

## THE FARMER FAILS

In health just as does the city-man, and he fails commonly from the same cause, "stomach trouble." The farm is a wholesome place to live; the farmer's life is a healthy life; but no external advantages can overcome the effects of a diseased stomach. When the stomach and its allied organs of digestion and nutrition are diseased, the food eaten is imperfectly digested and assimilated, and the consequent loss of nutrition results in physical debility.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food. It builds up the body with sound flesh and solid muscle.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to one hundred and twenty-five pounds and was not able to work at all. Now I weigh nearly one hundred and sixty and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose, therefore accept no substitute for "Golden Medical Discovery."

## The Loganberry.

EDITOR LEADER:

I would like a little space in your worthy paper to say a few words in favor of the Loganberry. I have just measured one of my plants as I have it on the trellis and it measures 28 feet from tip to tip. Now about how they pay: Last spring I gave my boy one plant one year old, and from that plant he sold \$1.50 worth of berries, and this spring he has sold \$4.40 worth of plants, making a total of \$5.90 in one year. If a boy can take a 10-cent plant and make that much in one year, how much should a man make from a hundred plants? Now is the time to set out Loganberry plants. Ten cents each.
