### WINTER RATES TO YAQUINA BAY

#### Oregon's Great Recreation and Health Resort at the Newport Beaches.

As a winter health and recreation resort Newport is the one par excellence. Recognizing this, and wishing to give the people an opportunity to breathe the fresh, pure ozone of the ocean, the Southern Pacific and Corvallis & Eastern railroads will resume the sale of tickets through to Yaquina bay on Saturday, October 21, and will sell same throughout the winter and spring on every

WEDNESDAY AND SATURDAY. The rates will be the same as during the summer and will be good for return 30 days from date of sale.

DR. MINTHORN'S SANITARY SEA BATHS will be in operation during the entire winter, and treatments will be given daily. Hot and cold salt water baths can be taken every day in the sanitarium, and for anyone desiring rest, recreation and health, no place on the Pacific Northwest can be found equal to Yaquina bay.

OTHER HEALTH RESORTS CLOSED. During the winter nearly all other health resorts are closed or difficult to reach, and none of them have the advantages of Newport and vicinity as regards climate, points of interest, recreation and amusement. For parties desiring to enjoy fishing, hunting or seeing the ocean in sunshine and storm this famous resort is unequalled. The surroundings are ideal—beautiful scenery, climate mild, healthful and invigorating.

COTTAGE TO RENT CHEAP. Neat, clean cottages, either furnished or partly so, can be rented in the immediate neighborhood of the sanitary baths at about \$5 per month. Plenty of fresh milk, vegetables, honey, fruit and all household necessities can be obtained at the lowest possible cost, while all kinds of fish and the famous rock oysters can be had in abundance for the trouble of securing them.

People troubled with loss of appetite, insomnia, rheumatism or run down from any cause will find Newport an ideal place to regain their health and vigor, or for rest and pleasure.

Full information as to rates, checking of baggage, etc., can be obtained from any S. P. or C. & E. agent, or from J. L. Craig, general passenger agent S. P. Co., Portland; of J. C. Mayo, general passenger agent C. & E., Albany, Oregon.

Rate from Albany, Corvallis and Philomath, \$3.50.

### Call for County Warrants.

Notice is hereby given that I have funds on hand to pay all County Warrants drawn on the General Fund, and endorsed; "Not paid for want of funds" up to and including June 7, 1902. Interest on said warrants to cease from and after said date.

J. L. Hyde, County Treasurer.  
Dated at Toledo, Or., this 12th day of January, 1903.

### Waldport Items.

Mrs. Henry Howell is spending a few days visiting with Jim Harrison and family on the Yachats.

Miss Meta Bobell, who has been visiting her parents for the past two weeks, returned to Portland Tuesday.

Nick Ludemann and Wesley Bales came up from the Yachats to attend the Redmen's ball at Toledo, with Geo. Bobell, John Ludemann and Charlie Graff.

Master Willis Hoover, while playing on the bank of the river at their home above town, fell in and Mrs. Hoover, in trying to rescue him, got beyond her depth and both would have been drowned but for the timely arrival of Mr. Hoover.

Jim Kent had the misfortune to break through a board on the porch at his home and struck his head on the edge of a door, cutting a very bad gash, in which it was necessary to take three stitches.

Mrs. C. R. Evens, Leslie Evens and Clara Graff of Newport came down Saturday to attend lodge, returning Monday.

The all-important subjects with us now are railroad and sawmill.

The basket social given by Miss Martha Kent at the schoolhouse for the school library was a great success financially as well as socially. The excellent program was enjoyed by all.

### WHAT IS ELECTRICITY?

Some of the Numerous Theories on the Mysterious Current.

Well, what is it? It is scarcely possible to say. There are theories—many of them. It is evidently something of which we cannot take a part. We cannot cut a piece of it off and subject it to analysis, nor can we pour a little of it into a bottle for future study and contemplation. It is like the wind—its effects can be measured; its force, strength and quantity can now be calculated to a very nice degree. Still, to liken it to the wind, it is a stupendous power, a mighty typhoon, blowing, as it were, without moving, two ways at once along all parts of its path, giving off a halo of magnetism at right angles to that path everywhere.

One of the nicest theories perhaps is the one that considers electricity a "condition" of atoms brought about by chemical action, as in a battery cell, or by what might be called a severe irritation of the magnetic halo, as in a dynamo, and by other means, such as heat and friction.

What this condition is is beyond us. It may be a violent rotation or it may be an equally violent vibration of atoms, but as no man has seen an atom at any time, not even with the most powerful microscope, it is impossible to say. Friction in some form or other is present, as heat is produced before burning or destruction takes place.—Exchange.

### A Good Cause.

The ladies of St. John's Guild, at their next meeting, will make clothing for the needy of Good Samaritan Hospital. Any and all ladies friendly to the cause, and desiring to assist us any afternoon, will be gladly welcomed. Our regular meeting days are the first and third Thursdays of every month; place of meeting, little room at the back of the church. SECRETARY.
