

# Bronchitis

"I have kept Ayer's Cherry Pectoral in my house for a great many years. It is the best medicine in the world for coughs and colds."  
J. C. Williams, Attica, N. Y.

All serious lung troubles begin with a tickling in the throat. You can stop this at first in a single night with Ayer's Cherry Pectoral. Use it also for bronchitis, consumption, hard colds, and for coughs of all kinds.

Three sizes: 25c., 50c., \$1. All druggists.

Consult your doctor. If he says take it, do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing.

## Her Superstition.

"Are you superstitious?"  
"Not in the least," answered Miss Giggins. "I used to be, but, do you know, I found that whenever I got to believing in signs I had bad luck."—Exchange.

## Deafness.

Cases of deafness should not be allowed to go without treatment. Even the seemingly hopeless cases should be sent to the aurist for an opinion as to a likelihood of improvement under treatment.

## White and Red Heat.

We often speak of "white heat" and "red heat," by which is meant the appearance of bodies, such as masses of iron, raised to different degrees of temperature. A white hot body is hotter than a red hot one.

## The Bloodhound.

The bloodhound will not tear or rend the object of its pursuit. On the contrary, when it overtakes such object it simply evinces joy and gladness. The bloodhound will follow the trail of Indians or any other living creature which leaves a trail.

# THERE IS NO SLICKER LIKE TOWER'S FISH BRAND

Forty years ago and after many years of use on the eastern coast, Tower's Waterproof Oiled Coats were introduced in the West and were called Slickers by the pioneers and cowboys. This graphic name has come into general use that it is frequently though wrongfully applied to many substitutes. You want the genuine. Look for the Sign of the Fish, and the name Tower on the buttons.

# CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and if I was rich I would give \$100.00 for each movement; it is such a relief."

## Bad Teeth.

Many people who come to me to have their teeth attended to complain incidentally of falling eyesight, and when I tell them bad teeth in nine cases out of ten are the cause, few feel inclined to believe me," said a well-known New York dentist.

"Bad sight is generally attributed to overstudy, debilitated constitution and a hundred and one other causes, but have you ever heard any one place the blame on the teeth? Bad teeth are the direct result of insufficient application of the toothbrush, and bad eyesight, resulting from the decayed molars exciting disturbances of the ocular nerves, is the next inevitable penalty. That is a fact which seems to be little known.

"The other day I extracted four decayed teeth of a young girl who was almost totally blind; her pupils were dilated and insensible. A week after I had pulled her teeth her sight was practically restored. Two months previous to this cure the girl had been examined by an expert oculist, who, after putting her to various eye tests, designated the case as 'hysterical amblyopia,' and I guess that's about all the satisfaction the girl got. Judging by her condition when she came to me. In saying this do not think for a moment that I am in any way prejudiced against oculists. I merely cite the instance.

"In the course of a year I attend to the teeth of scores of people with impaired vision, and in every case where the teeth are drawn the sight is soon after either greatly improved or entirely restored."—Exchange.

Heat Exhaustion.—Such exhaustion is a very different thing from sunstroke. In fact its symptoms are directly opposite. In heat exhaustion the skin is cold and clammy and the temperature is subnormal. The patient often loses consciousness and looks deathly pale. The condition is not as serious as sunstroke, but it is dangerous and should receive great care. If at any time during the heated season one feels weak with indistinct vision and disturbed mind; if there is ringing in the ears and a sense of prostration, it is time to stop work and seek medical attention. Aromatic spirits of ammonia, a teaspoonful in a wineglassful of water, is a good remedy to take before the doctor comes. Black coffee is another good stimulant. A cold, wet cloth may be applied to the head and a hot water bottle to the feet.

## Soap Destroys Varnish.

The care of furniture wood is an exceedingly interesting part of the intelligent housekeeper's duty. The daily light dusting must supplement the weekly rubbing if the "bloom" in this instance not desirable is to be kept away. As a rule, the use of oily restoratives is to be deprecated. Unless applied by a tireless arm, and thoroughly rubbed in and thereafter the piece of furniture kept in perfect polish by a daily rubbing, the oil is sure to form a crust sooner or later, which is gummy to the touch and not pleasant to the eye. For this reason, new furniture should be kept as long as possible without the application of such restoratives. Furniture which has been finished with shellac or varnish, whether in glossy or dull finish, should never be cleaned with soap and water. Soap is made to cut all oily substances, and in the performance of the service for which it is made, it eats the oil out of the waxed, oiled or shellacked surface it touches and destroys them.

