"My baby was terribly sick with the diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave immediate relief and a complete cure." For sale by O. O. Krogstad, druggist.

Order of Pendo.

One more fraternal beneficiary order has been launched in our city, and under most favorable auspices.

Mrs. I. B. McClean of Salem has been in Toledo for ten days securing charter names for the Order of Pendo, and on Monday evening, the 13th inst, an open meeting was held at I. O. O. F. hall, at which C. D. Towle, the supreme organizer, was present and delivered a short address on the merits of life insurance and fraternal orders, and incidentally set forth the special advantages of the Order of Pendo, at the same time speaking well of all other orders. At the close of the open meeting a secret session was commenced, which resulted in the election to membership of fifteen charter members, who were duly obligated and instructed in the secret work of the order. The officers were then elected as follows:

P. C., Mrs. A. Rosebrook; C., Dr. S. S. Thayer; V. C., C. C. Kubler; secretary, Mae Lewis; treasurer, Mrs. Georgie Wade; chaplain, J. R. Turnidge; guide, Mrs. Julia Young; warden, Mrs. Brumfield; sentinel, Mrs. G. King; medical examiner, Dr. S. S. Thayer; trustees, C. Van Cleve, A. Rosebrook and Mrs. C. C. Kubler; musician, A. Rosebrook.

The council is to be known as Toledo Council, Order of Pendo, and held its first meeting yesterday (Thursday) evening. The new order promises to have a successful career.

A MINISTER'S GOOD WORK.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." Where these wretched beings fall they lie, for the fiercest animals have been tamed with intense suffering. The fire of the eye has given place to a dumb prayer, and in many instances they stretch their ragged thin bodies near those of their late enemies and perish with them.

The process of starvation is a gradual one, and its pangs are most excruciating. In some instances mothers and fathers have eaten their children, and in many cases they have deserted them. Left alone they roam in the bare plains, gnawing sticks and bits of earth until too weak to walk. Then they crawl on until, finally, they stop in their agony and wait for death.

There is no form of death that leaves its victim in more fearful shape than death from starvation. Gradually the flesh dries down until it seems glued to the bones like a thin covering. The eyes grow glassy and protrude like balls. The stomach, at first sunken, distends as it goes day after day without any sustenance whatever, and the hair and eyebrows drop out.

As one dwells on the horrors of this famine it is well to bear in mind that this is not a plague, but starvation. Money, no matter how liberally nor how wisely spent, cannot always stop a plague, but bread can always stop starvation, and money can always buy bread. There is no lack of food in India. All authorities agree to this. The lack is of money to buy food.

One of the most distressing features of the famine is the condition of the native women. In many of the native states women are going about without one thread of clothing, and the moral ruin of these districts is assured. It is also a terrible fact that starving girls are everywhere sought after by designing persons to be used for immoral purposes.

The story of this terrible famine cannot be pictured in its horrors. The thousands of dead and the moaning, struggling, heaps of dying defy description; but the condition of today is but the beginning, for while the rain now falling in the famine district is full of promise for the future, it brings no little immediate distress. The six millions of people at relief camps, unprotected by suitable clothing and shelter, are in a pitiable condition. Those leaving the camps, so as to be back at their fields, return to ruined homes.

The immense amount of work that is being done in relief is most effective and praiseworthy, and it is one hopeful evidence that there yet remain in this selfish world a few unselfish and devoted souls.

In the famine districts there are hundreds of both American and European missionaries assisted in doing their splendid work by thousands of honest natives. All denominations of religion are represented in this work, for the fine distinctions of creed are useless in a fight for life, either physical or spiritual. Often in a single day tens of thousands who flock in from the parched and barren districts are fed and cared for. Orphans are especially sought out and the little moaning skeletons are gathered by the hundred into relief camps, where they are clothed and fed. Meanwhile, the Government of India has organized relief on a scale unapproached in the history of the world. The number of sufferers officially aided is not less than six millions. Even that aid is wholly insufficient for the awful need.

What, then, shall we do? What will you do? Together and at once let us move to the rescue. From two to five cents a day will save a life. One dollar will save a life two months. Five dollars will save a man, wife and child until the next crop is gathered. Fifty dollars will save five families, and one hundred dollars will save a small community.

THE LEADER will receive contributions to the famine fund and pub-

India's Starving Millions.

The famine area of India is larger in extent than all New England, New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Michigan and Wisconsin combined; and the population of this territory is over 60,000,000. The number in extreme destitution is nearly 25,000,000, of whom 10,000,000 are actually starving at this time.

The suffering of the millions in the famine districts is beyond the power of mortal pen to describe—terrible in its agony and sickening in its helplessness. The plains are strewn with countless bones and the rivers are poisoned with decomposing bodies of both cattle and men. One traveler tells of finding no less than twenty skulls in a walk of a few minutes.

Every tick of the clock hundreds of men, women and children sink for the last time on the sand. Here they breathe out their lives under the sky that hangs like a molten bowl above them, and out of which the birds drop, lifeless, onto the dry earth that reflects the fierce heat of the sun.

Where these wretched beings fall they lie, for the fiercest animals have been tamed with intense suffering. The fire of the eye has given place to a dumb prayer, and in many instances they stretch their ragged thin bodies near those of their late enemies and perish with them.

The process of starvation is a gradual one, and its pangs are most excruciating. In some instances mothers and fathers have eaten their children, and in many cases they have deserted them. Carry Exhibits Free.

The Southern Pacific Company set a mark for liberality on progressive lines when it offered to carry all exhibits to and from the state fair free. This action of the company places every county on its line in easy reach of the state fair this year, and will enable the Southern portion of the state to exhibit her famous fruits, vegetables and grains at a small expense. The following letter is so plain and to the point that it needs no further comment other than to say it is up to the people now to ensure a successful fair:

Portland, July 26. Mr. M. D. Wisdom, Secretary State Board of Agriculture, Portland, Or.—Dear Sir: In order to encourage exhibitors and attendance at the State Fair this company will transport exhibits originating at points on its lines within the confines of the state to Salem and return to point of origin free of charge. Exhibitors will be required to pay the charges on shipments to Salem, which charges will be refunded when goods are delivered to the company's agent for reshipment to point of origin. Yours truly,
C. H. MARKHAM,
General Freight and Passenger Agent.

NOTICE TO CREDITORS.

In the County Court of the State of Oregon, for the County of Lincoln. In the matter of the estate of Laura A. Whitney, deceased.

Notice is hereby given that the undersigned has been appointed by the county court of the State of Oregon, for the county of Lincoln, administratrix of the estate of Laura A. Whitney, deceased. All persons having claims against the said estate are hereby notified to present them to me at my residence near Chitwood, Oregon, duly verified as by law required, within six months from date of this notice. MAUD W. SMITH, Administratrix of the estate of Laura A. Whitney, deceased. Dated this 24th day of July, 1900.

"Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach," says O. P. M. Holliday, of Deming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." Sold by O. O. Krogstad, druggist.
