Is Your Hair Sick?

That's too bad! We had noticed it was looking pretty thin and faded of late, but naturally did not like to speak of it. By the way, Ayer's Hair Vigor is a regular hair grower, a perfect hair restorer. It keeps the scalp clean and healthy.

"I am well acquainted with Ayer's Heir Vigor and I like it very much. I would espe-cially recommend it as an excellent dressing for the bair, keeping it soft sind smooth, and preventing the bair from splitting at the ends."—MINNIE FRITZ, Veedum, Mich.

Tommy Figjam-Paw, whose picture is that feller there where you're readin'?"

Paw Figjam-Why, that's a halftone of a second cousin of the stepbrother of an aunt by second marriage of the foster sister of the chap who is suspected of being in possession of information as to who was an accomplice of the mysterious unknown who assisted in kidnaping Sloppy Sadie the Sad-Eyed Shop Girl." - Baltimore American.

His Hard Luck.

Brown—Jigsmith is anything but grateful to Dame Fortune.

Green-How's that? Brown-He found a two-carat diamond in the gutter the other day, and

what do you suppose he said? Green-Give it up. What did he say? Brown-"This is hard luck."

The Last Perry Expedition Survivor. The newspapers chronicle the death, June 22d, of two members of the Perry expedition to Japan, 1853-54. The July Century contains the personal recollections of this expedition of John S. Sewall, who was a member of Commodore Perry's party, and who is probably the last survivor of the famous expedition.

A Minister's Chart.

The Rev. Dr. Herrick Johnson was president of the McCormick Theological Seminary in Chicago. A chart hung in his library, showing by pyramids the amount of money spent in various countries of the world for alcohol. Corresponding pyramids on the same chart showed the sums spent by all denominations for missionary work in the world. At the bottom of the chart in large type were the words: "How God Is Robbed."

One evening while Dr. Johnson was walking in the business portion of his city he was stopped by a man who asked him for ten cents. Dr. Johnson told the man that he would give him the money if he would tell him honestly what he wanted it for.

The man replied: "I want to rob God."

He formerly had been employed about the seminary and had seen the chart referred to, and of course he knew Dr. Johnson. He got the ten cents.

Feathered Mason and Potter. Among the birds of the Western

Hemisphere the best mason is a potter as well. This is the oven bird of called the "casara," a housebuilder, by the Spaniards. The nest is made of mud and bits of straw, practically the same as the material used for most buildings in Mexico. The walls are very thick and there is a partition wall inside, reaching so high as to form an ante-chamber.

IF YOU

The Lewis Phono-Metrie Institute and School for Stammerers of Detroit, Michigan. Established eleven years. Have cured thousands. Gold Medal awarded World's Fair, St. Louis, 1901. Recommended by physicians, educators, clergymen, and graduates everywhere. This institution has a Western Branch at Portland with a very large class of popils in attendance—men and women, girlaand boys—all ages, ten to skity. Many have been cured in three weeks, but five to six weeks is the time usually required. Will close in Portland on October 14th. Will accept pouls until September 1st. 4. 4th. Will accept pupils until September 1st. A POSITIVE, ABSOLUTE CURE GUARANTEED. Writeat once for particulars and terms. If you mention Write at once for particulars and terms. If you mention this paper and send 5 cents in stamps, to cover postage, I will send you our cloth bound, 200 page book, "The Origin and Treatment of Stammering," free of charge,

Address WILLIAM T. LEWIS tern Representative Associate Principal S. W. Cor. 18th and Raleigh Streets
PORTLAND, OKEGON
Note—No pupils accepted at Portland after Sept. 1st.

Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION

Turkeys Stuffed by Machine.

In England turkeys are generally sold according to the rule of weight per pound, price per pound. That is to say, if a bird weighs 12 pounds, it is sold at 24 cents per pound; if its weight is 14 pounds, at 28 cents per pound, and so on.

