Will You Help?

THE LEADER believes a majority of the taxpayers of Lincoln county feel the importance of having a display of our products and resources at the Lewis and Clark Fair. Other counties will be there with the best side out, and there is not one good reason why Lincoln county should not fall in line. True, preparations for the exhibit should have been started earlier, during the fruit and vegetable growing season, but there is still time and material sufficient for a creditable display.

Every taxpayer—in fact, every voter in the county—can well afford to contribute to this effort to advertise Lincoln county and attract homeseekers and investors. Everything possible has been said in favor of the undertaking and nothing of weight can be presented against it.

When the citizens who have been delegated for this duty call upon you, meet them with a smile and a dollar—or as much more as your big heart and conscience may command. Let us not take a back seat. Let us show the visiting thousands that Lincoln county is on the map and worthy of their respectful consideration.

DRAMATIC RECITAL.

TOLEDO TO HEAR ONE OF THE BEST ELOCUTIONISTS ON THE COAST.

She is at present Dean of the College of Oratory of Willamette University. She has appeared in the largest cities East, West, North and South, and everywhere has received the most flattering press notices. Toledo is fortunate in having an opportunity to hear this gifted artist, and we trust the people will show their appreciation by a giving her a record-breaking house.

Holiday Rate.

The C. & E. has made a rate of one fare for the round trip, on sale and good going December 19 to 30, good returning up to January 7, 1905.

Many Nations Will Exhibit.

The leading nations of the world and many of the lesser ones have during the last few days appointed their national commissions to the Lewis and Clark Centennial, and these have already commenced working in co-operation with the Exposition management. The commissions of several nations which exhibited at St. Louis have already commenced assembling their exhibits for immediate shipment to Portland, and there is no doubt whatever that the powers will be represented at the World's Fair by extensive and comprehensive displays. Many of the exhibits brought from St. Louis will be supplemented by fresh displays from abroad, thus assuring the patrons of the coast show the height of excellence in foreign exhibits—a combination of the cream of what was exhibited at St. Louis and additional displays imported for the occasion.

There will be exhibits from nearly every nation that arises to the dignity of a place on the map. England will maintain her dignity against Germany and Germany against France, while Japan and Russia will struggle for supremacy in a battle of peace. China will have a great display, and Siam and Ceylon, Spain, Mexico, Italy, Turkey, Austria and Egypt will be represented. Even Morocco and Persia will exhibit, Denmark and Sweden have likewise fallen into line, as have Holland and Belgium, and numerous powers of less importance.

Great interest will center about the exhibits from Japan and Russia, both nations having been attracted by the Oriental aspect of the Exposition. The Japanese are planning for a big national pavilion in which will be shown their products, manufacturers and industries, educational conditions, and displays of fine and liberal arts. Russian participation will be on much the same lines, particular attention being given to silk weaving and other manufacturing industries. The Russian fine arts exhibit will probably be the finest at the Fair. It will be made up of works executed by the modern Russian painters and may be housed in a replica of a handsome old Moscow palace occupied by the Romanoffs of the early days.

France and Italy, too, will have fine art displays, and as these countries have long held precedence as art centers, their offerings will no doubt be notable. Mr. Zeggio, the Italian Commissioner, is now in Venice for the purpose of making selections from the Royal Italian galleries for shipment to Portland. France's art collection will be taken from winning pictures in the recent national competition for Exposition exhibits. France will also display government furniture, Gobelins and Beauvais tapestries, Sevres pottery, laces, silks, educational methods, farming, mining and other industrial exhibits.

Austria, according to the present plans of the Austrian commissioner, will show a general outline of all government work in transportation matters, industrial education, and the methods for the general development of industry in Austria.
