

CLOSED DOORS.

Little Korea Affords No Field for American Enterprise.

In pursuance of the policy now pursued by the Consular Service of ascertaining the state of foreign fields as opportunities for American labor, capital and enterprise. Horace W. Allen, Consul General to Seoul, Korea, writes for the consular reports that Korea now employs no foreign military officers as advisers or instructors in its army, and is not likely to do so, owing to an agreement made with Russia when a large staff of Russian officers were allowed to leave. By this agreement Korea announced her ability and intention to dispense with further assistance of that kind.

The many requests from young men who have recently left the service of the United States asking for positions in connection with the Korean army are futile. There is no demand for their services in Korea. There is no demand for foreign advisers to the Korean Government. Although two Americans who held such positions have recently died, their places have been filled, and there is no further demand for assistance of that kind. The newspaper report that one of these advisers had been receiving a salary of \$100,000 gold per annum is entirely misleading; such positions pay from \$150 to \$250 per month. There is no demand for employes on the railroads in Korea. Japanese control and operate the steam railroad, and Koreans and Americans are employed on the electric railroads. I believe the positions are all filled. Employment with the mines would have to be secured before coming to Korea. The agent of the mines in America is H. A. Noble, representative of the Oriental Consolidated Mining Company, San Francisco. Prospectors cannot operate in Korea, and there is no employment with the mines other than on wages. I am told the mining company has no lack of applicants.

INGENIOUS MESSAGE BOX.

Invention of a Canadian Is a Fort of an Automatic Office Boy.

A letter-box might be styled a message box, but the latter in reality is something very different and does duty for the small boy who is supposed to preside over the office during the absence of his employer. It consists, as shown, of a small writing desk attached to the outside of the office door. In it is a roll of paper. The strip of paper is exposed in an opening in the top of the desk. In a position convenient to write upon. Means are provided to permit of the paper being unrolled in a forward direction, but a ratchet and pawl

AUTOMATIC OFFICE BOY.

prevents it from being turned in the opposite direction. After the paper is moved forward it passes through a slit in the door, into the office.

The convenience of this arrangement, devised by George E. Toms of Vancouver, Canada, is evident. Suppose you call at an office and find it closed. With the paper and desk before you you would jot down the nature of your business and give the roll a few turns forward with your fingers, when your message would be passed into the office. The next man coming along would do the same thing, but as he could not turn the paper backward he would be unable to discover what your message was, even if he wanted to pry into your affairs.

Half Pennies.

A movement is on foot to put a one-half cent coin in general use in the United States. Several suggestions have been made to the government, and recently a document was presented, signed by the heads of the big department stores of New York, Chicago, Philadelphia and Pittsburg, showing the need for this money in making change where articles are sold at 3%, 7%, 12%, and at similar prices. The half cent coin has been in use in Chicago for the last two years. So far the United States government has nothing to do with issuing this new money. It is put out by individual firms and is only recognized at the store from which it is issued.

Memory Stronger in Summer.

Scientists have discovered that the memory is stronger in summer than in winter. Among the worst foes of the memory are too much food, too much physical exercise, and, strangely enough, too much education.

How He Was Insulted.
"He insulted me," said the legislator.
"Indeed?" returned the plain citizen.
"Offered you money, I suppose?"
"Oh, it wasn't that," replied the legislator, "but he underestimated my price."—Chicago Post.

ANOTHER FAST TRAIN.

The Rio Grande Western Railway's "The Great Salt Lake Route," has resumed its fast train services to the East, making the run from Portland to Chicago in three days and a half. No lay-over is necessary, and only one change of cars is made. Those who desire it have the privilege, however, of a day-light stopover either at Salt Lake City or Denver. Three daily express trains are run, leaving Ogden, Utah, at 7:15 a. m., and 1:15 and 7 p. m. The morning train carries a through standard sleeper to Chicago, via the Burlington Route, and the night train one via the Chicago, Rock Island & Pacific Railway. The tourist sleepers and chair cars run daily as formerly through from Portland to Denver. Twice a week tourist excursion cars are run through from Portland to Boston. All trains carry dining cars, making the trip across the continent, via "The Great Salt Lake Route," most desirable. The Rio Grande Western Railway is the only road running through Salt Lake City, and with its connections—the Denver & Rio Grande and the Colorado Midland—takes the passenger through the famous Rocky mountain scenery of Colorado.

A new way of blasting rock is to place a cartridge of water into a shot hole and convert it into steam instantly by electricity. This method is especially applicable in coal mines.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Troubles of Jamaica.
Jamaica is in a perilous condition. The finances are in an even greater tangle than usual. Trade is depressed, and the people are in a miserable condition of poverty. Successive officials, each more dishonest and corrupt than his predecessor, have sown the wind, and now the nation is reaping the whirlwind.

The injury to soil by flooding by a high tide is variously estimated to last from five to 20 years. A late investigation in Essex, England, showed that the soil was left with two per cent salt, mostly to the complete destruction of earthworms.

Useful Kitchen Table.
A clever housewife has devised a kitchen table which is most servicable, especially in a small room. She had a carpenter make a second top for the ordinary table and had it fitted on to that with hinges at the back. The top shuts down tightly over the table and is used for the daily service, but when bread or pastry is to be made, it is raised, and a fresh pine surface, never used for anything else, is ready.—Washington Star.

