Nebraska now has a law prohibiting the manufacture and sale of cigarettes. The world is surely getting better.

President Roosevelt is off on a hunt for big game in Texas and Colorado. In other words, the President is taking a rest by having a strenuous time.

In the municipal elections held Tuesday in many of the large cities the Democrats more than broke even. It is the first chance they have had to smile for a long time.

Heney has agreed to have Senator Mitchell's trial pulled off first. Here is another display of malicious discrimination. "Our Binger" is first on the list, and Heney knows it.

Luther Burbank, "the horticultural wizard" of Santa Rosa, Cal., has grown a daisy a foot in diameter. While it is hardly suitable for a buttonhole bouquet, it is certainly a daisy.

The editor of the Oregonian is being smothered with unusual honors. The good evangelists now laboring in Portland are making him the subject of special and earnest prayers.

It is reported that the Russian fleet is now on its way to meet the Japanese fleet. After this expected naval engagement negotiations for peace will again be resumed—by the daily newspapers.

A bicycle store at Corvallis has been forced to quit business. It is presumed that since the booze stores were chased out of that town the male citizens have gradually regained the use of their legs and are again able to walk uprightly and in a straight line.

Francis J. Heney—you all know Heney—is back in Portland preparing for the land fraud trials. He says Congressman Binger Hermann will surely be convicted on the indictment in Washington for destroying public records. Important if true.

The Democrats have decided to re-elect President Roosevelt, notwithstanding his declaration that he would not again be a candidate. The Democrats ought to be ashamed of themselves. It isn't right to force a gentleman to break his word.

The Portland baseball team beat the Los Angeles team the first two games of the season on the latter's grounds, but the Oregonian didn't appreciate the surprising feats enough to place the reports on the front page under a six-story head. We do love enterprise.

A California astronomer has discovered a new "Milky Way," which is said to be of "great importance to the science of astronomy." As it takes the light from it fifty years to reach the earth, it is clearly too far off to be a factor in terrestrial dairying, therefore we doubt its "great importance."

A news item says Andrew Carnegie's "unfulfilled promises in the matter of endowments for colleges and libraries amount to \$17,000,000." We feel that we could equal this philanthropic feat of Andy's in about a week and still have plenty of time in which to sleep and dream pleasant dreams.

On account of running out of funds for that purpose, the General Land Office has been compelled to give seventeen special land agents a lay-off until Congress makes another appropriation. The investigation of Oregon land frauds—alleged and real—has cost all the timber is worth which figures in the several cases, but it probably makes some difference whether Uncle Sam blows himself against a legalized grafter or is technically robbed.

William Jennings Bryan has undertaken the gigantic task of reorganizing the Democratic party. As he expresses it, the scheme is to "get back to the people." In other words, he wishes to be understood as declaring that the Democratic party has left the people. We doubt if Judge Parker and Grover Cleveland agree with him, and if they and their followers refuse to come back to the people, it won't be a thorough reorganization.
