the majority of voters do desire a display of honest politics—an exhibition that is possible, notwithstanding the contrary opinion of a few cynics. In this connection THE LEADER would like to hear something from the opponents of Congressman Tongue more substantial than insinuations and mere conjecture. If Mr. Tongue has failed, for instance, to do his duty in the Yaquina harbor controversy, why doesn't some opponent who is in possession of the facts turn on the light? Mr. Tongue has now attained a standing in the house of representatives that makes it possible for him to accomplish much for his state and district. It is history that the influence of a new member of congress is practically nil. The people of Oregon know all about swapping horses while crossing a stream. Mr. Tongue is better than any experiment. If there are no more serious objections to him than have so far been given publicity, he is entitled to winning support in the republican congressional convention.

It is now reported that Admiral Dewey has changed his mind and is willing to be president if the people want him. It is hardly probable that the people want him. During the brief period immediately after his return from the Orient, when he was highdinkydink of the whole American range, he was offered anything he wanted and some things that he didn't want, chief among the latter being the presidency. The admiral has permitted the golden opportunity to get away beyond his reach.

The alarming news comes from Texas that the republican party of the state is still split. The doctors should put a few stitches in the split and give the man a chance.

The Hood River box factory will be kept running for the next three months in making up strawberry crates, and will give employment to twenty hands every working day during that time. The price of strawberry crates this year will be 14 cents, one cent cheaper than ever before. About 60,000 crates will be required for this year's crop.—The Columbia River and Oregon Lumberman.

He Can't Believe It.

He's blowing with all his might and can barely stir the recording hand from zero. There's many a big, healthy looking man who is weak in the lungs. Probably half or two-thirds of his lung surface barely knows the contact of oxygen. He's the kind of man, who, when a cough attacks him, goes galloping down the road toward consumption. Many such a man has found strength and healing for weak lungs and tissues lacerated by coughing and drained by hemorrhages, in the use of Dr. Pierce's Golden Medical Discovery. The healing power of this medicine in pulmonary diseases seems little short of marvelous at times, so extreme are the conditions which it cures. The "Discovery" contains no alcohol, and no narcotics.

"When I started to take your 'Golden Medical Discovery,'" writes Mr. A. F. Novotny, of New York, N. Y., Box 147. "I had a regular consumptive cough, of which I was afraid, and everybody cautioned me and warned me concerning it. I was losing weight rapidly, was very pale and had no appetite, whatever. Now my condition is changed entirely. I do not cough at all, have gained eight pounds in weight, have recovered my healthy color, and my appetite is enormous. I can recommend your medicine to everybody who may be in need of the same, as it is a sure cure."
