

I Coughed

"I had a most stubborn cough for many years. It deprived me of sleep and I grew very thin. I then tried Ayer's Cherry Pectoral, and was quickly cured."

R. N. Mann, Fall Mills, Tenn.

Sixty years of cures and such testimony as the above have taught us what Ayer's Cherry Pectoral will do.

We know it's the greatest cough remedy ever made. And you will say so, too, after you try it. There's cure in every drop.

Three sizes: 25c., 50c., \$1. All druggists.

Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing.

CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARET. I now have from one to three passages a day, and if I was rich I would give \$100.00 for each movement; it is such a relief."

ALPINE CLIMBING.

Perils and Dangers Which Man Courts Amid the Eternal Snows.

There is something wonderfully exhilarating in the suggestion of the hand to hand conflict with a mountain,

ALPINE CLIMBING.

says a writer in Munsey's in an interesting article on "The Perils of Alpine Climbing." The real dangers, the tremendous difficulties that beset the way, are potent factors in rousing men to action. The height and the apparent inaccessibility of the summit are in themselves a constant challenge. In the daylight the peaks are so grimly tremendous, so self-sufficient, that man bitterly resents the feeling that he is a pitiful pigmy unable to fret their hugeness.

It is not the great panoramic view from the summit that appeals to the thousands who climb the high peaks every year. It is simply the game—the hand to hand struggle with savage nature. The stories of accidents thrill the tourist with horror and make him long to stand on the very spot where some shocking disaster occurred. The tales of the frightful storms at high altitudes, of the fearful avalanches, of the falling rocks, of plunges into crevasses, of laborious cutting of ice steps, of the climbing around ledges with only a finger and toe hold over a precipice from which one can look down thousands of feet, the nights spent on the snow on the mountain side, stories of frost bite, of hours of intense toil, these things merely spur him on.

Some of the hair-breadth escapes of mountain climbers are almost incredible. Men have managed to throw themselves under a sheltering ledge while a rock thundered over them. They have lain so for an hour or more, listening to the mighty cannonading.

One awful catastrophe marks the first ascent of the Matterhorn in 1865. For years the terrible peak had baffled all efforts to scale it. Edward Whymper, a noted climber, had made six unsuccessful attempts before he succeeded. In his party were Charles Hudson, the most accomplished climber of his time; Lord Francis Douglas, another famous climber; a Mr. Hadow and three guides—two Taugwalders and the great Michael Croz. They reached the summit; but early in the descent Mr. Hadow became exhausted. Croz had to place the young Englishman's feet in the ice steps. He slipped, struck Croz in the back, and both fell. The strain on the rope dislodged Lord Francis Douglas, and Mr. Hudson was dragged after him. Mr. Whymper and the Taugwalders braced themselves, and the jerk came as on one man. The rope parted above old Peter Taugwalder, and the four fell from precipice to precipice to the Matterhorn glacier below, a perpendicular distance of 4,000 feet. The terror and horror of the tragedy so paralyzed the survivors that they barely escaped being frozen to death.

THE STUDENT CONGRESSMAN.

Idaho Elects a Young Man While Studying in Chicago University.

Burton L. French, the Congressman-elect from Idaho, enjoys the unique distinction of having been elected to the

lower branch at Washington while still a student. Six years ago he was a farmer's boy without political ambition and with little idea of politics. In 1898 he entered the State University, and there his first political honor came to him when he was nominated and elected to the State Legislature. He served acceptably and gained quite a reputation as an orator and also as an advocate of the national administration's policy in dealing with the Philippines. In 1901 he was re-elected, and was the candidate of the minority for Speaker of the lower house. At the close of the legislative session, French having been graduated from the University of Idaho meanwhile, went to Chicago to work for a master's degree in the university there. He had little means and was compelled to work for his support while studying. Last June when he returned home it was to find that he had been nominated for Congress. He immediately entered into the campaign and visited every county in the State except two, and these had no towns. Many of the points at which he spoke had to be reached by stage or horseback, and long drives over mountainous country had to be taken. He was elected, however, defeating his opponent by 8,000 votes.

DISGUISED CATARRH

A Stealthy, Insidious, Weakening Enemy to Women—Many Thousands and Women Suffer Needlessly From This Cause.

There are a multitude of women, especially housewives, and all other women obliged to be on their feet constantly, who are wretched beyond description, simply because their strength and vitality is sapped away by catarrhal discharges from the pelvic organs. These women get up in the morning tired, drag themselves through their daily duties, only to go to bed at night as tired as before.

