Will the C. & E. Extend?

Rumors are again floating around in reference to the extension of the C. & E. railroad through the Cascades and on into Malheur county, to connect with the Oregon Short Line. This has for several years been a case of "Hope deferred maketh the heart sick," but there is no doubt that the dear people are still anxious to see the project carried out. As usual in such matters, the parties who know all about it are not yet inclined to talk, and at present there is no good reason for becoming hilarious. A Portland paper has the following upon the subject:

"Preparations are being made to push the extension of the Corvallis & Eastern Railroad on to Malheur county. J. K. Weatherford, vice president and general counsel for the company, spent a portion of the week at Vale, through which town the road is surveyed to pass, and the fact that the legal representative was there straightening up matters pertaining to the work is taken as indicative that operations will soon be begun.

"The original route mapped out was over the hills and on through Malheur Canyon to Ontario, dividing Vale. This will give the Corvallis & Eastern a road through the center of the state, starting from Yaquina Bay, or more definitely at Toledo, on the upper end of that waterway. The line now extends only from the coast to Corvallis through a fertile section.

All sorts of railroad talk has been started with reference to the future of the company in the event the line to Ontario is completed as now projected, and it is said in some quarters that the company will eventually become a branch of the Gould Western Pacific line, but this is not credited, even though it would provide an excellent outlet for the new transcontinental interests."

Toledo Will Celebrate.

If you don't believe it read the bills. Attractions galore. Judge McFadden of Corvallis in the forenoon and other kinds of fireworks in the evening. Games and contests of various kinds in the afternoon. Are you coming?

Baseball.

Sloppy weather prevailed in Toledo last Sunday, but didn't interfere with the great national game. In the forenoon the Siletz second team scalped the Toledo Tigers to the tune of 27 to 25 and in the afternoon the Siletz first team fell before the Toledo Elephants—and great was the fall thereof. When the smoke of battle rolled away an expert produced his pencil and figured out the following result:

Toledo, 36; Siletz, 19.
Wasn't that a regular Jap slaughter?
Following are the principals in the sad affair and the score by innings:

	Siletz
Oscar Brown, c.....	Collins, 2b
Simpson, p.....	Bensell, p
Howell, 2b.....	Fairchild, 1b
Carson, 1b.....	Lane, 3b
Tongeland, ss.....	Crook, rf
McLure, 3b.....	Strong, ss
Anderson, lf.....	Martin, rf
McAnoul, cf.....	Butterfield, c
J. Brown, rf.....	Rob, 1b

Particulars of the morning game seem to have been lost in the mud.

Rev. H. G. Kemp of Siletz was in the city Tuesday.

John Savage was over from Siletz the fore part of the week.

George Wright of Pool slough was in the city Wednesday.

Mr. and Mrs. T. P. Fish returned Saturday from their visit at Oregon City and Portland during the G. A. R. and W. R. C. conventions. Mr. Fish came home feeling just about as young as he used to be.

S. A. Pruett and S. J. Brown came in the fore part of the week from their farms on the Siletz. They found themselves in need of a bath or two and several other things which go with well-regulated ranch life.

Mr. and Mrs. Con Sullivan and Con, Jr., Mrs. J. C. Sullivan and son Ed of Albany and Mrs. Julia A. Farrell of Omaha were in the city Tuesday. The latter is a sister of the late Cornelius (Neil) Sullivan and she came out from Omaha to look after the estate.

George McCluskey returned Tuesday from a trip to his farm in the Yachats country. He was accompanied by Harry Glanz of Hammond and Billy Hoeftle of Toledo. They caught trout too numerous to mention and had other kinds of a good time. George will return to his farm soon to remain during the summer season.

Dr. and Mrs. J. D. Wetmore departed Monday evening for Coquille, Oregon, where they will make their home. After trying Toledo for the better part of three years, the Doctor arrived at the conclusion that this part of the world is entirely too healthy for him, and he looked around for a place where there seems to be something the matter with the people.

Hans Peterson, Toledo's versatile jeweler, is at present supplying a long-felt want to the people of Florence and vicinity, in the Siuslaw country. About once a year Mr. Peterson works himself out of a job in Toledo and then begins to distribute himself over the adjoining coast country until the sign is right for his return. He will be absent two or three months.

J. J. Gaither has sold his telephone line to the Lincoln County Land and Investment Company. The company will have its central office in the Bay View House at Newport, is putting in several phones at Nye Creek, and contemplates extending the line to the lighthouse—possibly on up the coast to Siletz bay. The company has also purchased the Toledo-Siletz line and will connect the same with the Newport line. Several of Toledo's business men and other citizens have arranged to have phones put in. At present the business end of the enterprise in Toledo will be found in Stewart's store.

An Appeal to the People.

The advisability of having a Lewis and Clark Fair was a question of two sides until the Legislature of Oregon said it shall be, and set aside a half million dollars for it. It was no longer a debatable question, but a reality that the taxpayers of the state must face.

The proposition of county exhibits was the next thing to consider, which, like the first was debatable, especially to a county like ours. So much so, that the Court hesitated to use county money for the purpose until besieged by large petitions from the leading taxpayers.

Now that the county has determined to make the exhibit, it is a reality for every man, woman and child in the county. It is not the exhibit of the Court, but we simply make it possible for the people to show to the world the marvelous resources and products of the county. Every one should feel that it is their exhibit and they are responsible for its success or failure, for everyone could do something to help make it if they would. The space is here unoccupied, ready and waiting for your exhibit. I mean you who are reading this. Don't be afraid to send anything you have, whether it be a production of the soil or sea or of your own handiwork. You will have due credit for everything sent. This is your opportunity to make yourself known to the world, and do something for your county. Some people who have done nothing to make this exhibit have found fault with the few who are putting forth an effort to advertise the county and its resources. Now let's be honest, for once at least, and try to help the matter along, or quit fluting fault with those who do. Our exhibit is far from being the poorest here, but it is not what it should be. If we but had half the stuff that was at our little county fairs, how it would open the eyes of the people; but the best we can do on many of those things is to show them an enlarged photograph of Mr. Blower's exhibit which helps to decorate our walls.

The people surely do not realize the importance of helping the display. Hundreds of homeseekers have already been with me inquiring of our country and its possibilities, and many of them will visit there at least, as a result of faithful work with them. Let each one send some token of his industry and patriotism. If you have something nice and don't feel able to give it, take it to Mr. Soule or Mr. King, who will no doubt give you a reasonable amount for it. Don't wait to grow something larger than everybody else, but send the best you have. Talk up the Fair, and when people are sent to the county, treat them with every possible consideration, and great results will follow in the building up of the county and the increase of our prosperity.
