Volume VIII.

Toledo, Lincoln County, Oregon, Friday, July 13, 1900.

Number 19.

LOCAL IN BRIEF.

The Ladies Aid society met with Mrs. Vincent Tuesday and had an interesting session. For the purpose of raising funds to complete the parsonage the society decided to set apart Saturday of each week as "Market Day," when they will place on sale supplies for the Sunday dinner. The store of G. R. Schenck & Co. will be the society's place of business, and tomorrow, Saturday, July 14, will be the opening "Market Day." Everybody invited to call and get acquainted with the plan.

Fred Wagner of Nortons came down Wednesday evening with a badly crippled hand, the result of contact with a chittim grinder. Dr. Darnell removed about half a dozen pieces of bone from the base of the left fore finger. Mr. Wagner met with the accident more than a week ago. It is hard luck, as it will incapacitate him for work for three months, and that during the best part of the year.

U. B. Vogle jeweler and optician, arrived Monday evening and is now ready for business in R. A. Arnold's old stand. Mr. Vogle comes highly recommended by old acquaintances of this place, and deserves your patronage. If he meets with sufficient encouragement he will bring his family to Toledo and become a fixture. THE LEADER wishes him success.

S. P. Conroy of the firm of Conroy, Son & Co. departed Wednesday morning for Fossil, this state, accompanied by his daughter Bertha, who will make her home with her sister, Mrs. John Tonkins, for a few months, in the hope that the change of climate will prove beneficial.

B. F. Jones returned Wednesday night from a locating expedition into the big woods. The woods are full of landseekers—too numerous to mention—and some of them will be disappointed, as the supply does not equal the demand.

There will be a picnic at the old shipyard down the bay one week from tomorrow, July 21. It will be a free-for-all affair and a good time is expected. Everybody except bachelors expected to bring well-loaded lunch baskets.

There will be an excursion over the C. & E. next Sunday from Albany to Newport. Returning, boat leaves Newport at 5:30 p. m. Usual excursion rates from stations in Lincoln county on the C. & E.

Lugger & Pruett make dry goods and furnishings, boots and shoes their exclusive business, consequently they have better values and larger selections than general stores.

I. G. Coleman, the popular representative of Wadhams & Kerr Bros. of Portland, was doing business with our merchants yesterday.

F. O. Johnson, a well-known blacksmith in the C. & E. shops at Yaquina, passed out to Portland Wednesday, having decided to try his luck in a new field.

John Stevens, superintendent of bridges and buildings, and S. J. Brown, foreman of the construction force, worked this end of the line the fore part of the week.

Born—At Yaquina, Oregon, Thursday, July 12, 1900, to Mr. and Mrs. Oscar Fanno, a daughter. Important news like this still brings the highest market price at this office.

Dr. Thayer went down to Yaquina Wednesday night to visit Thomas Pettyman, an employe of the C. & E. shops, who is seriously ill. Dr. Thayer also reports Harry Davis of Yaquina among the sick.

Chester Dixon of Elk City was in Toledo Wednesday afternoon and took advantage of a couple of THE LEADER'S clubbing offers. He went to Yaquina on the evening train to install the officers of the Odd Fellows lodge.

Captain Smith, alias Wild Bill, the mighty hunter of Otter Rock, arrived in Toledo Monday with his famous bear dogs to give Toledo sports the promised bear hunt. They've been at it ever since Tuesday morning, but the bear is still at large. They report lots of fun, however. THE LEADER man joined in the chase Tuesday and walked about seventy miles. We will probably have a better report next week.

SHE'S A WINNER.

[THE LEADER recently mentioned the fact that Moses Gregson was having built a steam barge of his own design. The craft has been completed and made her trial trip last Saturday. Sheriff Ross was accorded the honor of christening the boat. On account of the commotion caused by her twin stern-wheels, he named her "The Splatter," etc. The boat is quite a success, and Mr. Gregson's idea is evidently all right, but it is said a more powerful engine is down. The community welcomes "The Splatter," etc.]

She's off! Now mark the foaming brine
Roll up like breakers on the shore,
And loud as mountain torrent's roar,
A-dashing 'neath the lordly pine,
Salutes the source of her design!

Long may The Splatter, etc., glide
On old Yaquina's constant tide!
Long may her animated stern
The everlasting waters churn!

She moves! A broad and sunny gleam
Illumes her proud designer's face
And gives to doubt the farewell chase;
And he who named her gives her steam
And cheers the princess of the stream.

All hail The Splatter, etc! Now
Place laurels on her sponsor's brow!
Here's to the craft of future fame!
And here's to him who gave her
name!

THE LEADER expects to give further information regarding the institute in a later issue.

TALK ABOUT TIMBER.

The Oregonian last Friday, in an article devoted to timber statistics, estimated that the supply in the United States, at the present rate of consumption, would be practically exhausted in twenty-five years. This reminds us that Lincoln county is rich in fir and spruce timber, although it is not generally known, even by some old settlers, for the reason that outside of the Alsea country the timber is principally on the Siletz reservation. Mr. B. F. Jones of Toledo has since December located 55 timber claims in the timber belt between the head of tide on Depoe slough, north of Toledo, and the Siletz river. He has had a crew of men employed and has surveyed out each quarter section and built a house on every claim, so there can be no misunderstanding as to location. Mr. Jones also informs THE LEADER that Salem capitalists have located with school scrip 8000 acres of timber lands just north of the tract taken by his party, so that in all there has been about 17,000 acres located just north of Toledo since last December. In addition Mr. Jones reports that over 30,000 acres have been located east of Toledo and up the Siletz river, and that two parties of government surveyors, each engaged in surveying a township, are followed by settlers who locate as fast as the lines are run, and he estimates that as a result of the timber locations in Lincoln county since December 70,000 acres will be added to the tax rolls. Mr. Jones has been talking and writing up Lincoln county timber for several years, and he now has the satisfaction of seeing these lands taken and great prosperity for Lincoln county near at hand. It will take many sawmills and an army of men for years to manufacture this fine body of timber into lumber, and it is the tin-bucket men who put money into a country.

Following are the names of Salem parties who have taken timber claims north of Toledo: D. Wall, J. W. Gunn, M. Holstopfer, S. E. Dyer, Julia Brown, H. Young, J. Jenks, A. Davis, R. Davis, G. W. Davis, G. E. Waters, Fred Waters, Edith Hollis, A. L. Brown, D. B. Minto, Scott Bozorth, G. E. Allison, A. M. Southwick, L. Southwick, W. J. Staley, J. J. Roberts, F. M. Brown, A. Connoydr, H. N. Eley, T. A. Linsley, T. Roberts, A. N. Lewis, S. A. Sanford, A. Corron, M. E. Bowshen, Dr. Baker, S. Gile, F. Seley, J. A. Bernardie, J. Damon, H. Damon, Dr. Hurd, Powers, Ragan, Branson and five others whose names we did not learn. These people are all good citizens, willing and financially able to do much toward the development of the county.
