

Eruptions

There is only one way to get rid of pimples and other eruptions. And it's simple and easy enough. Cleanse the blood, improve the digestion, stimulate the kidneys, liver and skin, by the same means at the same time. The medicine to take is **Hood's Sarsaparilla**. This statement is confirmed by the experience of thousands whom this medicine has permanently cured. Accept no substitute.

A Lucky Fellow.

Young Million (sadly)—My cousin George is a mighty lucky fellow—handsome chap in town. Friend—Handsome, yes; but he is as poor as a church mouse. Young Million (enviously)—That's the beauty of it. He has a new girl every season, and not one of them makes a fuss when he casts her off.—N. Y. Weekly.

Her Ruse.

Mother—You say your husband no longer spends his evenings at the club? Daughter—I soon broke him of that. Mother—How did you manage? Daughter—Before going to bed put two easy chairs close together by the fire, and then held a match to a cigar until the room got a faint odor of smoke.—New York Weekly.

Her Mild Suggestion.

"Charley, dear," said young Mrs. Torkins, "will you join our progressive euchre club?" "Certainly not. I have no time for euchre." "Well, I won't urge you. But I can't help thinking that if you played the horses as well as I play euchre we'd have a lot of money now."—Washington Star.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Chronic Sores Eating Ulcers, A Constant Drain Upon the System.

Nothing is a source of so much trouble as an old sore or ulcer, particularly when located upon the lower extremities where the circulation is weak and sluggish. A gangrenous eating ulcer upon the leg is a frightful sight, and as the poison burrows deeper and deeper into the tissue beneath and the sore continues to spread, one can almost see the flesh melting away and feel the strength going out with the sickening discharges. Great running sores and deep offensive ulcers often develop from a simple boil, swollen gland, bruise or pimple, and are a threatening danger always, because, while all such sores are not cancerous, a great many are, and this should make you suspicious of all chronic, slow-healing ulcers and sores, particularly if cancer runs in your family. Face sores are common and cause the greatest annoyance because they are so persistent and unsightly and detract so much from one's personal appearance.

Middle aged and old people and those whose blood is contaminated and tainted with the germs and poison of malaria or some previous sickness, are the chief sufferers from chronic sores and ulcers. While the blood remains in an unhealthy, polluted condition healing is impossible, and the sore will continue to grow and spread in spite of washes and salves or any superficial or surface treatment, for the sore is but the outward sign of some constitutional disorder, a bad condition of the blood and system which local remedies cannot cure. A blood purifier and tonic is what you need. Something to cleanse the blood, restore its lost properties, quicken the circulation and invigorate the constitution, and S. S. S. is just such a remedy. S. S. S. reaches these old chronic sores through the blood. It goes to the very root of the trouble and counteracts and removes from the blood all the impurities and poisons, and gradually builds up the entire system and strengthens the sluggish circulation, and when the blood has been purified and the system purged of all morbid, unhealthy matter the healing process begins, and the ulcer or sore is soon entirely gone.

S. S. S. contains no mineral or poisonous drugs of any description, but is guaranteed a purely vegetable remedy, a blood purifier and tonic combined and a safe and permanent cure for chronic sores and ulcers. If you have a slow-healing sore of any kind, external or internal, write us about it, and our physicians will advise you without charge. Book on "The Blood and Its Diseases" free.

Stubborn.

A little girl was talking to her rabbit. "Five times five," she said. "Six times six, seven times seven." Between times she shook the rabbit violently. "Dorothy," said her mother, "what are you doing to your rabbit?" "Well, papa says," replied the child, "that rabbits multiply rapidly, and Bunny won't do it."

Keeping in Practice.

SINGING BULLETS

Are Harmless, but the Silent Missiles Cause All the Trouble.

