

Sheriff's Sale.

By virtue of an attachment, execution and order of sale issued out of the circuit court of the State of Oregon for Lincoln county, in the action of C. E. Hawkins, plaintiff, against E. F. Gaar, defendant, I will, on the

23d day of March, 1901,

at the hour of 1 o'clock p. m., at the front door of the courthouse in the city of Toledo, Lincoln county, Oregon, sell, at public auction to the highest bidder for cash, the following-described real property:

Lot No. Eleven, in Block No. 2, in Toledo, Lincoln county, Oregon.

Said sale will be made to satisfy the judgment and order in said action, to-wit: A judgment for plaintiff for \$50, with interest thereon at the rate of 6 per cent per annum from January 28, 1901, and for costs and disbursements, taxed at \$16.50, and accruing costs.

J. H. ROSS,

Sheriff of Lincoln County, Oregon.
Dated at Toledo, Oregon, this 21st day of February, 1901.

STOOD DEATH OFF.

E. B. Munday, a lawyer of Henrietta, Tex., once fooled a gravedigger. He says: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidney and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c at Krogstad's drugstore.

We have some record-breaking clubbing combinations with many leading periodicals. Come in and learn about them.

The Angle Lamp is a perfect substitute for gas or electricity, as easy to operate as gas and burns less oil than any other lamp. It will save the price of the lamp in oil in a short time. For sale by Schenck & Co.

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she would die from pneumonia before morning," writes Mrs. S. H. Lincoln, who attended her that fearful night, "but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of consumption. After taking, she slept all night. Further use entirely cured her." This marvellous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and \$1.00. Trial bottles free at Krogstad's drugstores.

A Wonderful Offer to Women.

We have received word of a most remarkable offer which is to be made to women by *The Delinicator*, of New York.

Taking the fact that next year begins a new century, *The Delinicator* offers to distribute \$17,500 among 1901 women. The plan is so cleverly arranged that a woman living in a small town or village, has just as good a chance to win one of these 1901 prizes as a woman living in a city—because the prizes are given for the number of subscriptions secured in a town in proportion to the population of that town, instead of being given simply to those who send the largest list of subscribers—which, of course, are most easily obtained in big cities. Another clever feature of the plan is, that all the cities and towns of the United States and Canada have been arranged in seven classes. The cities of the greatest population are grouped in Class 1, and as these cities are not very many, the prizes offered are twenty-eight; the highest prize being \$500, and the lowest \$5.00. The total amount of prizes given away in this class is \$1,000. The remaining smaller towns and villages fall into six other classes, and as the number of towns in a class increases, because, of course, there are more small towns than large ones, the amount of prizes given away to a class increases, so that in Class 7, there will be \$4,000 distributed among 601 winners.

Furthermore, to everyone who fails to win one of the 1901 prizes there will be paid an extra commission on subscriptions, provided they equal one out of every two hundred inhabitants of the town from which the constant sends them.

This is altogether a very liberal offer, and one which the famous old *Delinicator* is well able to make good. From our point of view, we do not see why such an offer needs to be made by the Publishers of *The Delinicator*, for we believe it already has nearly half a million subscribers. Its strong hold upon the affections of American women has come in the past generation, from its practical advice about dress details and home matters.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Krogstad, the druggist.

JOHNSON ITEMS.

More high water.
J. S. Stevens made a very quick trip to the valley and back a few days ago.

Miss Myrtle Parmele has been engaged to teach the Johnson school a term of 5 months, beginning March 4.

Miss M. L. Hampton has been engaged to teach the Salmon school and will come from Newport over the trail on the 23d.

The natives will have to get a hustle on and erect a new schoolhouse. The location is the northwest corner of W. E. Ball's place.

Hoyt and Myrtle Parmele returned after the Old Maids' convention. Can't tell what was the matter with Hoyt. He said his head was heavier than his feet.

Mr. Morris filled his lamps the other evening, but they burned only a short time. Somebody had taken the oil from the can and refilled it with water. The fellow who got his flour, sugar and fruit probably wanted a light also.

Until further notice my appointments will be as follows: First Sunday of the month, Eddyville; second and fourth Sundays, Toledo; third Sunday, Yaquina, in the evening. Fifth Sundays at Toledo. Prayer meeting, Thursday evening; Sunday school at 10 a. m.

C. M. BROWN, Pastor.

Krogstad the druggist will refund you your money if you are not satisfied after using Chamberlain's Stomach and Liver Tablets. They cure disorders of the stomach, biliousness, constipation and headache. Price 25 cents. Samples free.

The claim of other cough medicines to be as good as Chamberlain's are effectually set at rest in the following testimonial of Mr. C. D. Glass, an employe of Bartlett & Dennis Co., Gardiner, Me. He says: "I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until one day I was in the drug store of Mr. Houlehan and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I got a cold, and soon found relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines. For sale by O. O. Krogstad, druggist.

Boys Wanted.

The publishers of the famous big illustrated weekly newspaper, *Pennsylvania Grit*, are now placing representatives at every postoffice in Oregon, and they desire to secure the services of capable hustling agents in each of the following towns of Lincoln county: Chitwood, Elk City, Newport, Siletz, Toledo, Waldport and Yaquina, and in such other towns as are not already supplied. The work is profitable and pleasant. A portion of Saturday only is required. Over 5,000 agents are doing splendidly. No money whatever is required. Everything is furnished free. Stationery, rubber stamp, ink and pad, advertising matter, sample copies, etc. Papers are shipped to be paid for at the end of each month. Those not sold are not charged for. Write to Grit Publishing Co., Williamsport, Pa., and mention THE LINCOLN COUNTY LEADER.

Gaither & Tait are agents for the Salem Woolen Mills. If you want a fine suit of clothes at a reasonable price, call and inspect samples.

Future Power.

Speaking of "Motor Machines in the Future" in the Youth's Companion, Prof. R. H. Thurston of Cornell University says: "Engineers find it difficult to believe that any great improvement in the power and economy of the steam-engine can be devised by even the most inventive and scientific, by even the most learned, mechanics of the new century. That wonderful machine has attained a point in its history which, sooner or later, is reached by every invention; the art of man has carried its improvement to such a degree that further advance must be very slow, toilsome and uncertain. The question of the possible substitution of some other kind of engine which may utilize more fully the conceded energy of coal is one of great importance. The coal-beds of Great Britain are already showing signs of early exhaustion; those of the continent of Europe are rapidly diminishing; and in the United States we are using two hundred millions of tons each year, and with all the world calling for more and more, our whole supply must some day become exhausted. It was long ago predicted by a distinguished geologist that all the immense deposits of Pennsylvania would be entirely used up, at our present rate of consumption, within the next hundred years. A very large part of this fuel is employed in supplying our steam-engines, and the quantity so used is rapidly and constantly increasing. Not long ago the burning of fifty tons a day by a steamship was thought remarkable; today there are steamers on the ocean of twenty and thirty thousand horse-power each which require from twenty to thirty tons an hour, or five hundred to seven hundred tons a day; and the end of the growth of steamships is not yet in sight. Could the same power be produced by engines capable of converting perfectly all the heat of their fuel into power, the coal needed by them would be made to last about eight times as long; and the exclusive use of such perfect engines would more than proportionally extend the life of mankind in temperate regions and in civilized countries."
