Colonel Buttinski.

He's not a big Russian, with whiskers and hair
That picture the pirates of old;
Nor is he a bully, with jawbone to spare
And tales of his scraps to unfold.
He cuts a small figure, as citizens go,
But at chin music wins in a walk;
Almost omnipresent, this nuisance you know—
The man who butts in when you talk.

On all propositions he's loaded for bear—
You never can catch him asleep;
Themes ancient and modern he's ready to air
In manner exceedingly deep.
He knows all of this and he knows all of that,
And swoops down on your game like a hawk;
You can't put him out, and he's always at bat—
The man who butts in when you talk.

He's not very busy at work of his own—
He's been treated kindly by Fate;
'Tis not his hard portion to labor and groan
And make the world move while you wait.
I envy him never his surplus of ease,
But 'twould give me much pleasure to calk
The hole in the face of the man, if you please,
The man who butts in when you talk.

Having been refused a second trial in the Federal Court by Judge DeHaven, Senator Mitchell will now appeal to the Supreme Court of the United States. We have not yet learned just what the Corvallis and Albany papers think about it.

The famous watermelon patches and fields of the Rogue river valley are on the sick list again, and Prof. A. B. Cordley of the Oregon Agricultural College is the physician in attendance. He expects to have them doing a healthful business again in about three years. The disease with which they are affected is supposed to be a native of 'way down south in Georgia.

With three candidates for Binger Hermann's shoes in Marion county alone, and gentlemen with aspirations in several other counties, there is no danger that the First Congressional district will be without a representative at the National capital. There has been some fear among the timid that the famous land fraud cases would cause an epidemic of congestive chills among the Congressional bees.

The price of admission to the Lewis and Clark Fair grounds in the evening has been reduced by a provision whereby the purchaser of a 50-cent admission ticket receives with his ticket coupons which admit him to 25-cents' worth of shows on the Trail. The arrangement is proving popular. The change was made because it was thought that the 50 cent charge, which merely permitted the visitor to the grounds, was unreasonable, since the exhibit palaces are not kept open in the evenings

People who have had the impression that anthracite coal is found only in Pennsylvania are disillusioned by the exhibit of coal which Colarado has made at the Lewis and Clark Fair. Anthracite coal which contains 90 8 per cent carbon and very little ash, is shown, and the statement is made that the coal is being taken from the ground at the rate of 120 carloads a day, each carload being of from twenty to thirty tons. A great part of the coal, however, is of the bituminous variety, which contains from fifty to fifty-four per cent carbon. That shown at the Fair was mined in Gunnison county. Coke which contains nearly ninety per cent carbon is also shown.

Popular and Picturesque.

The only thing necessary to make the Denver and Rio Grande the most popular, as it has ever been known the most pleasant and most picturesque way to cross the continent, has come about. This is the establishment of through sleeping car service.

In connection with the O. R. & N. a through Pullman Standard Sleeper is now run from Portland to Denver, leaving Portland at 8:15 p. m. arriving at Salt Lake at 8:40 a. m. the second morning, leaving Salt Lake at 3:50 p. m. and arriving at Denver 4:20 p. m. the following day. This schedule gives passengers seven hours stop over in Salt Lake, affording an opportunity to visit the Mormon Capital as well as a day light ride through the grandest scenery in the world.

For reservations in this car and for illustrated booklets picturing the scenery contiguous to the Denver & Rio Grande, proving it to be the "Scenic Line of the World," write to W. C. McBride, General Agent, 124 Third street, Portland.
