

Lincoln County Leader.

Volume VIII.

Toledo, Lincoln County, Oregon, Friday, August 24, 1900.

Number 25.

LOCAL IN BRIEF.

Agents Buford and Prof. and Mrs. Bert I. Metz returned last Friday evening from Chemawa, where they attended the Indian institute. Mr. Buford was accompanied by his daughter, Miss Mary, who has been at Salem for several months past. The institute was evidently a success, judging from the space devoted to it by the Oregonian and Salem Statesman, and we note with pleasure that Agent Buford was elected president of the Pacific Coast Indian Institute Association and Rev. E. H. Bryant, also of Siletz, was chosen chaplain. Mr. Buford's address on "The Indian as a Self-supporting Citizen and Producer," the main part of which appeared in Friday's Statesman, was an unusually able and interesting effort.

George A. Landreth left last Saturday morning for Portland, to be with Mrs. Landreth while she underwent a surgical operation at the Good Samaritan hospital. Late reports indicate that Mrs. Landreth's condition is encouraging. Mr. Landreth probably remain with her at the hospital.

E. H. Bryson of Walla Walla, Wash., returned Monday evening for a visit to the LEADER and other late neighbors. He left Nebraska a year ago, expecting to locate in this county, but got side-tracked at Walla Walla. He may be expected to locate here.

"What is the more objectionable, fuzz or sugar?" is a question under investigation by some of our young folks. We suppose they refer to the condition of the young man's face.

Col. F. Parker returned home on Monday night from his ranch near Yaquina Bay. He says Lincoln county Oregon, is fast filling up with a new and industrious class of farmers, and from being about the poorest county in Oregon, is well on the way to become the richest in agricultural and dairy products. Creameries and cheese factories are springing up all along the line of the Corvallis & Eastern railroad, of which Edwin Stone is manager.

The county is especially adapted for cattle, sheep and goats. It is especially a fruit country and the apples Col. Parker brought back from his orchard of 3000 trees are a sight for sore eyes. The great drawback to the county heretofore has been the vast amount of idle railroad land, and which has been tied up, but now it will in a few weeks be in the market, and intending settlers will be able to obtain homesteads that in a few years will, by industry, make them rich. There is very little frost or snow, there and fruit trees are free from insects pests, which is such a great drawback to horticulturalists elsewhere. Fruit raisers there have a standing offer of one dollar for every apple a worm has infested. Any industrious family can make more than enough to pay the expenses of a ranch every year by raising turkeys, chickens, geese and ducks, to say nothing of berries.

Fish and game abound everywhere and it is really the only country on the Pacific slope where a poor man with enough money to carry him along for a year can locate with the assurance that he will come out all right—in short it is

"A land that asks for labor
And its wealth it wastes away."

It is close to the harbor and bay of Yaquina which the past few days has so vastly been improved that there is now 30 feet of water on the bar. The United States government has the past week blown up with dynamite the only rock that was a menace to navigation. Timber and cool springs, rivers and creeks abound, irrigation is unheard of. All the grasses, clover, rye, barley etc., yield abundantly. Every family has bee hives and honey is a staple product. Altogether Lincoln county, Oregon, is destined to be a future Paradise.—Walla Walla Statesman.

Ed Meaker of Yaquina was up on business the fore of the week.
