Lincoln County Timber.

A special from Independence to the Oregonian, dated August 20, says: - The surveying party of the S. Chapman Lumber Company that has been in the Coast Range Mountains since May 28, completed its task today, coming out a point no one guessed. The survey as completed today intersects the Southern Pacific scarcely half a mile south of Independence, near the old racetrack. The surveying crew, comprising 15 men, is in charge of Engineer L. M. Rice.

The timber found in the Siletz basin was a revelation to the party, many of whom are experienced timber men and surveyors. There is enough timber in the Siletz country, says Chief Engineer Rice, to last 50 years after it is made accessible by rail. The route terminating at Independence is a very feasible one and, according to the survey, it is not over 45 miles into the heart of the rich Siletz basin.

Terminating here, timber over the proposed route could be handled by rail or river, and the Southern Pacific is just completing a spur from within a few rods of where the survey ended today into the bed of the river. A road over this survey would also afford a short cut to Newport.

Married—At Salem, Or., August 24, 1904, William Hoeflein and Miss Elva Akin. The groom is the well-known C. & E. conductor, and the bride was until recently an operator for the same company at Philomath. The popular couple are receiving hearty congratulations all along the line.

Miss Iva Crawford, who has been the guest of Mrs. Lee Wade, returned to her home at Portland Wednesday. Miss Lola Wade accompanied her for a brief visit.

Henry Koch and family, who have been residing on the Crawford place for several weeks, departed Wednesday morning for the valley.

Mrs. Allen Parker went to Albany Wednesday. Her son Virgil of that city is dangerously ill, with but little hope of his recovery.

William Scarth and family left Sunday for an outing at Otter Rock, which is becoming one of Lincoln county's most popular resorts.

John Miecek, the Siletz Hotel man, was a passenger for the valley Wednesday morning.

Superintendent McKoin and E. T. Hamar were over from Siletz Tuesday. Uncle Johnny Nye went to Corvallis Wednesday for a visit with his sister.

That Toledo Bluejacket.

Woo SUNG, China, July 23, 1901.

Dear Folks, One and All: Your very welcome letter of June 12 was received on the 18th of this month, and you can just imagine how glad I was to hear from home, for this was the first mail we have had since June 3. We are still at Woo Sung, and expect to remain until September 1; then we will work south. This is the great typhoon season, and vessels don't monkey around much where they are. The Formosa channel is very bad at this time of the year, and there is no sea-room in there. A ship has to face any storm it may run into, while in the open ocean it has a chance to turn tail and run. I was afraid I would not get to see Shanghai, as the water is too shallow for the ship to get there. It is only 18 miles from here, but we can go by rail. On the 4th we played at night in the Astor Hotel—the biggest hotel in the city—and we had a pretty nice time. Last week we played again at a private residence in Shanghai. We had all our expenses paid, such as railroad and hotel fare, and were served a fine dinner, in first-class style. Shanghai is a beautiful city, from what little I have seen of it. For hundreds of miles in the interior the country is as level as a floor. The city is nice and clean, except in the old Chinese quarter. Everything is all here—nothing doing. My, but time goes slow!—not a thing to do but eat and sleep and watch dirty Chinese pass by the ship. I want to be killed if ever I am fool enough to be caught in Woo Sung again.

July 26—Since writing the above we have all had a good liberty; we got 48 hours. I saw everything there was to be seen, and all for \$4.50 American money. You see I have to go easy, for my time is getting pretty short, and I don't like to blow in too much good money. Shanghai is a fine, modern city, and I believe it is the finest place on the station. The modern part of the city has about 500,000 population, but the old walled city of the Chinese is said to have over a million. They can't count them all. I was in the old walled city a little distance. One has to have a guide to go in. If you didn't, you wouldn't get out alive. The streets are not more than five feet wide, and the dirt and filth and smell are something terrible. I don't see how the people can live. Well, they don't live. They are like a lot of Filipino hogs—the more filth, the better they like it. We went through a lot of opium dens, and there is where you see the misery. In the modern part of the city everything is very fine—nice, wide, well-paved streets and fine stone and brick buildings. They also have a very good band (35 men), nearly all Filipinos. They are paid by the city and play a concert every day. The chief-of-police here is an ex bluejacket of the United States navy, named Murphy. He has a fine job and good pay.

Now I had better close this letter, for it is very hot, and makes me feel lazy. I will try to do better next time. Good-bye for this time. Write often.

Your loving son,
S. W. ROSENROCK,
U. S. S. Wisconsin.
