Whitney for State Printer.

A mistaken idea prevails to some extent as to the emoluments of the State Printer and the practical workings of the office. It is not the big "fat" office it is accused of being.

In the first place the appropriation for "printing" conveys a wrong impression. The biennial appropriation is not for printing alone, but includes also the cost of paper, ruling, election supplies and many smaller items, amounting for the biennial period to about \$23,000. The last report of the Secretary of State to the Legislature will show these figures to be correct. Then the State Printer must provide his own printing plant and pay all running expenses of the office. The pay rolls alone for the two years exceed \$25,000. The Salem Typographical Union can bear out the accuracy of this statement. The cost of material, a limited amount of work done in outside Union offices during a rush in the State Printing Office, rent, power, inks, and a hundred other expenses, adds fully \$10,000 more. This makes \$58,000 of expenses which the State Printer does not get.

Thus it will be readily seen that when the cost of production of the printing is taken into consideration, the State Printing Office is not all profit. It is just like any other printing business. It costs something to run it.

Criticism has for years been directed at the State Printing Office and it seems that it still continues. The present State Printer has been accused of graft, of dividing the profits of the office with political bosses, and of a further division for the use of the state printing plant. There is absolutely no truth in these statements. I pay \$100 per month rental for the plant and no more, which is considered a reasonable rental. I have a lease duly signed to this effect, and there has been no division of the office with any person.

The fees paid the State Printer are fixed by law, and every item printed is measured by an expert printer, appointed by the Governor, whose duty it is to measure the printing and affix the amount due as provided by law. Governor Chamberlain appointed to this position Mr. Albert Tozier, a Democrat, a practical printer, and secretary of the Oregon Press Association, whose integrity is unquestioned and who has measured all printing done and approved all bills therefor in strict accordance with law. Every bill for printing is carefully audited by the Secretary of State. Mr. Dunbar is acknowledged to be one of the best officers the state has ever had, and his auditing stamp of approval is sufficient guarantee of honest accounting.

The State Printing Office is a target of attack without just reason. The heavy cost of printing in past years has been chiefly due to the large number of copies printed. This has been reduced by law, and the price now paid by the State for most of the public printing is not above that charged by the printing firms of Portland, and some of it is considerably less. For some classes of work, especially where a large number of copies are required to be printed, the price should be reduced somewhat.

I have given this subject careful study, and believe there are two methods by which the cost of printing could be kept down to a minimum. One is to limit the volume of printing and revise the schedule of prices upon an up-to-date basis, the same as that of commercial printing generally. The other is for the State to own and operate its own printing plant, and to pay the State Printer a reasonable flat, fixed salary. Either of these plans, or similar plans along these lines, which the Legislature might adopt for the betterment of the service, would meet my hearty support.

My Republicanism will be attested by the people of Linn County, where I formerly edited the Daily and Weekly Herald for twenty years.

As a native Oregonian and a printer of twenty-five years' experience, I have endeavored to conduct the State Printing Office in a clean, business-like manner, and as a candidate for a second term, am willing to stand upon my record. The books of the office are open for inspection. J. R. WHITNEY.

Senator Fulton expects soon to be forced into a struggle in the senate against repeal of the timber and stone act. It has been reported out of the Committee on Public Lands, and champions of this policy intend to get the bill to a vote if possible this session. Senator Fulton has gathered data showing the unappropriated land in Oregon to be about 20,000,000 acres, a considerable portion of which is timber, and he is also ready to prove to the Senate that most Oregon timber land, when at a moderate altitude, is susceptible of more profitable uses than forestry. His figures show that if the Government allows the state only 10 per cent of the funds derived from timber sales, and keeps all of the range leasing charge, Oregon will profit only at the rate of 2 or 3 cents an acre per year. With the support that is expected from Washington, also heavily timbered west of the Cascades, Senator Fulton hopes to have the domain of his state kept open to private entry and development.

When the pioneer mothers of Oregon toiled across the plains beside their weary and heart-sick husbands, beset with perils, threatened with death from murderous savages, menaced by starvation in a barren land and surrounded by all the privations of a wild frontier, did they think the coming generation would be ungrateful and selfish enough to deny them the fullest political prerogative in the state they helped to found? Really, isn't the delay in granting Oregon women the ballot a mean and miserly reward for their joint conquest of the wilderness with their husbands? To think that the thug, the thief, the charlatan, the trickster, the reprobate and the immoral scapegoat may vote in Oregon, but that the pure-minded, noble mothers and wives are denied this privilege, is enough to awaken the thinking citizen to the injustice of the situation. What will the answer of Oregon be?—East Oregonian, Pendleton, Oregon.

GRIP QUICKLY KNOCKED OUT.
"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all of its miserable symptoms," says J. S. Eggleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Sold by O. O. Krogstad.

For Sale—Fine seed oats, both gray and white, 55 cents per bushel. Bargains in flour. See George A. Hall.

CAUGHT COLD WHILE HUNTING A BURG-LAR.

Mr. Wm. Thos. Lanorgan, provincial Constable at Chapleau, Ontario, says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and after using two small bottles, I was completely cured." This remedy is intended especially for coughs and colds. It will loosen and relieve a severe cold in less time than by any other treatment and is a favorite wherever its superior excellence has become known. For sale by O. O. Krogstad.
