Services will be held at the M. E. church next Sunday as usual by the pastor, Rev. Himrod. Morning service at 11 o'clock, subject—"The Coming Kingdom." Evening service at 7:30, subject—"Parable of the Sower." The Sunday school will be reorganized next Sunday.

Word was received Wednesday evening that Miss Vena Alexander was very seriously ill of typhoid-pneumonia at the home of her sister at Wamic in eastern Oregon. Vena had been teaching only a week when she was taken sick. Mrs. Alexander left for the bedside of her daughter yesterday.

George Lewis of Winant had a narrow escape from drowning during the severe wind storm on the night of the 5th inst. He and his partner were fishing near the mouth of King's slough, when the boat was struck by a squall and filled with water, it was only skillful management that saved their lives. They recovered their nets next day.

W. C. Wolfe of Tillamook was in Toledo the fore part of the week. He has been engaged in the dairy business in Tillamook county for a number of years and came down here for the purpose of buying or renting a ranch upon which fifty cows could be kept. Mr. Wolfe is very favorably impressed with this part of Lincoln county and expresses surprise at the undeveloped condition of our ranches and the poor grade of stock which is being kept by the farmers.

The following members of Pocahontas Camp of the Woodmen of the World drove to Newport Wednesday night to assist in instituting a camp at that place: George Freeman, Swen Bradeson, J. W. Parrish, Otto Krogstad, George Hall, Norman Anderson, George Bethers and George McCaulon. After the ceremony they partook of a sumptuous banquet which had been prepared for the occasion. A very enjoyable time is reported, in fact it was only with difficulty that one or two of the neighbors were kept in the vehicle on the return trip.

Siletz Bay Wagon Road.

County Surveyor Wygant returned this week from surveying the proposed wagon road on Siletz bay and reports as follows:

After completion of survey I would say that I view said road as an entirely feasible and easily constructed road.

As shown by field notes and plats, the grades as finally laid out and established are moderate and on the entire route are in no case as great as on the present Toledo-Newport road, and in fact the alignment is much better and this road will be much more easily and cheaply built. Only two bridges will be necessary for the county to build, one across Tide slough near Walter Bones' of a length of 114 feet and a span of 50 feet, and one across Drift creek between W. E. Ball's and George Parmele's of a length of 90 feet and a span of 80 feet. In each case timber is near so that said bridges may be cheaply built.

The crossing of Siletz bay or river is attained at a point where same is only 433 feet wide and where a high bank on the north side of the river and heavy timber makes a crossing by scow safe and unaffected by storm or the waves.

The crossing of Schooner creek is made just above L. Parmele's at a good ford with sandy bottom and may be crossed at all times except during the heavy winter tides when it will be necessary to wait about two hours at high tide.

By the new survey over the hill between Jakey Johnson's and the ocean beach, a much better route has been chosen and on which no grades greater than 8 feet to the 100 feet have been allowed.

By making the change in route from initial point of survey, the original survey of which necessitated the construction of 44 rods of embankment and a bridge of 40 foot span, the change proposed will need only 23 rods of embankment five feet high and no bridge by the county, Joseph Sijota having bound himself legally to construct the remaining 16 rods of embankment and the 40-foot bridge at his own expense and to keep same in repair. This change removes all local objection to the road at this point. I would say farther in this connection that by mutual concessions, which in no case have affected the excellence of the road, all remonstrances and questions of damages have been eliminated. In point of fact the need for this road has been so greatly felt that every person affected has acted in the greatest spirit of fairness and good-will towards the survey and location of same.

In conclusion I would strongly recommend the adoption and construction of this road as now surveyed. There is no question, but that considering the number of people benefitted and who now have no legal outlet anywhere and also the fact that this road will make and complete a continuous, easily and quickly traveled route from Tillamook and Salmon river points to Newport, Toledo and all southern and eastern points in Lincoln county.

The same to be adopted at once and constructed as a whole as soon as the county finances and in the judgment of the Honorable County Court, circumstances will permit.

M. WYGANT.