Naturally, all breeders endeavor to make their turkeys as plump and heavy as possible before sending them to market. Systems of fattening are extensively carried on among poultry farmers, turkeys being put into pens and fattened for a period varying from three to ten weeks, either by hand or with machine.

purpose consists of a brass nozzlewhich is inserted in the mouth of the bird-attached to a piece of India rubber tubing, and connected with a cylin der.

In this cylinder is a supply of liquid food, made of buckwheat or some other meal, milk, and a little fat, and it is so arranged that when a pedal is mintion it to the hens at wanst, mum. pressed by the foot a portion of the food, varying according to the stage of fattening-for it is increased in quantity each day until the process is completed-is injected through the tube and nozzle into the bird's crop.-Stray

A Cutting Rejoinder.

The late Baron de Hirsch, the Jewish financier, was dining at a German nobleman's house in company with a certain prince, who made no secret of his venomous antipathy to the Jews. Courtesy proved no barrier to the outflow of his spleen.

Remarking upon a tour he had made in Turkey, he said he had been favorably impressed with two of its cus-

"All Jews and dogs that are caught are immediately killed."

The baron, with smiling sang froid. immediately relieved the scandalized consternation of the other guests with a bland rejoinder:

"How fortunate you and I don't live there!"

Marketing Potato Crops.

In line with the classic case of the oyster shippers, cited by President Hadley of Yale university in his book on Railroad Transportation, is the case of the Aroostook potato growers brought by President Tuttle of the Boston & Maine railroad before the senate committee on interstate commerce. Nothing could better show how a railorad and everybody was something." Alexis should be very proud." works for the interest of the localities

which it serves. A main dependence of the farmers of the Aroostook region is the potato crop, aggregating annually eight to ten million bushels which find a market largely in Boston and the adjacent thickly settled regions of New England. The competition of cheap water transportation from Maine to all points along the New England coast keeps railroad feright rates on these potatoes always at a very low level.

Potatoes are also a considerable output of the truck farms of Michigan, their normal market being obtained in and through Detroit and Chicago and other communities of that region.

Not many years ago favoring sun and rains brought a tremendous yield of ever tried rubbin' his j'ints with hart-potatoes from the Michiagn fields. At shorn liniment, mum? That'll straightnormal rates and prices there would en him out as quick as anything I said "No" to his proposal. have been a glut of the customary know of." markets and the potatoes would have rotted on the farms. To help the potato growers the railroads from Michigan made unprecentedly low rates on potatoes to every reachable market, even carrying them in large quantities to a place so remote as Boston. The Aroostook growers had to reduce the price on their potatoes and even then could not the pampas in South America. It is dispose of them unless the Boston & Maine railroad reduced its already low rate, which it did. By means of these low rates, making possible low prices, the potato crops of both Michigan and Maine were finally marketed. Everybody eats potaotes, and that year every. sieged headquarters with requests to body had all the potatoes he wanted.

rates that would have been ruinous to "I b'longs to y'r company, gin'ral," rethe railroads, had they been applied to turned the darky. "No, you don't," the movement of all potatoes at all declared the General, snarply, "Everytimes, to all places, they helped their body in my company has been shot. patrons to find markets then. The How is it that you haven't been?" The Boston & Maine railroad suffered a de- darky scratched his head. Then from crease in its revenue from potatoes, but his twisted mouth came a confidential it enabled the Aroostook farmers to whisper: "Well, yo' see, gin'ral, it's market their crop and thereby to obtain this a-way. I ain't been shot 'case money which they spent for the varied when dey's a fight goin' on I always supplies which the railroads brought to stays with the gin'rals." them. If the making of rates were subject to governmental adjustment such radical and prompt action could never have been taken, because it is well established that if a rate be once reduced by a railroad company it cannot be restored through the red tape of governmental procedure. If the Michigan railroads and the Boston & Maine railroad had been subjected to governmental limitation they would have felt obliged to keep up their rates as do the railroads of France and England and

When you think yourself over in the middle of the night, you give mighty poor satisfaction.

GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of

life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skind diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or ac-

quired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blem-

ishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.