## She Got the Candy.

It was a Chicago child, not yet 3 years old, who, having been punished by her mother, called up her father on the telephone for sympathy. "Papa," was the call that his stenographer heard on answering the ring. "Why, it's the baby," she said to her employer. The startled man, with visions of disaster in his mind, caught the receiver and said: "What is it, baby?" "Mamma 'panked me," came the reply. "What do you want we to do about it?" asked the relieved and amused parent. "Come right home and bring me a pound of candy," said the child.

# PE-RU-NA PROTECTS THE LITTLE ONES

## Against Winter Catarrh in Its Many Phases.

Neglected Colds in Children Often Bring Disastrous Results.

Peruna should be kept in the house all the time. Peruna should be kept in every house where there are children. Don't wait until the child is sick then send to a drug store. Have Peruna on hand—accept no substitute.

## Pe-ru-na Protects the Entire Household Against Catarrhal Diseases.

As soon as the value of Peruna is fully appreciated by every household, both as a preventive and cure of catarrhal affections, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of disease prevented. Peruna is a household safeguard.

ALICE SCHAFER.

ANNA R. BROWN

Mrs. J. M. Brown, Dungen Springs, Mo., writes: "My little daughter three years old was troubled with a very bad cough which remained after an attack of catarrhal fever. She has taken one bottle of Peruna through which she has obtained a complete cure. She is now as well and happy as a little girl can be. When our friends say how well she looks I tell them Peruna did it."

In a later letter she says: "Our little daughter continues to have good health."

Mrs. Schaffer, 436 Bope Ave., St. Louis, Mo., writes:

"In the early part of last year I wrote to you for advice for my daughter Alice, four years of age. She had been a puny, sickly, ailing child since her birth. She had convulsions and catarrhal fever. I was always doctoring until we commenced to use Peruna. She grew strong and well. Peruna is a wonderful tonic; the best medicine I have ever used.

"I was in a very wretched condition when I commenced to take Peruna. I had catarrh all through my whole body, but thank God, your medicine set me all right. I would not have any other medicine.

"Peruna cured my baby boy of a very bad spell of cold and fever. He is a big healthy boy fifteen months old. I have given him Peruna off and on since he was born, I think that is why he is so well. I cannot praise Peruna enough. We have not had a doctor since we began to use Peruna—all praise to it—Mrs. Schaffer.

## Be Sure to Have Pe-ru-na on Hand During the Inclement Months of Fall and Winter.

Croup, capillary bronchitis, and articular rheumatism are the special banes of childhood. These all alike result from catching cold.

One child catches cold and scares its mother into hysterics by having croup in the dead of night.

Another child catches cold, develops a stubborn cough that will not yield to ordinary remedies. The parents are filled with forebodings.

Still another child catches cold and develops that most fatal malady of children, capillary bronchitis. The doctor is called, pronounces the case pneumonia, and if the child is lucky enough to live it has developed weak lungs from which it may never recover.

And yet another child catches cold and articular rheumatism is the result.

Ankles, knees, wrists and elbows become suddenly swollen and painful. A long disastrous illness follows. The child may live and become convalescent, a miserable invalid of valvular disease of the heart. All these mishaps are the direct result of neglected cold. Peruna is the safeguard of the family. If a child catches cold, Peruna should be used immediately.

A few doses of Peruna and a child's cold is gone. The apprehension of the parents flee away. The household is free from fear once more.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

## Pe-ru-na Kept in the House for Five Years.

Mr. Albert Lietzman, 1596 Milwaukee Ave., Chicago, Ill., writes:

"I am only too glad to inform you that I am feeling splendid and have never felt better in my life. Through the advice of a friend I tried Peruna, and am glad to say it cured me to perfection. I began to tell a friend about Peruna the other day and I had no sooner commenced than he told me his folks have kept Peruna in the house for the past five years. I am sure I wouldn't be without it. Mother also uses it to keep herself in good health."
