Syringa Circle No. 21, Women of Wooden ft. will entertain Pochabontas Camp this (Friday) evening at Woodmen Hall. Notice.
All accounts owing to the late firm of Stewart & Vant are payable to the undersigned. All of these accounts must be settled by October 15, 1904, or they will be placed in the hands of an attorney for collection. J. F. STUART, Sept. 28, 1904. Toledo, Or.

For Sale.
My property on First street, Toledo; comfortable 5-room house, lot 50x100 feet. Will also sell household effects; everything at a very reasonable figure. J. R. VANT.

W. A. Williamson and family left Tuesday morning for Albany, where they will remain until next spring—possibly longer. After one continuous round of hard luck with the launch Racine, Mr. Williamson was sufficiently discouraged to give it up and leave the bay. We understand he has sold the hooded boat to Oliver Altree. If Oliver can't make it go, it's a hopeless case. The engine is in Portland undergoing, or rather awaiting, repairs. It was shipped from Toledo July 6 and reached the repair shop September 10. The darned thing wouldn't go much even when on the train.

A. J. McMillan has been selected by the state authorities to do the survey work on the Dalles-Celilo portage road and left Tuesday morning for the scene of operations. The proposed portage road will parallel the O. R. & N. track, between it and the Dalles-Celilo canal to be constructed by the Government. The road will be 8½ miles long, and its object or earthly mission is to be a competitor at that point and hold in check the greedy railroad, P. S.—So 'tis said.

W. A. Shields, formerly of Minnesota but who has during the past year been looking over Alaska and the Pacific Northwest, was among the arrivals in Toledo Monday evening. Mr. Shields is a skilled taxidermist and is looking for a location. He likes Lincoln county, but has some doubt about it being a desirable place for his business.

The firm of Stewart & Vant has been dissolved, Mr. Vant retiring. The latter has not yet decided as to his future movements, but will probably return to Manitoba. Mr. and Mrs. Vant have many warm friends in the community who will regret their departure.

Young man, perhaps you will at the November election exercise for the first time your American privilege of voting for a candidate for President of the United States. Perhaps it's none of our business, but how are you going to vote? If your father is a Republican, make him tell you why he is a Republican; if he is a Democrat, make him tell you his reason for the faith that is in him. Be sure you are right, then go ahead. You are an intelligent young man, and will therefore get in and drill with the party that has the best record. Now is the time to settle the question.

Messrs. W. I. Staley and Francesco Seley departed Monday morning for Salem, where their high-grade talents will be employed during the coming winter. These gentlemen are among Lincoln County's most worthy and energetic citizens. When not engaged in improving their farms, Mr. Staley is in demand as instructor in a business college, while Mr. Seley finds a ready market for his musical lore. After they have in this manner secured a supply of the very necessary legal tender, they will return to their farms and resume the pleasant pastime of grubbing, slashing, burning, seeding, etc.

Good Roads.

CHITWOOD, Or., Sept. 26, 1904.

Editor LEADER:

Much has been said through the columns of THE LEADER and other papers concerning good roads in Lincoln county. I would like to have space to say a few words. In the first place we must consider that the county is poor, and can't make roads for everybody. Some people keep saying the law requires that the supervisors shall open all county roads—not considering that the county is not able to open one-third of the county roads that are already laid out. All the way I see to have roads here is to take our tools and go to work. There are not any of us so poor but that we could put in ten days' work on the road in a year. I am sure we would make it back in the wear on our vehicles and extra feed for our teams. The settlers of Simpson creek neighborhood see it is a fact they must have an outlet to Toledo and the coast for their produce. Our road that is laid out to Toledo we find has fences and brush in the way to hinder the travel that way. Some of it has gates across. As long as we haven't got the road opened to put teams across it isn't much bother to open and shut a good gate to protect a man's crop and give them all a reasonable time to put up fences. We are aiming to have the road so to travel that way by spring. We have all decided to meet Monday, October 3, at the Esby place, with the supervisor, and work east as far as Long's, and then set a day to meet at the mouth of Simpson creek to cut brush off the right-of-way. We would like to have all interested in this road there. W. N. Cook.

S. G. Irvin of Newport is in the city today

Chester Morrison of Pioneer was in the city Wednesday.

Paris Parks of Elk City had business in Toledo Wednesday night.

Landlord Conger of the Hotel Monterey is a Toledo visitor today.

Elmer White and family of Salem are the guests of the former's cousins, the Wade brothers.

Ike Derrick will have charge of Wm. Toner's place up the Yaquina. The present occupant, Mr. Huyek, will return to Michigan.

The best man for our town is he who praises it and talks about it without grossly exaggerating its resources or his own importance, says an exchange. He trades at home and encourages everybody else to do the same thing. He will always have his eyes open and endeavor to steer industrial enterprises into his town, but will never try to fill the town with people before there are means for a livelihood for them. This man will always be courteous and will not have a hard-luck story on the end of his tongue, nor will he tell them that the town is going to the eternal "how-ows." He will never put himself ahead of his town when the public welfare is concerned. He will encourage the public officers; he will never lose his vote; he will keep himself well informed on all questions wherein the public is concerned, and will always be up with the times. By the way, how does this fit you?