Mrs. Eva Bartho, 133 East 12th Street, N. Y. City, N. Y., writes:—"I suffered for three years with what is generally known as leucorrhoea, in connection with ulceration of the womb. The doctors advocated an operation which I dreaded very much, and strongly objected to go under it. Reading of the value of Peruna, I thought it best to give this well known remedy a trial, so I bought three bottles of it at once. Now I am a changed woman. Peruna cured me; it took nine bottles, but I felt so much improved I kept taking it, as I dreaded an operation so much. I am today in perfect health, and have not felt so well for fifteen years."

Mrs. Eva Bartho.

MISS LOUISE MAHON.

Miss Louise Mahon, 3 Glen Ballis Street, Toronto, Ont., Can., Secretary of the Kings Daughters and Secretary of Lady Macabees, writes:—"If all women knew of the benefits to be derived from taking Peruna we would have many happier and more healthy women. My health has never been too robust, and I am easily fatigued and can not stand much. About a year ago I was so run down that I had to take to my bed, and became weaker and weaker. A friend advised me to try Peruna, and I have great reason to be grateful for it. In two weeks I was out of bed and in a month I was perfectly well, and I now find that my health is much more robust than formerly, so that I take Peruna once or twice a month and keep well."

Louise Mahon.

Peruna is such a perfect specific for each case that when patients have once used it they can never be induced to quit it until they are permanently cured. It begins to relieve the disagreeable symptoms at once. The backache ceases, the trembling knees are strengthened, the appetite restored, the digestion made perfect, the dull headache is stopped and the weakening drains are gradually cured. These results certainly follow a course of treatment with Peruna.

Barbara Alberty, corner Seventh and Walnut streets, Appleton, Wis., writes as follows in regard to Peruna:—"For years I have suffered with backache and severe pains in the side. I doctored so much that I became discouraged. A school friend told me how very much Peruna had benefited her and I sent out for a bottle, which did more to relieve me than all the other medicine I have ever taken."

Marriage of Domestic Servants.

In Paris male domestic servants are encouraged to marry, as they are observed to be more settled and attentive to their duty than when bachelors. In London such marriages are discouraged, as rendering servants more attentive to their families than to those of their masters.

MRS. EVA BARTHO.

MRS. ANNA MARTIN.

en. I used it faithfully for two weeks and it completely cured me. I have not had any pains since, anywhere, but feel like a new woman. I am truly thankful for what Peruna has done for me.—Barbara Alberty.

Mrs. Kate Mann, 806 Bathurst Street, Toronto, Ont., Can., Vice President of the Ladies Aid Society, writes:—"I am pleased to give praise to Peruna for the blessed relief I found through its use. I suffered for years with backache and dragging down pains and often had to go to bed and stay there when I was so busy that I could ill be spared. It was therefore a simple godsend to me when Peruna was brought to my notice. Every drop seemed to give me new life, and every dose made me feel much better, and I promised myself that if I found that it cured me I would advocate it so that other suffering women should know of it. I have been in perfect health for one year, I am now and pleasure because in such fine health, and no trouble seems too heavy to bear when you are in good health. Peruna has simply been a household blessing, and I never will be without it again."

Mrs. Kate Mann.

Mrs. Anna Martin, 47 Hoyt St., Brooklyn, N. Y., writes:—"Peruna did so much for me that I feel it my duty to recommend it to others who may be similarly afflicted. About a year ago my health was completely broken down, had backache, dizziness and irregularities, and life seemed dark indeed. We had used for Peruna in our home as a tonic, and for colds and catarrh, and I decided to try it for my trouble. In less than three months I became regular, my pains had entirely disappeared, and I am now perfectly well."

Mrs. Anna Martin.

Mrs. Wm. Hetrick, Kennard, Washington county, Neb., writes:

"I am fifty-six years old and have not felt well since the Change of Life began ten years ago. I was in misery somewhere most of the time, my back was very weak, and my flesh so tender it hurt me to lean against the back of a chair. I had pain under my shoulder blades, in the small of my back and hips. I sometimes wished myself out of this world. Had hot and cold spells, dizziness and trembling of the limbs, and was losing flesh all the time. After following your directions and taking Peruna I now feel like a different person."

—Mrs. Wm. Hetrick.