ALABASTINE

LABASTINE is the original and only durable wall coating, entirely different from all kalsomines. Ready for use in white or fourteen beautiful tints by adding cold water.

ADIES naturally prefer ALABASTINE for walls and ceilings, because it is pure, clean, durable. Put up in dry powdered form, in five-pound packages, with full directions.

LL kalsomines are cheap, temporary preparations made from whiting, chalks, clays, etc., and stuck on walls with deceiving animal glue. ALABASTINE is not a kalsomine.

EWARE of the dealer who says he can sell you the "same thing" as ALABASTINE or "something just as good." He is either not posted or is trying to deceive you.

ND IN OFFERING something he has bought cheap and tries to sell on ALABASTINE's demands, he may not realize the damage you will suffer by a kalsomine on your walls.

ENSIBLE dealers will not buy a lawsuit. Dealers risk one by selling and consumers by using inferiorment. Alabastine Co. own right to make wall coating to mix with cold water.

HE INTERIOR WALLS of every church and school should be coated only with pure, durable ALABASTINE. It safeguards health. Hundreds of tons used yearly for this work.

N BUYING ALABASTINE, customers should avoid getting cheap kalsomines under different names. Insist on having our goods in packages and properly labeled.

UISANCE of wall paper is obviated by ALABASTINE. It can be used on plastered walls, wood ceilings, brick or canvas. A child can brush it on. It does not rub or scale off.

Andrew Carnegie on Trusts.
A director of the Standard Oil Company has recently published in the Independent an article declaring trusts to be good for the workingman. To the May Century, Andrew Carnegie of the Carnegie Company, which rivals the Standard Oil for first place among the world's great corporations, will contribute an essay taking the same ground. In this article, which bears the title "Popular Illusions About Trusts," the great steel manufacturer argues that the evils of trusts are generally self-corrective; that no trust can live long unless it secures a virtual monopoly of the commodity it deals in; and that "the only people who have reason to fear trusts are those who trust them." In the same magazine "The Real Danger of Trusts"—their menace to the independence of the individual and the state—will be pointed out in a vigorous editorial.

An Inappropriate Gift.
She—I've bought a Noah's ark as a birthday gift for the Jones little boy.
He—Good gracious! Don't you know the Joneses are vegetarians?
"Well, what of that?"
"Why, the Jones baby will be sure to put the animals in his mouth, and probably swallow them."—Philadelphia Press.

Proposed Alliance With England.
If the United States and England should form an alliance, the combined strength would be so great that there would be little chance for enemies to overcome us. In a like manner, when men and women keep up their bodily strength with Hostetter's Stomach Bitters, there is little chance of attacks from disease. The old time remedy enriches the blood, builds up the muscles, steadies the nerves and increases the appetite. Try it.

Compliment With a Sting.
Talk about delightfully put compliments. I heard a girl at a supper deliver herself of a perfect jewel the other night. She leaned across the table—the table next to me—to say it, and she meant well.
"Oh, Miss Dumdum," she said, cordially, "I've got a trade-last for you."
"A swap?" asked Miss Dumdum, beaming with anticipatory delight.
"Uhhuh," answered the other.
"Lieut. Bulbul said it."
"Oh, do tell it!" pleaded Miss Dumdum, eagerly.
"It was an awfully nice one," said the first girl, "and Lieut. Bulbul meant it too. He said you waltzed divinely. He said he was awfully surprised, too, to find it out, so I know he meant it. He said he wouldn't have thought from seeing you walk that you could dance at all."—Washington Post.

Suppressed Emotion.
Sniff—Skooopley's wife is the bravest and coolest person I ever saw.
Shave—Ah! She looks like a very ordinary woman.
Sniff—I know it; but I visited there while her baby was cutting his first tooth. You may not believe it, but at the time nothing in that woman's conduct would lead anyone to suspect that anything unusual was going on!—Puck.

How Much You Eat

Is not the question, but how much you digest, because food does good only when it is digested and assimilated, taken up by the blood and made into muscle, nerve, bone and tissue. Hood's Sarsaparilla restores to the stomach its powers of digestion. Then appetite is natural and healthy. Then dyspepsia is gone, and strength, elasticity and endurance return.

Stomach Trouble.—"My mother had a very bad stomach trouble. She weighed only 111 pounds. After taking four bottles of Hood's Sarsaparilla she weighed 136 pounds. She took it again after the grip, and one bottle got her up." Miss Orie McCoy, 528 Lafayette Ave., Lebanon, Ind. Remember

Decorations to Be Restored.
The old question of restoring the traceries to the windows in the palace of the doges at Venice is again agitating artistic Italy. The exterior of the palace as it stands today was begun in the early part of the 13th century, and required 100 years for its completion. In 1577 fire destroyed all but the walls. Up to that time the windows were enriched with beautiful tracery.—N. Y. World.

Fancy and Fact.
Jane—When I was a girl I used to want to run away from home and be a stern and haughty governess to a lot of wild children who had a handsome brother.
Matha—Is that so?
"Yes; and now I can't even make my two-year-old infant mind a word I say."