"Don't be afraid of a bullet that you've heard whistle," said another old soldier. "If it sings in your ear, rest assured that it will never harm you. It is a fact, as any old soldier will tell you, that you never hear the bullet which hits you. It is a problem of 'windage,' as the boys in the army called it. In other words, the bullet which you hear sing has already sped past you, and the bullet which hits you has blinged in the ear of some other fellow in passing before it got to you. It is a simple proposition, after all. The singing of the bullet is the atmospheric vibration which is created and the resistance which the air offers to the progress of the bullet. This cannot be detected by the ear until the bullet has crossed a parallel line with the ear. It may sail over your head or whizz close to the ground, but if it passes you at all the ear will catch the sound of its flight. To the soldier of many battles the voice of the bullet is music. He knows that he need have no dread of the bullet that sings in his ears. It is the bullet that he does not hear that must be feared, and it is this bullet which always brings harm to him. No soldier ever heard the bullet which inflicted a wound on him. I was amused by a raw soldier who was attached to our command. It was his first time on the firing line. We were skirmishing, and some sharpshooters were having some fun at our expense. A bullet whizzed close to him. Faintly we could hear the crack of the rifle, but it was not distinct enough to alarm even a novice. The singing of the bullet, however, brought a blanched expression to his face. He did not wince, however. We were lying in the edge of the woods. Another bullet buzzed by. 'I don't like the sound,' said the younger soldier. Zip! Another bullet spent the air close to his head. He was paler still. 'Comrade,' he said to me, between bleached lips, 'I don't want to be shot from ambush; let's charge the devils!' I told him not to fear a bullet that had spoken to him on its flight, but he did not like the idea of lying there in the woods and listening to the voice of these invisible messengers of death."—Baltimore American.

OF INTEREST TO THE CAMPER.

Summer campers will appreciate the merits of this neat arrangement, which has been designed for their convenience by an Indiana woman. No one wants to take a whole kitchen along when camping out, and the simpler the outfit the greater the enjoyment, but this "stove" is so easy to transport that no one will question its right to a place in the equipment. As a glance at the drawing will show, the stove has two main parts, though others can be added if desired. The post and the

UNIQUE LITTLE CAMP STOVE.

plate are the only necessities, and these are forged of a quality of steel which will resist the action of the heat. The upper end of the post is shouldered to form a base on which the plate can rest, while a steel pin may be used to lock the two together. One side of the plate is left solid, but three sides have openings exactly similar to those of a stove top, and lids may be provided to cover them. If the cook desires to hurry some particular pot or cool off another, all that is necessary is to swing the top of the stove around on its post to bring the pot where the flame is hottest, or vice versa. There is no danger of this stove upsetting, as the central post is driven firmly in the ground before the fire is started.

They Couldn't Guess.

A small mite was with her parents at luncheon, her hands demurely under the table. Suddenly she said: "Mother, you and father can't guess what I have under the table." Then, after the manner of parents who like to please their children, they guessed all kinds of things, but without success, so they said: "We give up; tell us." Then the mite, drawing her face up in a grimace, said: "A stomach-ache."

SUFFERING WOMEN

Mrs. EMMA MITCHELL.

America is the land of nervous women.

The great majority of nervous women are so because they are suffering from some form of female disease.

Mrs. Emma Mitchell, 520 Louisiana street, Indianapolis, Ind., writes:

"Peruna has certainly been a blessing in disguise to me, for when I first began taking it for troubles peculiar to the sex and a generally worn out system, I had little faith.

"For the past five years I have rarely been without pain, but Peruna has changed all this, and in a very short time. I think I had only taken two bottles before I began to recuperate very quickly, and seven bottles made me well. I do not have headache or backache any more, and have some interest in life. I give all credit where it is due, and that is to Peruna."—Emma Mitchell.

By far the greatest number of female troubles are caused directly by catarrh.

They are catarrh of the organ which is affected. These women despair of recovery. Female trouble is so common, so prevalent, that they accept it as almost inevitable. The greatest obstacle in the way of recovery is that

Tired, Nervous, Aching, Trembling, Sleepless, Bloodless—Peruna Renovates, Regulates, Restores—Many Prominent Women Endorse Peruna.

they do not understand that it is catarrh which is the source of their illness. In female complaint, ninety-nine cases out of one hundred are nothing but catarrh. Peruna cures catarrh wherever located.

Chronic invalids who have languished for years on sick beds with some form of female disease begin to improve at once after beginning Dr. Hartman's treatment.

Among the many prominent women who recommend Peruna are: Belya Lockwood, of Washington, D. C.; Mrs. Col. Hamilton, of Columbus, Ohio; Mrs. F. E. Warren, wife of U. S. Senator Warren, of Wyoming.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.
